November 13, 2011

Dear President Ginther and Members of Council:

Today, in accordance with Section 26 of the Charter of the City of Columbus, I present you with the estimate of the expense of conducting the affairs of the city for fiscal year 2012. As is required under our Charter, this is my 12th balanced budget; a budget that focuses on the safety of our residents, job creation, strong neighborhoods and continued fiscal responsibility.

Safety continues to be our top priority, and the 2012 budget funds additional police and fire classes to replace those officers and firefighters who have retired in conjunction with the State of Ohio's Deferred Retirement Option Plan. By the end of 2012, we will have more police officers and firefighters than at any other time in my tenure as mayor. We will again be funding a summer strike force to ensure that policing activities can be targeted to areas where crime is most prevalent during the summer months. Funding for Applications for Pride, Purpose and Success (APPS) will be expanded within our Recreation and Parks Department. The APPS program targets teens and young adults to get them off the streets and into our recreation centers where they are provided with mentoring and other needed services in a safe and positive environment. The APPS program will be designed this year to also intervene in young people's lives to keep them out of gangs and reduce violence in neighborhoods.

We will continue our aggressive economic development activities in 2012. Working through our existing partnerships with Experience Columbus, Columbus2020!, the Greater Columbus Arts Council, COWIC and TechColumbus we will not only fight to retain existing jobs, but work to bring jobs into the city as well, and ensure that our workforce is appropriately trained to meet the needs of our business community.

Our neighborhoods are the lifeblood of our city, which is why the 2012 budget keeps our recreation centers open guaranteeing that our young people have safe places to exercise, play and learn. We are also maintaining funding for code enforcement and expanding funding for weed abatement, working hard to remove blight from our city. I am also happy to announce that we will begin implementation of a citywide curbside recycling program in 2012. We will phase in this effort across the city until all neighborhoods have access to this basic neighborhood service, thus reducing our city's environmental footprint, lowering our tipping fees and extending the life of the Solid Waste Authority's landfill.

While the city's financial position continues to strengthen, we realize that many in our community are in need of support due to the length and depth of the national economic downturn. That is why we are expanding our funding for service agencies such as the Community Shelter Board in 2012. We have also included funding in the 2012 budget for a focused effort on the South Side through the South Side Collaborative and other human service endeavors. The Columbus Neighborhood Health Centers will also be fully supported in 2012 so that needed health services are available to vulnerable populations.

Our strong fiscal policies have once again resulted in the maintenance of our Aaa bond rating. In fact, our credit rating is stronger than the U.S. government, the State of Ohio and we are now the only city of our size in the country to receive the highest rating from all three rating agencies. In 2012, we will continue our commitment to replenishing our Rainy Day Fund. Savings in 2011 due to reduced spending will allow us to accelerate deposits into the fund in 2012. We will increase our 2012 deposit by \$1.3 million to \$6.7 million bringing the projected balance in the fund to \$40.2 million by the end of the next fiscal year. These deposits keep us ahead of our commitment to restore the balance in our Rainy Day Fund to \$50 million by the end of 2014.

In response to cuts in the Local Government Fund and the elimination of the estate tax and in preparation for the 2013 budget due to those significant cuts, we have created the 2013 Basic Neighborhood Services Fund. We will deposit \$10 million into this fund to ensure the continuation of core city services in fiscal year 2013. It is extremely important that we reserve these funds for use in 2013 when the full impact of the state reductions will be felt in the city's General Operating Fund.

Even though we have made great progress in meeting the goals of our 10-Year Reform and Efficiency Plan, fiscal realities demand that we continue to build on the accomplishments we have made to date. It is our intention to not only meet, but to exceed, the savings identified in the plan to ensure the long-term stability of the General Operating Fund. We have had great success in controlling personnel costs by working with the unions that represent our employees. They understand the challenge in front of us and have responded accordingly by working with us to reduce benefit and insurance costs.

I have proposed a 2012 General Operating Fund budget that is balanced, maintains vital city services, makes strategic investments and promotes fiscal responsibility given economic realities. It is also a budget that is committed to meeting the promises made to the citizens with the passage of the income tax increase. It is only with their support that we can ensure that Columbus continues to be the best city in the nation in which to live, work, and raise a family.

Very truly yours,

A handwritten signature in dark ink, appearing to read "M. B. Coleman", written over a horizontal line.

Michael B. Coleman
Mayor

CITY OF COLUMBUS

Introduction

The 2012 Budget Document

The 2012 budget is organized to provide the reader with user-friendly, yet detailed information on city resource allocation and service delivery. The document is divided into the primary sections outlined below:

Mayor's Goals

The Mayor's goals section discusses the city's major goals for the upcoming year. Included are specific programs and strategies that will contribute toward the achievement of those goals in 2012 and beyond.

Community Profile

The community profile section presents a brief overview of the City of Columbus and the services it provides, as well as information on Columbus area employment and economic development activities.

Financial Overview

The financial overview section discusses the financial environment of the city, both from an internal and external perspective. The section provides an overview of financial issues facing the city in 2012 and beyond. A ten-year pro forma operating statement for the general fund is presented in this section.

Financial Policies

The financial policies section presents the city's financial policies. These policies were developed to ensure that the city's financial resources are managed in a responsible manner and that decisions are made in a disciplined way.

Accounting and Organizational Structure

This section provides information on the city's accounting structure and organizational structures.

Department Summaries

This section describes each department, including the department description and mission, strategic priorities for 2012, and 2012 budget notes. Budget summary charts are presented, listing department financial and personnel data, including information by program.

Performance Indicators

This section presents key performance indicators for city departments.

General Fund Summary

The general fund summary section provides detailed information on general fund revenues, expenditures and personnel levels. A copy of the City Auditor's official general fund revenue estimate is included in this section.

Community Development Block Grant

This section contains an operating summary of the community development block grant (CDBG) funds. Because CDBG funds are appropriated in several departments, 2012 projected expenditure levels by department, division, and object of expense are highlighted here.

Special Revenue, Internal Service, and Enterprise Funds

Cash balance summaries for each fund are included in these three sections, along with descriptions of revenue sources to each fund and ten-year pro forma projections.

All Funds Summary

Detailed budget and historical expenditure and personnel information is included in this section.

Capital Summary

This section describes the city's six-year capital plan and provides an analysis of the special income tax fund, which funds a significant portion of the capital plan.

Mayor's Goals and Initiatives for 2012

The 2012 budget focuses on achievement of the goals of the Columbus Covenant in order to reach our vision “to be the best city in the nation in which to live, work, and raise a family.” Those seven goal areas are:

- **Neighborhoods** – engage and promote strong, distinct, and vibrant neighborhoods
- **Safety** – enhance the delivery of safety services
- **Economic Development and Technology** – provide an atmosphere that promotes job creation and economic growth in existing and emerging industries
- **Education** – encourage and promote participation in learning opportunities
- **Downtown Development** – develop a vibrant and thriving downtown that is recognized as an asset for the region
- **Customer Service** – provide quality and efficient service delivery to customers using “best practices”
- **Peak Performance** – invest in all city employees and develop systems that support a high-performing city government

For each of these seven goals, the administration has identified key initiatives – referred to as strategic priorities – that will advance the achievement of these goals. These strategic priorities are outlined in the individual department sections that follow. Many of these initiatives cross over department lines, requiring city departments to work collaboratively to ensure the success of these initiatives.

In addition, the city will continue to implement the Get Green Initiative. Get Green Columbus is a multi-faceted initiative for the city to craft environmentally sound policies, build healthier neighborhoods, and protect the community's air and water, all while encouraging the development of green buildings and jobs in Columbus.

In addition to initiatives in support of the seven goal areas of the Columbus Covenant, each department has created individual sets of goals and objectives that will provide city residents and elected officials with information regarding the quality, quantity, and efficiency of the services they deliver.

Some of the city's major innovations and undertakings in 2012 are presented below, organized by goal area.

Neighborhoods

- In 2012, the city will continue to coordinate funding from the federal Housing and Economic Recovery Act of 2008, American Recovery and Reinvestment Act and the Financial Reform Act (NSP 1, 2, 3) with public and private sector partners to **revitalize defined areas, focusing on neighborhoods hit hardest by the foreclosure crisis**. The city will coordinate the housing development program with other public and private sector programs, focusing on the city's land banking efforts, to revitalize defined areas of the city with emphasis on the neighborhood investment districts.
- The initial implementation phase of the **neighborhood safety camera** program will be finalized in 2012 with the review of performance data and crime statistics.
- The **summer strike force** will be continued in 2012. The goal of this program is to mitigate crime in high crime areas by focusing concentrated levels of uniformed police resources during statistically high crime months. This targeted approach has been shown to be successful.
- **Collaboration with other organizations** on various projects will continue. Examples include working with Metro Parks on the development of the remaining portion of the Whittier Peninsula, Franklin Park Conservatory on a new greenhouse production facility, Franklin Park and their master plan, Nationwide Children's Hospital on the completion of Livingston Park, and Columbus City Schools on shared parks and playgrounds.
- The plan, design, development and eventual construction of **multi-use trails** through bike and pedestrian studies and mobility plans will be continued.
- Columbus Public Health will lead the city's ongoing efforts to combat the current epidemic of obesity by implementing strategies to **make Columbus an active and vibrant community**. Programming and initiatives dedicated to these efforts include Get Active Columbus, Healthy Children Healthy Weights, the Institute of Active Living, farmers markets, community gardens, bike and walking paths, walking maps and art walks, Creating Healthy Communities Network, the Women Infant and Children program (WIC) and the Healthier Choices Committee.
- With a full complement of recreation centers again open, the city will **invest in its neighborhoods** through varied maintenance and improvement projects, to include improvements to the HVAC and electrical systems, roofs, playground equipment, floors, and landscaping.
- The city will continue to **support social services** for citizens facing the greatest challenges from the current economic recession, by increasing funding for local social service agencies and the Community Shelter Board and maintaining funding for the Columbus Neighborhood Health Centers.
- Staff support to the Big Darby Accord process will be continued in an effort to **balance growth with responsible land stewardship** in a protected watershed. Funding for services will also be provided during the initial implementation of the Darby Town Center.

- In an effort to stabilize and maintain neighborhoods with high rates of foreclosed homes and abandoned properties, additional general fund moneys are being provided to the **weed abatement program** in 2012.

Safety

- **Uniformed personnel levels will increase** by year-end 2012 through the offering of both police and fire recruit classes in 2012. These classes, when combined with those funded in 2011, will ensure that there are a sufficient number of recruits being trained to offset retirements that will occur as a result of the Deferred Retirement Option Plan (DROP) and other separations.
- Departmental and community **planning to prepare for and respond to a range of disasters or emergencies**, including bioterrorism, will continue to be a priority in 2012. Community leadership, public education, staff training, and an emphasis on public health awareness and protection for all Columbus residents will be key themes in 2012.
- In continued partnerships with **Community Crime Patrol and Capital Crossroads**, downtown parks will be monitored to ensure citizen safety and proactively address concerns.
- Police and fire staffing levels will be examined to determine the **most effective and efficient deployment of uniformed personnel**. Staffing adjustments may be made to address inefficiencies when and where they occur.
- The increased functionality of the new police and fire **emergency call center's computer aided dispatch (CAD) system** will improve the city's ability to respond to emergencies, enhance incident management, and improve communication between police officers and firefighters. Work to integrate the new system will continue in 2012.

Economic Development and Technology

- **Job creation opportunities** will be proactively pursued by continued investment in Experience Columbus and Columbus2020!, to promote the economic development of the city.
- Growth among existing and emerging industries will be fostered through the continuation of the targeted **business retention program**.
- In 2012, established relationships with TechColumbus, Columbus2020!, Battelle, The Ohio State University and other similar entities will be leveraged to **encourage entrepreneurship, innovation and commercialization**.
- The city will continue to support **regional economic development strategies** designed to retain and expand companies within advanced logistics, small business, and technology-based industries.
- The city will continue to promote development in the King-Lincoln, Franklinton and Parsons Avenue districts through the use of **small business grants and loans** in 2012.

- The continued implementation and promotion of a **Green Economic Development** policy is an important element in the encouragement of investment in environmentally sustainable business growth.
- In 2012, the city will continue to develop, expand, and implement portions of its **citywide connectivity plan**. This plan outlines the most efficient means by which to connect to city facilities for data exchange and telephone voice traffic. The city will also continue to research and implement a wireless/fiber optic/broadband network technology, integrating it with the overall city network when practical. Information from the plan will be used to determine the extent to which connectivity can be used as an incentive for economic development.

Education

- **After-school and summer initiatives** that expand the educational opportunities available to children in the city will be continued in 2012.
- In partnership with Columbus City Schools, the city will maintain a **presence of police officers and firefighters in the schools**, including 17 school resource officers in Columbus high schools and 20 community liaison officers, who present public safety programs in the elementary and middle schools.
- City departments will partner to enhance the **safety and infrastructure near and around schools** through the installation of sidewalks.
- The Application through Pride, Purpose and Success (APPS) Program will be expanded in an effort to **engage and mentor at-risk youth and young adults**.
- **Safe bicycling** will be promoted through the "Share-the-Road" public awareness campaign which shares tips with motorists and cyclists on how to safely and legally share the roadways.

Downtown Development

- Implementation of the **comprehensive business plan for downtown** development, including strategies for housing, retail, parking, transportation, recreation, and economic/office development will be continued.
- To improve **pedestrian mobility**, the city will collaborate with the Columbus Downtown Development Corporation on the design of the second phase of the Scioto Mile, as well as the construction of the new pedestrian bridge near North Bank Park to connect the east and west banks of the Scioto River.
- Collaboration with Capitol South and the Columbus Downtown Development Corporation on targeted programs to encourage development and redevelopment of the **Mile on High district and other key downtown properties** will be continued.
- **Renovation of the Old Police Headquarters** building, located at 120 West Gay Street, will continue. Various city departments will be relocated from obsolete, high maintenance buildings to this LEED certified facility upon project completion.

- The city will continue to work to **make downtown more environmentally welcoming** by incorporating features such as bicycle amenities, rain gardens, recycling options, and improved pedestrian mobility.

Customer Service

- Citizen access to city services and information through the operation, support and promotion of the **311 service center** will be continued in 2012.
- The five Neighborhood Pride Centers will continue to serve as **links between city services and Columbus neighborhoods** in 2012. Each pride center is a one-stop-shop for various city services and is dedicated to protecting the health, safety, and welfare of families living in their designated area.
- Concepts of community involvement in **crime awareness and reduction** programs and efforts will be promoted in 2012. The focus will be centered on participation in neighborhood crime reduction and organizational efforts such as block watch groups to support community policing partnerships.
- The **community education program for Columbus residents** "SIGNS" will be continued. This program provides information to the public on the safety of restaurants, pools, schools and other venues inspected by Columbus Public Health. Transition to enhanced mobile web technology will improve efficiency.
- The **streamlining of the zoning and permitting process** will continue in 2012 with the updating of the building code, to include definition updates, revisions to residential standards and permitted uses and the deletion of antiquated terms. Revisions to the graphics code will also be initiated in 2012.

Peak Performance

- The city will continue to address components of its **10 year reform and efficiency action plan** related to employee compensation and benefits. Since a number of these reforms must be achieved through collective bargaining negotiations, they will require the collaborative efforts of the labor relations, employee benefits and compensation management program areas.
- The city will continue the implementation of voice over internet protocol (VoIP) telephone systems, a unified communications system which offers features that will **enhance employee productivity** through better management of voicemail and email, the flexibility to work from any location, and voice and video conferencing abilities.
- The development and refinement of strategies to maximize grant dollars for **"greening" the city's vehicle fleet** will continue in 2012.
- In 2012, the city will **expand its use of compressed natural gas**. Annually, the use of CNG will displace over 55,000 gallons of diesel fuel, save \$60,000 to \$90,000 in fuel costs and displace approximately 490 metric tons of carbon emissions.
- The city will continue to upgrade the entire fleet of parking meters with new **smart meters** that, in addition to coins, will take credit and debit cards. Of the

Mayor's Goals

total 4,215 meters being upgraded, the first 2,000 have already been replaced. The balance will be phased in at a rate of 1,000 per year, until the upgrade is complete.

Community Profile

Brief History of the City

Columbus was founded in 1812 at the confluence of the Scioto and Olentangy rivers. In 1803, the year of Ohio's statehood, the capital was moved from Chillicothe, located 45 miles to the south, to Zanesville, located 50 miles to the east, and back to Chillicothe. Created specifically to be the capital city, state officials finally selected a centralized location in Columbus in 1812 and the city officially became Ohio's permanent capital in 1816. The National Road reached Columbus in 1831 and brought with it additional industry and trade. The railroads prospered in the 1850's in the city, and Columbus became a center of manufacturing. The 20th century saw a rise in the aviation, education, business, banking and insurance industries. Today, Columbus continues to be a leader in these and other fields, including research, technology and healthcare.

Form of Government and Organization

The state legislature established Columbus as a city in 1812. The city is a home-rule municipal corporation operating under the laws of Ohio. The City Charter, its constitution, can only be amended by a majority of the city's voters.

The City of Columbus is administered by a Mayor, a seven-member City Council, the City Auditor and City Attorney. These officials are all elected for four-year terms on an at-large basis. The Mayor and four Council members are elected in an odd numbered year. Three Council members, the City Auditor, and the City Attorney are elected in the following odd numbered year. The Charter provides for appointments and elections of successors to these officials if they should, for any reason, vacate their office. All are chosen through a non-partisan process.

The Mayor appoints directors for the Departments of Public Safety, Public Service, Public Utilities, Finance and Management, Development, Building and Zoning Services, Human Resources, Technology, Equal Business Opportunity and Community Relations. The remaining four city department directors are appointed by and report to independent commissions. These are the Recreation and Parks Department Director, the Health Commissioner, the Civil Service Executive Secretary and the Secretary of the Sinking fund. The City Treasurer and Clerk to the Council are appointed by, and serve at the pleasure of the Council.

Location

Columbus encompasses a little over 227 square miles and is located at 39°59' north latitude and 82°59' west longitude in the eastern portion of the U.S. Midwest at 902 feet above sea level. Columbus is within 500 miles of more than half of the nation's population including, among others, the following cities: Chicago (350 miles), St. Louis (400 miles), Indianapolis (175 miles), Detroit (200 miles), Pittsburgh (185 miles), Philadelphia (470 miles), and New York City (500 miles).

Population and Household Demographics

Columbus is home to 787,033 residents (U.S. Census Bureau American Fact Finder 2010 population estimate), with roughly 3,467 residents per square mile. Estimates from the U.S. Census Bureau for the 2010 American Fact Finder report that 48.8 percent of the population is male and 51.2 percent is female. The median age is 31.2 years old and 76.8 percent of the resident population is 18 or older.

According to the American Fact Finder's estimates, 5.6 percent (44,359) of the city's residents identify as Hispanic or Latino with the remaining 94.4 percent (742,647) identifying as not Hispanic or Latino. The racial demographics for the City of Columbus are broken down as follows:

Source: U.S. Census Bureau, 2010 Census

Neighborhoods and Housing

Columbus is comprised of several strong neighborhoods located in the heart of the city as well as in the outer suburbs. The metro area's low cost of living attracts professionals from all over the country. Depending upon one's stage in life, there are several housing options for residents within the city and surrounding areas. Modern downtown lofts and eclectic, first-ring suburban neighborhoods are just some of the options available.

Of the estimated 370,544 households within the city limits, 86.2 percent were occupied in 2010, leaving 13.8 percent, or 51,116 housing units vacant (for rent, for sale and unoccupied, or otherwise vacant). Roughly 44.2 percent of housing units were built prior to 1960. Columbus homes had an estimated median value of \$137,700 in 2010.

Transportation

The Columbus metro area is located within a one day drive or one hour flight of over half the population of the U.S. and Canada. Crossed by eight major interstate highways, the metro area has easy southbound access through the Mid-Atlantic States to the southeast. The region's east-west corridors traverse the country from coast to coast and into the Rockies. Interstate access also provides major benefits for in-state commerce with easy travel possible from any market in the state to another. The region is home to the Port Columbus International Airport, which has recently undergone significant capital improvements, and the Rickenbacker International Airport, just south of Columbus. Rickenbacker is a multi-modal logistics hub serving international airfreight, cargo airlines and manufacturers and distributors.

Of the total working population in the Columbus metro area, 82.4 percent commute to work alone in their vehicles, 8 percent carpool with others, and less than 2 percent utilize public transportation to get to and from work. Mean travel time to work was 22.7 minutes in 2010. The Central Ohio Transit Authority (COTA) operates bus service throughout Franklin County, and parts of Delaware, Fairfield, Licking and Union Counties, providing close to 18 million rides annually.

Healthcare and Education

Columbus is home to some of the best healthcare providers in the nation, including Nationwide Children's Hospital, the OhioHealth system, and The Ohio State University Medical Center. Several public and private colleges and universities are located in the region, enrolling over 100,000 students in the metropolitan area. Columbus City Schools, the largest district in Ohio, has over 55,000 students. High school graduates comprise 88.4 percent of the adult population and 31.6 percent of the city's residents have a bachelor's degree or higher. The Columbus Metropolitan Library has been serving residents since 1873 and maintains a collection of 3 million items at 22 locations throughout the metro area.

Area Employment and Economic Outlook

Business Sectors and Employers

Columbus has a stable employment environment, anchored by local, state and federal government operations, and augmented by financial services, healthcare, pharmaceuticals, information services, energy, and technology companies. The graph below shows Columbus area employment by major sector.

Source: U.S. Bureau of Labor Statistics

While the number of jobs in some sectors, such as mining, logging and construction, manufacturing, and trade and transportation has declined over the past decade, other sectors have grown. Education and health services, professional and business services and the leisure and hospitality sectors have expanded over the past ten years.

Columbus MSA Employment Change, by Sector (2001 to 2011¹)

Employment Sector (non-farm)	# of Jobs 2011	Net Change 2001 to 2011	% Change 2001 to 2011
Mining, Logging and Construction	31,600	(10,600)	-25.12%
Manufacturing	62,800	(32,300)	-33.96%
Trade, Transportation and Utilities	177,400	(17,900)	-9.17%
Information	16,200	(6,300)	-28.00%
Financial Activities	69,100	(7,900)	-10.26%
Professional and Business Services	151,000	18,800	14.22%
Education and Health Services	120,800	30,000	33.04%
Leisure and Hospitality	88,800	7,500	9.23%
Other Services	36,300	1,000	2.83%
Government	149,600	1,300	0.88%
Total Non-Farm Employment	903,600	(16,400)	-1.88%

Source: U.S. Bureau of Labor Statistics

¹ 2011 is estimated using August 2011 preliminary figures

Columbus serves as headquarters to several major national and multinational corporations. In 2010, 15 Fortune 1000 companies were located within the city, including Nationwide Insurance, American Electric Power (AEP), Limited Brands, AT&T, and Big Lots.

Several major employers have made central Ohio home in recent years, investing millions in the local economy and expanding the region's economic base. The table below lists companies that have invested more than \$50 million in Columbus from 2008 through 2010.

Companies with Investments in Columbus over \$50 Million (2008-2010)

Company	Type	Product	Investment
Coca-Cola Company (2010)	Manufacturing	Beverage products	\$120,000,000
FlightSafety International (2008)	Office	Flight simulator software	\$122,500,000
NetJets, Inc. (2008)	Headquarters	Fractional jet ownership	\$73,000,000
Roxane Laboratories (2009)	Manufacturing	Pharmaceuticals	\$67,000,000
CSX Corp. (2008)	Distribution	Rail yard	\$50,000,000

Source: Ohio Private Investment Survey 2008-2010, Ohio Department of Development, March 2011

Central Ohio is on its way to becoming a center for high-tech and "green" industries. Through partnerships with the State of Ohio, the Columbus Partnership, Columbus2020!, Franklin County and others, Columbus continues efforts to strategically attract and retain businesses, investments, and workers that enhance the strengths of the region. Exciting research projects in advanced energy development are underway through private-public partnerships with The Ohio State University and Battelle Memorial Institute, and companies such as Edison Welding Institute and American Electric Power. California-based electric car maker Coda Automotive Inc. has plans to build a battery-making enterprise in Columbus that could employ hundreds.

Several leading information providers are also based in Columbus, including Chemical Abstracts Service and the Online Computer Library Center. In recent years, the healthcare industry has emerged as a new growth sector, with the city boasting four nationally recognized health systems employers that employ 3,100 healthcare workers and contribute over \$4 billion to the local economy. Central Ohio's 20 largest companies are listed below.

Central Ohio's 20 Largest Employers (2010)

Employer Name	Total Full-Time Employees	Revenue
1. State of Ohio	25,608	NA
2. Ohio State University	23,093	NA
3. JPMorgan Chase & Co.	16,975	\$100.43 billion
4. Nationwide Insurance	11,235	\$20.75 billion
5. Ohio Health	7,810	\$2.06 billion
6. Federal Government-United States Postal Service (1)	12,540	\$67 billion
DLA Land Maritime (2)	3,000	\$5 billion
7. City of Columbus	7,739	NA
8. Columbus City School District	7,095	NA
9. Honda of America Manufacturing	7,000	\$92.21 billion
10. Franklin County	6,321	NA
11. Mount Carmel Health System	5,701	\$2.52 billion
12. Kroger Co.	5,417	\$76.7 billion

Source: *Columbus Business First 2010 Book of Lists*, Greater Columbus Largest Employers, December 2010

Note: "Total employed" is the number of persons employed part-time or full-time during a reporting period, including payroll workers, self-employed persons, unpaid workers in family enterprises, and domestic workers. Employers on the list of the largest employers are ranked according to the number of full-time employees.

Unemployment

Of the approximately 869,770 workers in the Columbus metropolitan area labor force, 884,760 (or 92.2 percent) were employed in August 2011. Although unemployment rates have increased in this recessionary period, the city's unemployment rate (7.8 percent as of August 2011) remains lower than that of the state (9.1 percent) and the nation (10.0 percent). Annual median earnings were \$33,321 (in 2010 inflation adjusted dollars) for those in the metro area workforce, aged 16 years or older.

Columbus Work Force

Close to one million people work in the Columbus Metropolitan Statistical Area, nearly a 30 percent increase since 1990. The Columbus work force is highly educated and largely white-collar, creating a supportive environment for innovation and expansion. Approximately 30 percent have bachelor's degrees and 10 percent have master's degrees—numbers that point to a healthy and prosperous future for the city. There are 26 institutions of higher learning in the Columbus area with over 100,000 college students and 20,000 annual graduates. One issue receiving special attention in recent years is that of local “brain drain,” or the exodus of individuals from Columbus to other areas of the nation after they finish their post-secondary programs. By strengthening connections between graduates and local employers, the Columbus Chamber and its partners are working to ensure that the “young and talented” remain in central Ohio after graduation and apply their newly acquired skills and knowledge in the local workforce.

Key Development Projects

Exciting projects are underway in each quadrant of the city, including downtown. Downtown Columbus is seeing a revival with new housing units, commercial development, new parks and redevelopment of neglected parcels. 2012 marks the ninth year of a ten year plan to bring new investment and activity to downtown Columbus. More than 5,000 housing units have been built or are under development.

Since 2002, the city has worked with 36 different companies to keep or bring 4,400 jobs downtown. The total new investment in downtown since 2000 is estimated at \$2.19 billion, with \$711 million in public funding helping to leverage \$1.48 billion in private investment. This includes projects proposed, under construction, or built since 2000.

The downtown skyline will soon have a new addition when a 500-room convention center headquarters hotel, located on the west side of High Street between the Greater Columbus Convention Center and Nationwide Arena, is completed in late 2012. This new hotel is expected to generate an additional 52,000 annual room nights as a result of convention center business. The hotel will protect Franklin County and the City of Columbus' current investment in convention facilities by retaining existing convention business and expanding regional and national conventions in Columbus. This is expected to add 550 jobs and generate \$2.3 million annually in sales, lodging and income taxes. Adjacent to the site is a 900-car parking garage also owned by the Convention Facilities Authority. Funds raised from adjustments to parking meters will fund the city's contribution for the new hotel.

Construction was completed in summer 2011 on the \$38 million Scioto Mile, an unprecedented 50/50 partnership between public and private sectors. The Scioto Mile is a signature riverfront park located in the heart of downtown, stretching from the Arena District to Whittier Peninsula. As part of the Scioto Mile initiative, Bicentennial Park underwent a transformation and now features a 15,000 square-foot water feature with multiple fountains, a permanent stage/band shell and a restaurant with an outdoor terrace for dining overlooking the park.

Columbus Commons, a new nine acre urban park on the site of the former City Center Mall, also opened in 2011. Events such as Family Fundays, free fitness classes, concerts, an outdoor reading room, and carousel have drawn crowds since opening day. The Bicentennial Pavilion, housing live concerts, is scheduled to open in early summer 2012.

New developments are underway on the city's west side as well. Transformation is starting to take place in Franklinton, the city's oldest settlement located just west of downtown. Community members will meet over the next year with city staff and area partners to complete the East Franklinton Creative Community District Plan. Aging warehouse space is being renovated into vibrant live/work space for artists. The city will be home to a casino on the city's west side, which is opening in 2012 and will generate millions in investment and new jobs for the local economy.

The last phase of redevelopment of the former Gowdy Field landfill will be completed late this year when the city's former heliport site is redeveloped into a \$20 million medical office building for The Ohio State University Medical Center. Two phases of the project have already been completed, resulting in two new office buildings, totaling 200,000 square feet of space, \$30 million in investment and more than 700 jobs. The Stefanie Spielman Comprehensive Breast Health Center, in addition to the nearby Ambulatory Surgery Center, will not only enhance the lives of patients and their families, but also strengthen the city's economic base by creating as many as 200 new jobs over the next several years.

Through an agreement with city officials, JP Morgan Chase & Co., one of the area's largest employers, is bringing 1,000 new jobs to the city and retaining another 10,850. The city will net an estimated \$4.5 million in additional income tax from the new jobs over eight years.

The Ohio State University is expanding its Medical Center on its main campus. The \$1 billion project is scheduled to open in 2014 and will create 6,000 permanent jobs and 5,000 temporary jobs during construction. As part of this project, OSU plans to reinvest \$10 million in tax incentives from the city in the Near East Side at OSU Hospital East. This partnership with the city will help transform vacant houses into rehabbed or newly constructed homes, provide homebuyer education programs, and create initiatives to improve health and wellness in the surrounding neighborhoods.

Another major near east/downtown area project is a \$740 million investment in Nationwide Children's Hospital, which is expected to add an additional 1,160 new hospital jobs and generate \$1.3 billion in new regional economic activity. The hospital expansion includes partnerships with the city and others to leverage local and federal funds to redevelop surrounding neighborhoods. Funds will be used to rehab and construct new homes, provide health awareness and other educational opportunities.

Nationwide Insurance agreed to relocate an estimated 1,400 jobs from its Dublin offices to the downtown area, adding to the 7,500 jobs already located at their downtown campus. As part of the agreement, the City of Columbus is creating a Tax Increment Financing District (TIF) to support Nationwide Realty Investor's Grandview Yard development. The TIF will help fund infrastructure improvements within the new \$500 million mixed-use retail and housing center located near Third Avenue and Olentangy River Road.

Key City Services

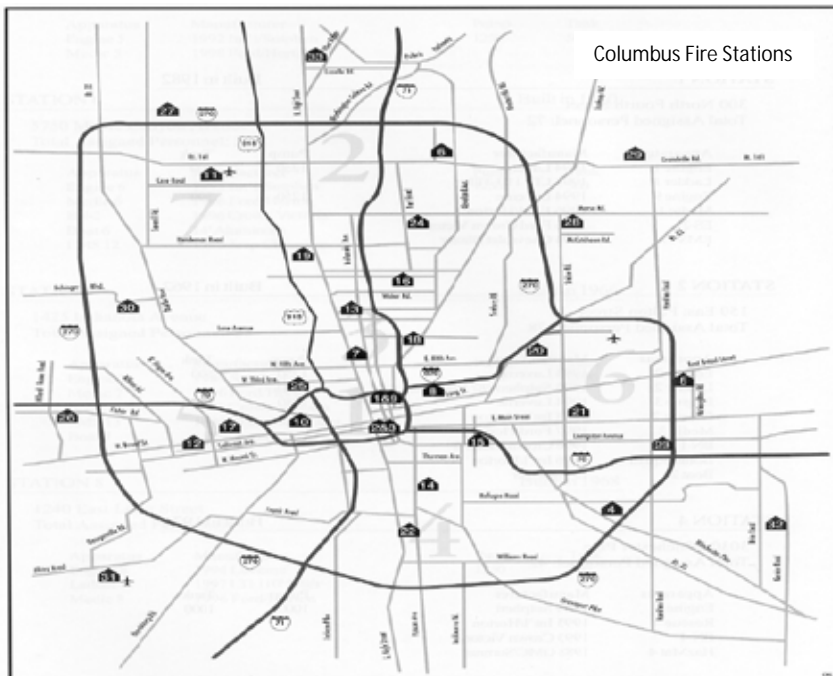

Police Protection

The Columbus Division of Police has 16 substations located throughout the city. There are five patrol zones divided into 20 separate precincts to serve the city's residents. Division headquarters is located at 120 Marconi Boulevard.

Fire Protection

The Columbus Division of Fire has 32 fire stations at various locations throughout the city. Columbus is divided into seven battalion districts from which fire apparatus are dispatched to serve the city's residents. Division headquarters is located at 3675 Parsons Avenue.

Solid Waste Collection

The Division of Refuse serves more than 330,000 households with weekly trash pick-up. The city also offers bulk waste pick-up and yard waste collection services. In May 2012, the city will embark on a comprehensive curbside recycling program with the goal of diverting 35 percent of waste from its landfill. The recycling program will be rolled out in five phases, with the final phase to begin in 2013.

Street System

The Department of Public Service is responsible for day-to-day maintenance of more than 6,300 lane miles of roadways in the city, including 220 bridges. Since September 2011, 159,217 potholes were repaired.

Sewer System

Columbus maintains 4,625 miles of storm, sanitary, and combined sewers and operates two 24-hour wastewater treatment plants (Jackson Pike and Southerly).

	Waste Treatment Summary		
	2010	2009	2008
Total gallons treated	57,283,530,000	55,951,100,000	63,931,960,000
Average (millions gallons per day)	156.9	153.3	174.8

Source: Department of Public Utilities Annual Report

Water System

The source of Columbus' drinking water includes rivers, lakes, streams, ponds, reservoirs, springs and wells. Columbus and more than 20 contracting suburban water customers receive water from one of three plants: Dublin Road Water Plant, Hap Cremean Water Plant and Parsons Avenue Water Plant.

	Water Pumpage Summary		
	2010	2009	2008
<i>Finished water</i>			
Total gallons treated	51,198,060,000	51,469,820,000	53,095,780,000
Average (million gallons per day)	140.27	141.01	145.07
Estimated service population	1,125,900	1,115,200	1,104,500
Average per capita consumption (gallons per day)	125	126	131
Miles of distribution pipe:			
Columbus	2,521	2,593	2,588
Suburbs	954	866	863

Neighborhood Services

The city operates five Neighborhood Pride Centers throughout the community, which serve as one-stop shops for city services. On-site staff includes community liaison police officers, code enforcement officers, solid waste inspectors, and a neighborhood liaison, all of whom work directly with citizens and neighborhood organizations to address issues of concern.

Neighborhood Pride, another unique city program, is an intense, one week service delivery event that brings residents, city staff, and area businesses together to beautify and celebrate a neighborhood. During Pride Week, the city provides alley and street cleanups, evaluation of house exteriors for code complaints, and sponsors community events. Since its inception in 2000, 72 neighborhoods have participated and 797 businesses have become Pride Partners, donating funds and support for the program.

Neighborhoods are also strengthened through the city's Code Enforcement Office, through which 43 code enforcement officers work with residents to ensure that properties meet city codes for health and safety. As of October 2011, code officers received 19,259 requests for service from the 311 customer call center, and issued 14,259 notices of violation.

Public Health

Columbus Public Health provides a variety of preventive and community health services for city residents. The Environmental Health Division conducts regular inspections of food facilities, such as restaurants and mobile food carts, ensuring that safe and proper handling of food is a priority, thus reducing the incidence of food-borne illness in the community. In 2010, the division completed 9,676 inspections of food facilities and held food safety education classes that reached over 1,200 people. The division also inspects public pools and spas, school facilities, and tattoo parlors. Through the popular SIGNS program, residents can quickly see the status of a facility so that they can make more informed choices.

Preventing and containing the spread of communicable disease is another high priority for the Health Department. In 2010, more than 26,000 immunizations were provided to Columbus residents against vaccine-preventable diseases. Ensuring the health of mothers and babies is also a critical mission of the department. Through the Columbus/Franklin County WIC (Women, Infants and Children) program, an average of 10,830 pregnant and post-partum women received breastfeeding and nutrition services in 2010. The department's perinatal health program provided services to 1,303 women in 2010. Sexual health services, including testing and treatment, are another key component of Columbus Public Health's services. In 2010, there were 10,394 visits to the Sexual Health Clinic for testing, examination and/ or treatment. HIV and STI prevention, along with diagnosis and treatment, continue to be important aspects of the program.

Sports, Recreation and Cultural Amenities

Parks

Columbus operates over 230 parks and maintains approximately 15,000 acres of parks and recreation areas. Community parks offer athletic fields and ball diamonds, playgrounds and picnic areas and may have walking/biking trails, pools, recreation centers and/or shelter houses. Smaller neighborhood parks are located throughout the city offering easy access to green space close to home.

The city unveiled its newest renovated downtown park in July 2011 with the completion of the first phase of the Scioto Mile. The full Scioto Mile stretches along the Scioto River from North Bank Park and then south to Battelle and Bicentennial Parks, and continues on to provide a link to the Scioto Audubon Park on the Whittier Peninsula.

Community Centers/Programs

There are 30 community centers located throughout the city. The Recreation and Parks Department currently operates 28 of those centers with two others leased to non-profit organizations. All of the centers serve a wide variety of age groups from youths through senior citizens, and offer outdoor activities such as basketball courts, tennis courts, playgrounds, and soccer and baseball fields.

Additionally, the department offers over 80 camps throughout the summer ranging from sports and art themed camps to outdoor education and therapeutic recreation programs.

Pools (indoor, outdoor, and sprayground)

Columbus will operate four outdoor pools, one indoor pool and one sprayground in 2012. Certified water safety instructors provide free learn-to-swim classes at the swim facilities for children and adults during the summer months.

Golf

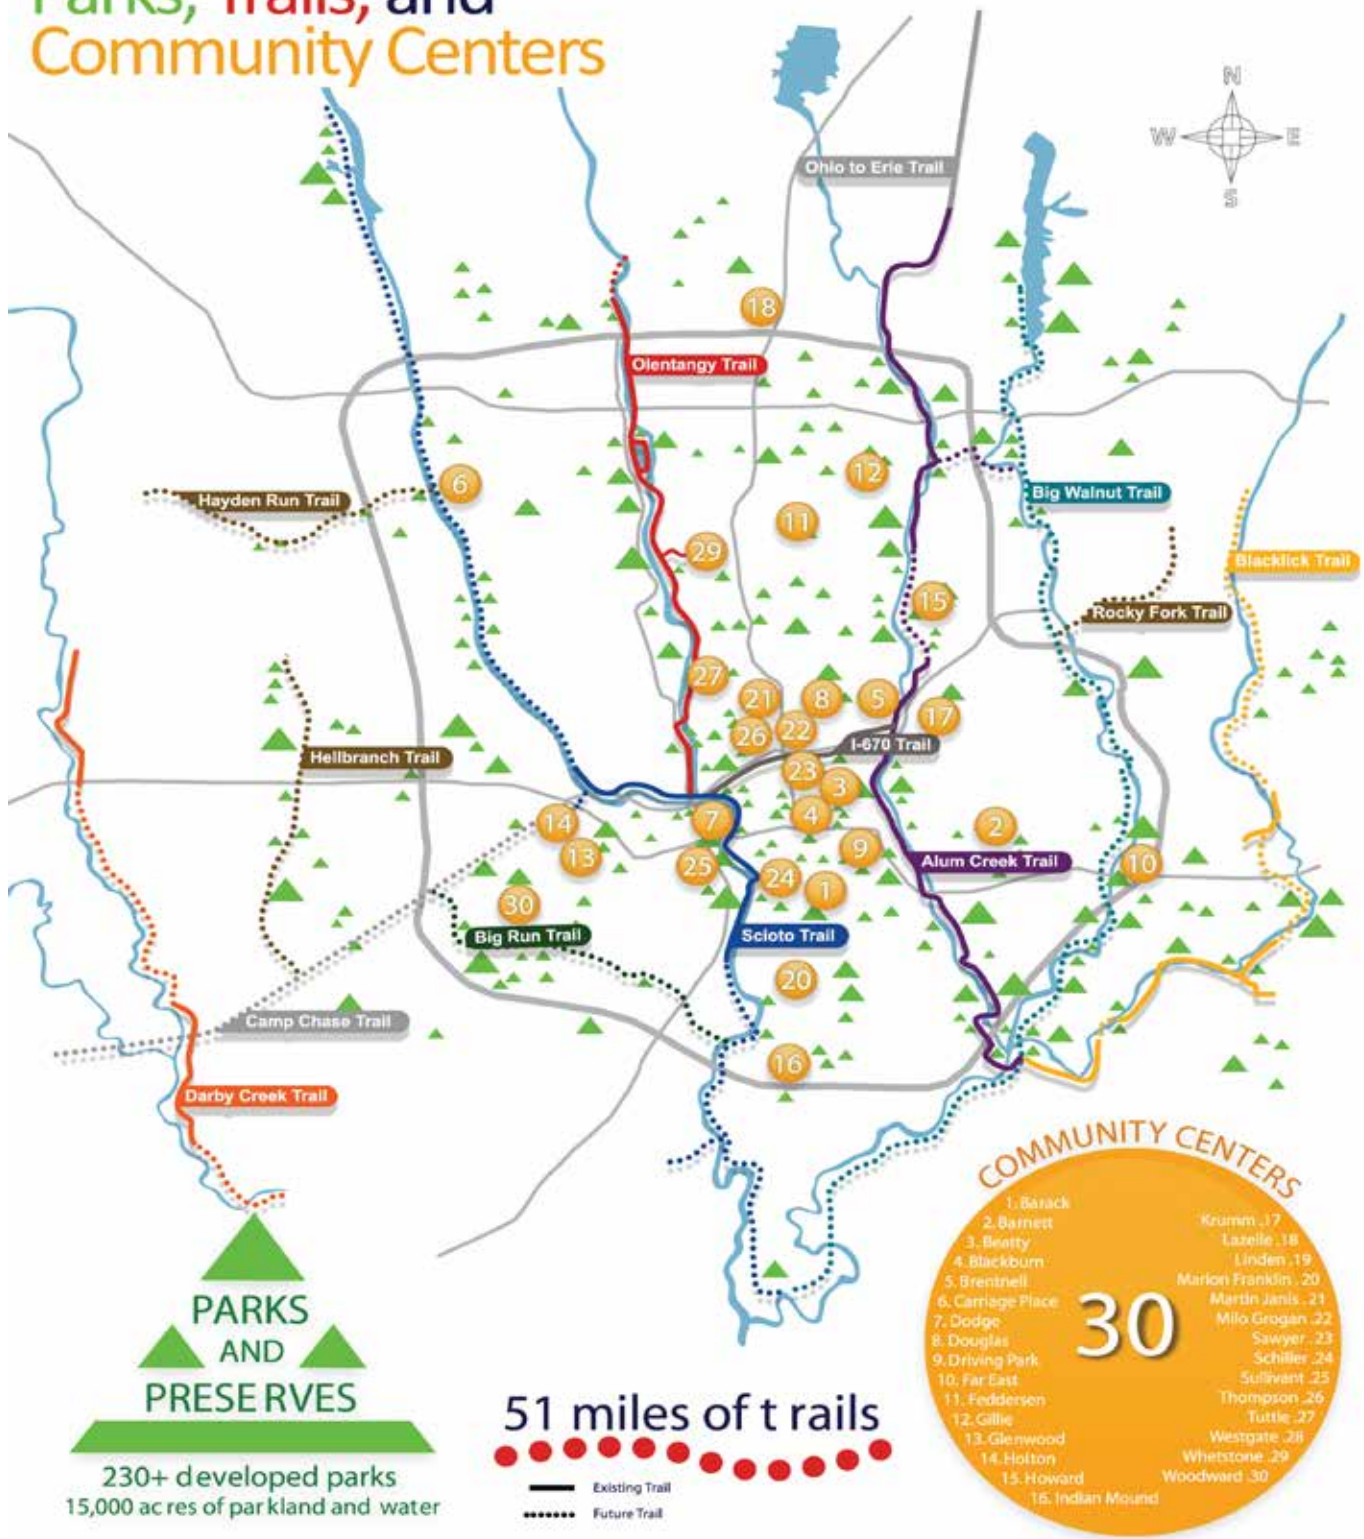

Conveniently located around the city, the seven golf courses within the Columbus Recreation and Parks Department— Airport, Champions, Mentel Memorial, Raymond Memorial, Turnberry, Walnut Hill, and Wilson— host more than 227,000 golf rounds annually. Due to the Port Columbus runway expansion project, Airport Golf Course was closed after Labor Day 2011 for reconstruction and will reopen in the spring of 2013.

Trails

With 51 miles of multi-use trails, Columbus is striving to not only beautify the city, but to enhance the quality of life of the city's residents as well. Columbus is embarking on a new, exciting and aggressive plan for the creation of future biking and walking trails in the Columbus area.

Columbus Recreation and Parks

Parks, Trails, and Community Centers

Cultural Amenities

Columbus is home to the top-ranked zoo, public library, and science museum in the nation. Columbus is the host to several popular festivals and events, from the Arnold Fitness Classic to the Jazz and Ribs Festival each summer. Music organizations such as the Columbus Symphony, Columbus Jazz Orchestra, and Opera Columbus provide opportunities year-round for live music. Concerts are shown at the Nationwide Arena, Schottenstein Center and the popular Lifestyle Communities Pavilion. Patrons of performing arts and theater find plenty to see in the offerings of local companies such as BalletMet, CATCO (Contemporary American Theatre Company), and Columbus Children's Theatre.

Visitors and residents can view everything from traveling art and exhibits to standing collections at the recently renovated Columbus Museum of Art, the Wexner Center for the Arts, the King Arts Complex, or at one of the many galleries located throughout the Short North or German Village neighborhoods. The city also offers multiple opportunities for shopping and dining. The Polaris Mall, Easton Town Center, Tuttle Mall, and the Arena District are popular shopping and entertainment districts.

Sports

Columbus is home to several sports teams including the Columbus Crew, one of Major League Soccer's first teams and 2008 MLS Cup champions. Nationwide Arena is the home of the National Hockey League's Columbus Blue Jackets. Also located in the downtown area is the newly built Huntington Park, home of the Columbus Clippers baseball team. The Clippers is the Cleveland Indians' Triple-A affiliate and national champion for the second year in a row.

The Ohio State University's 36 varsity sports teams, including national football champions, draw visitors from all over the region. In addition to hometown sports teams, the Greater Columbus Sports Commission brings numerous amateur, collegiate and professional sports events to town each year, including National Collegiate Athletic Association (NCAA) and Ohio High School Athletic Association (OHSA) championships.

Columbus is also home to the Memorial Tournament, a premiere stop on the PGA tour. The Memorial is played annually at Muirfield Village Golf Club in Dublin, a golf course designed and built by Columbus native and golfing legend Jack Nicklaus. Each year, the city also hosts the Arnold Sports Festival, a world-class fitness event with 37 events, 11 Olympic sports and 17,000 athletes. The event marked its 23rd year in March 2011.

Financial Overview

Revenue

The financial health of the city's general fund hinges on the income tax, which comprises over 74 percent of the revenue supporting the general fund operating budget. Columbus voters approved a 0.5 percent increase to the income tax rate, raising it to 2.5 percent on August 4, 2009. While the new rate went into affect on October 1, 2009, 2010 was the first full year of collections at the 2.5 percent rate. Three quarters of income tax collections are deposited into the general fund for general government operations, with the balance being set aside for capital and debt service requirements.

The following chart illustrates the projected amount of revenue expected from each major general fund source in 2012. After the income tax, the next three largest revenue sources to the general fund are various charges for services at eight percent, property taxes at six percent and shared revenues (various state taxes that are shared with local governments) at five percent.

Income tax collections are projected at \$508.4 million in 2011 and \$523.7 million in 2012. The City Auditor's 2012 estimate assumes a three percent growth in income tax receipts in 2012, or an additional \$15.25 million. Unfortunately, flat and/or declining revenues are projected for the general fund's other major revenue sources.

Over the past decade, budget reductions at the state level have led to incremental reductions of shared revenues to local governments. In 2001, the City of Columbus received \$51 million in local government fund moneys, while the 2011 projection for these funds is \$40.4 million, and in 2012 additional state cuts are estimated to reduce this revenue source to just \$28.4 million.

Estate taxes, the only portion of state shared revenue that is not distributed by a formula, have been as high as \$12 million in past years. However, these receipts have declined in recent years as well. Estate tax collections were \$8.2 million in 2009, \$7.7 million in 2010, a projected \$7.9 million in 2011 and \$7.5 million in 2012.

Property tax receipts fluctuate from year to year, due to reappraisals that occur every three years. In the off years, property tax revenue growth is typically less than one percent. Growth is normally expected in the reappraisal years. The city experienced a 10.3 percent increase in assessed valuation during the sexennial reappraisal in 2006, but in 2009, the triennial update year, the county applied a zero growth rate to all residential property values. Property tax collections actually declined by .26 percent in 2010 and are projected to decline again in 2011, though by a much greater margin, following the most recent property reappraisal. These declines are precipitated by ongoing challenges in the housing market, including foreclosures and reassessment requests stemming from declining sales prices. The City Auditor projects that 2011 property tax collections will be 7.2 percent less than those of 2010. Little improvement from that position is projected in 2012, with a negative growth rate of 7.0 percent.

Investment earnings are a highly volatile source of revenue and tend to reflect economic conditions. In 2001, the city posted \$29 million in investment earnings but by 2004, these earnings had dropped to just \$5.5 million. As the recession subsided, these revenues rebounded with earnings totaling \$10.2 million in 2005, \$20.4 million in 2006, \$30.9 million in 2007, and \$24.9 million in 2008. In 2009 and 2010 however, investment earnings again plummeted, totaling only \$6.4 and \$3.6 million, respectively. In 2011, projected earnings are at \$3.9 million, and the 2012 projection is just \$4.0 million.

Structural Balance

The year 2010 marked the first since 2000 in which general fund expenditures did not exceed revenues. Gaps that existed between revenues and expenditures in the years 2001-2009 were made up through several means, including the transfer of over \$91 million of economic stabilization funds ("rainy day" funds), the use of surpluses in the employee benefits fund, and a spend-down of year-end balances in the general operating fund which had been up to nearly \$38 million in 1998 and 1999.

From 1991 through 2000, income tax growth was robust, averaging 6.2 percent per year. In 2001, growth started to decline, with the average rate of income tax growth between 2001 and 2009 being only 2.2 percent. In three of those years, income tax collections actually declined. As the gap between revenues and expenditures necessary to maintain city service levels widened over the decade, expenditure reductions were necessary. Personnel costs in the city are largely determined by collective bargaining and memorialized in multi-year contracts. Since personnel costs comprised over 83 percent of general fund expenses at that time, the city was limited in its options to control expenditure growth. Strict hiring controls were enacted,

spending on goods and services was closely scrutinized, and non-essential positions were slated for layoff. Through hiring controls and layoffs, the general fund civilian workforce was reduced by over 655 positions between 2000 and 2009, a 34 percent reduction. Additionally, employees were required to bear a greater share of their health insurance costs and wage increases were reduced. Where appropriate, operations were removed from the general fund and made self-sufficient or shifted to other sources of funding.

In late 2008 and early 2009, the city began feeling the effects of the national recession. In order to bring 2009 expenditures in line with revenues, deep cuts in services were necessary. Those included additional layoffs, mandatory unpaid leave days, the closing of recreation centers and pools, reducing and/or eliminating health care services, eliminating yard waste pick-up, reducing bulk trash pick-up, and eliminating police and fire fighter classes needed to replace retiring officers. Under this dire scenario, city leaders came to the conclusion in 2009 that the city had reached the breaking point and faced unprecedented sacrifice from city residents if corrective action was not taken. The city responded with a three-point plan to maintain core city services and preserve the city's quality of life. This plan included an aggressive job creation effort, a 10-year government reform plan, and a plan to raise new revenue. The passage of the 0.5 percent income tax increase on August 4, 2009 was the first step.

The passage of the income tax enabled the city to maintain service levels in 2010 in most areas, with some very modest restorations of certain services that were curtailed in 2009, such as a phased-in reopening of recreation centers closed in 2009 and the reinstatement of yard waste and bulk waste collection services. Police and fire classes were also held in 2010 to maintain police and fire staffing levels.

Revenues have been sufficient in 2011 to continue this level of service restoration. And, once again, in 2011, structural balance has been achieved in the general fund, with current year revenues exceeding expenditures by \$6.4 million. More accurately, because \$12 million in 2011 expenditures reflect transfers to reserve funds, the true surplus between revenues and expenditures is \$18.4 million.

Projected 2012 revenues will again allow for the continuation of basic city services. Police and fire classes will be held, graduating a sufficient number of recruits such that uniformed force levels will not only be maintained, but will grow by year end. Other important city services will continue at 2011 levels, and a city-wide curbside recycling program will be implemented on a phased-in basis. Portions of the city's fleet will be updated, with funds set aside for vehicle replacement in 2012 in the special income tax fund. The city continues to replenish the economic stabilization fund, with a deposit of \$10 million in 2011 and another \$6.725 million in 2012 to keep its commitment to rebuilding the fund to a \$50 million balance by the end of 2014. Finally, to ready the city for 2013 when further cuts to the Local Government Fund and the elimination of the estate tax are expected, the 2012 budget deposits \$10 million into a second reserve fund to ensure that basic city services can continue in 2013.

Bond Ratings

The city continues to retain the highest bond ratings available for long-term debt by all three major rating agencies, Moody's Investors Service, Standard and Poor's Corporation and Fitch Ratings. Bond ratings of Aaa and AAA, respectively, were awarded to the city in 1995 by Moody's and Standard and Poor's, and have been maintained ever since. Fitch Ratings rated the city for the first time in 2006, also awarding Columbus an AAA rating. Of the twenty-five most populous cities, Columbus and Charlotte, North Carolina are the only two having the highest possible credit rankings from all three major rating agencies. These ratings afford Columbus the opportunity to

realize savings in the cost of long-term financing, affirm investor's confidence in investment in Columbus, and help attract new businesses to the area.

Reserve Funds

The City of Columbus currently has two general reserve funds: the economic stabilization fund (i.e., the rainy day fund) and the anticipated expenditure fund (formerly known as the 27th pay period fund). In 2012, a third reserve fund, the "2013 Basic Neighborhood Services Fund" will be created.

The rainy day fund was created in 1988 with a deposit of \$4 million as a reserve for unforeseen events that could disrupt basic city services. With the ultimate goal of reaching a fund balance of five percent of general fund expenditures, annual deposits of \$1 million were made until 1998. In this year, the city received a \$7 million refund from the Ohio Bureau of Workers Compensation and deposited into this fund.

The first withdrawal from the fund was in 2003, when \$10.2 million was required to balance the general fund budget. An additional \$25 million was used in 2004. On May 4, 2004, the city deposited \$55.1 million into the fund that it received from the Solid Waste Authority of Central Ohio (SWACO) in partial satisfaction of lease payments due to the city. Transfers to the general fund were again made in 2005 (\$13 million) and 2006 (\$12 million) to ensure that basic city services could be continued. In 2006, the city received nearly \$10 million for pollution credits from SWACO, which, along with investment earnings, resulted in a fund balance of \$44.5 million by the end of 2007, or over 7 percent of general fund expenditures. In 2008, \$900,000 was transferred to the general fund in order to end the year in balance. In 2009, \$30.4 million was transferred to the general fund to avoid what would have been drastic reductions to basic city services. In 2010, however, the city made good on its promise to pay back this fund with a transfer of \$7.5 million from the general fund. As such, by the end of 2010, the economic stabilization fund had a healthy balance of \$22.8 million. A fourth quarter deposit of \$10 million in 2011, and another totaling \$6.7 million in 2012 will put the city in good stead towards the goal of rebuilding the fund such that it will have a \$50 million balance by the end of 2014.

The planned replenishment schedule is illustrated in the chart on the following page.

Economic Stabilization Fund Recommended Future Deposits (000's Omitted)					
Year	Deposit	Investment Earnings*	Expended	Year-End Balance	% of GF Budget
2001		1,621		26,870	5.06%
2002		1,136		28,006	5.39%
2003		608	10,243	18,371	3.49%
2004	59,406	791	25,000	53,568	10.15%
2005		1,169	13,000	41,737	7.49%
2006	9,964	2,111	12,000	41,812	7.02%
2007	348	2,000	-	44,480	7.04%
2008		-	900	43,580	6.68%
2009	720	739	30,039	15,000	2.43%
2010	7,500	224		22,724	3.47%
2011	10,000	300		33,024	4.74%
2012	6,725	495		40,244	5.65%
2013	3,775	604		44,623	6.06%
2014	5,000	669		50,292	6.06%
2015	5,000	754		56,047	7.16%
In 2008, investment earnings were deposited to the Anticipated Expenditures Fund. Assumes 1.5 percent investment rate in 2012-2015.					

The anticipated expenditure fund was established in 1994 to prepare for those fiscal years in which there are 27 pay periods rather than the standard 26. After payment of \$17.8 million for the 27th pay period in 2008, this fund had a balance of \$1.23 million. Annual deposits will be made into the fund to ensure that there are sufficient moneys for the next occurrence, which will be in the year 2020.

Anticipated Expenditure Fund Recommended Future Deposits (000's Omitted)			
Year	Deposit	Expended	Year-End Balance
2009	1,751		2,976
2010	1,786		4,762
2011	2,000		6,762
2012	2,060		8,822
2013	2,122		10,944
2014	2,185		13,129
2015	2,251		15,380
2016	2,319		17,699
2017	2,388		20,087
2018	2,460		22,547
2019	2,534		25,080
2020	2,610		27,690
Finance and Management projects the next occurrence of a year with 27 pay dates to be 2020. Escalating deposits are planned to meet a projected liability of \$28 million in that year.			

An additional reserve fund will be created in 2012, to be named the 2013 Basic Neighborhood Services Fund. In response to cuts in the Local Government Fund and the elimination of the estate tax, this fund will ensure the continuation of basic city services in 2013. The city will deposit \$10 million into this fund in 2012 for use in 2013, when the full impact of the state reductions will be felt in the city's General Operating Fund.

2012 Budget Scenario

The 2012 budget was balanced by employing certain key principles, as follows:

- Build a budget from the ground up which is keyed to the city's strategic plan and implementing the Columbus Covenant.
- Focus on maintaining basic city services for neighborhoods—police and fire protection, refuse collection, and basic public health services.
- Review all program areas to identify activities the city should no longer be engaged in, given limited resources.
- Review revenue sources to identify new revenues and opportunities for increased revenues.
- Continue implementation of the 10-year reform plan by reducing pension pick-up and increasing the employee share of health insurance premiums for all city employees.
- Institute new reforms and efficiency measures as recommended by the city and affirmed by the accountability committee.
- Establish a "2013 Basic Neighborhood Services Fund" to provide for additional carryover funding into 2013 to help mitigate funding reductions that will occur with the loss of state shared revenues in that year.
- Promote efficiencies in government through examination of opportunities to redeploy uniformed police and firefighters, expansion of energy efficiency measures, improvement in the efficiency of fleet and facilities management, expansion of online auctions for city asset sales, and partnering with various organizations and governmental entities.
- Continue diligent review of general fund hires and non-personnel spending to keep expenditures at the lowest level necessary to provide essential services to the citizens of Columbus.
- Continue the replenishment of the rainy day fund in order to achieve a balance of \$50 million in the fund by the end of 2014 and to reach a level representing seven percent of general fund expenditures by the year 2019.

General Fund Pro Forma

A general fund pro forma operating statement is provided herein, which projects the city's future general fund financial outlook. The pro forma bases year 2012 revenues on the City Auditor's official Estimate of Available General Fund Resources, except as noted. The following assumptions were used in developing the pro forma.

Pro Forma Operating Statement Assumptions

Like all financial forecasting tools, pro forma projections are based on a series of assumptions that invariably do not prove totally accurate over time. Moreover, projections become less certain the further one extends the forecasting horizon. This pro forma statement assumes that year-end deficits, which are not permissible per state law, will be corrected through expenditure adjustments in order to force a positive year-end fund balance. The document presented herein represents the Finance and Management Department's best estimate of the city's financial status into the future, given the following assumptions.

Expenditure Assumptions

- The standard inflation rate for non-personnel items is two percent in 2013 and thereafter.
- Personnel costs (excluding insurance costs) for employees that are covered by current collective bargaining agreements are projected at the wage rates in effect per those contracts. For those units that have contracts that are currently under negotiation, and for the years that follow the expiration date of contracts currently in place, a blended rate that represents the city's efforts to control pay increases and to reduce pension pick-ups over the next ten years is used.
- Insurance costs are projected to grow by 9 percent annually in 2013 and beyond; however, projections include offsets due to incremental increases in employee shares.
- Expenditure projections for 2013 and beyond are premised on maintaining 2012 levels of service.
- In 2012, no general fund expenditures for vehicle purchases are assumed, as special income tax funds will be used for this purpose. In 2013, \$5 million is projected for general fund vehicle replacement, and in 2014 and beyond that amount plus inflation is projected in order to follow a recommended replacement schedule for the city's rolling fleet. The majority of expenditures will be for replacement of safety vehicles, primarily police cruisers.

Revenue Assumptions

- Income tax receipts will be \$523.7 million in 2012 and will grow by 3 percent in all years thereafter.
- Property taxes will decline by 6.95 percent in 2012, remain flat in 2013 and increase by 2 percent thereafter.
- Local government fund revenue is projected to decrease by 25.24 percent in 2012, decrease another 39.74 percent in 2013 and then increase by 2 percent thereafter.
- Estate taxes are projected at \$7.5 million in 2012 and will decrease to \$0 in all years thereafter.
- Investment earnings will be \$4 million in 2012 and are projected to remain at that level in 2013 and thereafter.
- Hotel/motel tax revenue is projected to grow by 2.78 percent in 2012, and then remain flat in all years thereafter.

- Charges for services are expected to grow by 2.26 percent in 2012 and then by 3 percent thereafter.
- The kilowatt hour tax will be \$1.65 million in 2012 and will remain flat in all years thereafter.
- Fines and penalties will decrease by 0.65 percent in 2012, remain flat in 2013 and increase by 2 percent thereafter.
- Licenses and permit fees are projected to grow by 2.06 percent in 2012, remain flat in 2013 and increase by 2 percent thereafter.
- Casino revenue will equal \$12.8 million in its first year, 2013, and will remain flat thereafter.
- A transfer of \$10 million from the 2013 Basic Neighborhood Services Fund will occur in 2013 only.

Division Specific Assumptions

- Two police recruit classes are funded in the general fund in 2012. Thereafter, recruit classes sufficient to replace retiring uniformed staff are projected. The 2010 class that is mostly funded with federal stimulus funds is projected to be picked up by the general fund in 2013.
- One fire recruit classes is funded in 2012. Thereafter, recruit classes sufficient to replace retiring uniformed staff are projected.
- Projections for the Refuse Collection Division presume that a portion of the bulk collection program will remain funded through the street construction, maintenance and repair fund.
- Projections for 2013 and beyond include continuing the curbside recycling program started in 2012.

GENERAL FUND PRO FORMA OPERATING STATEMENT

Resources:	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021

Footnotes:

Revenue estimates for 2013 and beyond are those of the Department of Finance & Management, and not the City Auditor.

Cumulative deficits are not possible since each budget year must be balanced. Balancing will be achieved through increased revenues, lowered expenditures, or a combination thereof.

City of Columbus Financial Policies

This set of financial policies was developed to ensure that the city's financial resources are managed in a responsible manner and that decisions are made in a disciplined way.

For purposes of this document, the term "expenditure" includes expenses as well as inter-fund transfers and encumbrances. "Revenues" include the proceeds of any and all taxes or other sources of funds received by the city, but do not include balances in funds at the beginning of the year.

A. Balanced Budget

1. It is the policy of the city that the budget for each of its funds always be balanced in that the appropriations from each fund for the fiscal year not exceed the resources available to that fund for the year, including estimated revenues and any balance in the fund at the beginning of the year. This policy assures that the city does not spend beyond its means and derives from the requirement in Sections 26 and 27 of the City Charter that the Mayor's estimate be used as the basis for appropriation ordinances.
2. While in any given year all or a portion of the beginning balance in a fund may be appropriated for expenditure, the longer-term goal is that operating expenditures not exceed operating revenues on an annualized basis such that structural balance is maintained within each fund. Consistent with this longer-term goal, the better practice is to appropriate portions of the beginning balance only to the extent they support non-recurring expenditures, replace temporary declines in revenue, or are reasonably anticipated to be offset by increased revenue not yet officially recognized in a revenue estimate.
3. The portion of the beginning year balance in a fund which equals the amount by which expenditures exceeded revenues during the year preceding the budget year should be appropriated only to the extent contemplated by the policy defining the appropriate use of the economic stabilization fund.
4. The portion of the beginning year balance in the general operating fund which exceeds ten percent of the expenditures from such fund during the year preceding the budget year should be transferred to either the anticipated expenditures fund or the economic stabilization fund.

B. Economic Stabilization Fund

1. The economic stabilization fund (ESF) was created by Ordinance 860-88 in 1988 and is sometimes referred to as the “rainy day fund.” It was intended to ensure against reductions in “basic city services during times of economic recession or unexpected revenue loss by the city” which are supported by the general operating fund.
2. Consistent with the need to protect city finances during extended economic downturns or times of extreme emergency created by unexpected events, the term “basic city services” should be construed conservatively to refer only to the direct provision of core city services such as police and fire protection, protection of public health, and refuse removal. Such services which are supported by the general operating fund may be maintained in part with this fund when revenues have been temporarily lowered, whether from economic recession or otherwise, provided that there is a reasonable expectation that services cannot otherwise be maintained at acceptable levels and that increased revenues during the year or years following the budget year will allow replacement of any moneys used from this fund at an annual rate equal to at least one percent of general fund expenditures in the budget year.
3. This fund may also be used to support basic city services funded by the general operating fund in the absence of a temporary lowering of revenues where unanticipated events of a most unusual nature have occasioned a need for non-recurring emergency expenditures, provided that there is a reasonable expectation that increased revenues during the year or years following the budget year will allow replacement of any moneys used from this fund at an annual rate equal to at least one percent of general fund expenditures in the budget year.
4. Prior to the use of this fund for the purposes described above, the Mayor shall provide Council with a written analysis describing how the proposed use of moneys from this fund is consistent with these policies and proposing any revenue enhancements necessary to allow replacement of funds so used.
5. It shall be the policy of the city to maintain moneys in this fund equal to no less than five percent of expenditures from the general operating fund during the preceding year. If moneys expended under paragraphs 2 or 3 of this section cause the balance of this fund to fall below five percent, the policy of the city shall be to replace funds so expended as soon as practicable at an annual rate equal to at least one percent of general fund expenditures in the year in which moneys were expended under paragraphs 2 or 3. Consistent with Ordinance 1590-94 and any successors, this fund shall be the recipient of an appropriate share of investment income. Any portion of the balance in this fund which exceeds seven percent of expenditures from the general operating fund during the preceding year may be transferred to the anticipated expenditures fund.

C. Anticipated Expenditure Fund

1. The anticipated expenditure fund was established in 1994 to receive deposits sufficient to provide for funding from the general operating fund of the 27th pay period which occurs every twelve years or so. It was then expanded to receive deposits earmarked for specific future expenditures that would otherwise be funded from the general operating fund and whose cost is unknown, such as the Y2K problem.
2. This fund should have deposited to it, at a minimum each year from the general operating fund, those moneys necessary, on an annualized basis, to fund the 27th pay period in the years in which it occurs. It may receive additional deposits to the extent not needed for current general fund operating expenses or to the extent not needed in the economic stabilization fund.
3. To the extent not being accrued for the 27th pay period, moneys in this fund may support non-recurring expenditures from the general operating fund. Any moneys in this fund being accrued for the 27th pay period, as determined by the Department of Finance and Management, may be used to support general fund operating expenses only under the circumstances provided for use of the economic stabilization fund, including those related to replacement of moneys so used.

D. Financial Accountability

1. It is the policy of the city that all departments and offices should manage operations such that expenditures for a given year will not exceed the original appropriations except to the extent supplemental appropriations authorize increased expenditures. Fourth quarter transfers of one department's unused general fund appropriation authority to a department or office otherwise exceeding its expenditure authority are normally a reflection of a failure to comply with this policy except in the case of reasonably unforeseen events or cost increases. Supplemental appropriations must be supported by additional revenues, the existence of which must be verified by the Department of Finance and Management or the City Auditor, as appropriate. In cases where additional general fund revenue is certified by the City Auditor, subsequent to the passage of the initial general fund appropriation ordinance, there is no assurance that said revenue will be appropriated, and supplemental appropriation of said revenue is discouraged except for unusual circumstances.
2. The Department of Finance and Management shall review quarterly actual and projected expenditures for all departments and offices and report to the Mayor and Council thereon. Any departments or offices projected to exceed their appropriation authority for the year shall work with the Department of Finance and Management to reduce expenditures. This may include the deferral of hiring and major expenses for goods and services.
3. Responsible stewardship of public funds requires that expenditures be clearly justified as serving a public purpose. An effort to expend all appropriation authority in the fourth quarter simply in order to avoid a lapse of appropriated funds does not serve a public purpose.

4. Departments and offices are expected to be expending public funds in order to serve the outcomes they have identified for their programs. It is the policy of the city to measure achievement of outcomes through quantifiable performance indicators. A system of performance management has been integrated into the budget process.

E. Investment of City Funds

1. Requirements regarding the deposit of public money and the investment of funds in the city treasury are set forth in the Columbus City Codes, Chapters 321 and 325. Various articles establish a three-person depository commission, made up of the City Auditor, City Treasurer and the Finance and Management Director, charged with compliance and the creation of guidelines. The commission embodies a checks and balances process in that each represents a separately elected official of city government. Pursuant to the above code sections, the following policies exist.
2. The city will not invest in any form of derivatives, except STAROhio (an investment pool managed by the State Treasurer's Office that allows governments within the state to pool their funds for investment purposes).
3. The city is prohibited from entering into reverse repurchase agreements and does not leverage its investment portfolio in any manner.
4. Only eligible investments with final maturities not greater than two years from the time of purchase are permitted.
5. The city purchases investments only through member banks of the Federal Reserve System or broker dealers licensed by the State of Ohio and members of the National Association of Securities Dealers (NASD).
6. Investments permitted by Chapter 325 of the Columbus City Code are limited to the following:
 - a. Bonds, notes, or other obligations of the United States government or its Agencies for which the faith of the United States is pledged for the payment of principal and interest.
 - b. Bonds, notes, debentures, or other obligations issued by any of the federal government-sponsored enterprises listed below:
 - Federal Farm Credit System
 - Federal Home Loan Bank
 - Federal Home Loan Mortgage Corporation
 - Federal National Mortgage Association
 - c. The Ohio State Treasurer's Asset Reserve Funds (STAROhio) pursuant to Ohio Revised Code 135:45.
 - d. Bonds or other obligations of the City of Columbus, Ohio.
 - e. Obligations of the State of Ohio or any municipal corporation, village, township or other political subdivision of the State of Ohio, as to which there is no default of principal or interest and which have been approved as to their validity by nationally recognized bond counsel.

- f. Certificates of deposit in eligible institutions applying for moneys as provided in Chapter 321 of the Columbus City Codes.
- g. Repurchase agreements that are collateralized with legally authorized securities as defined in Chapter 321.08 of Columbus City Code and held in third-party safekeeping designated by the City Treasurer and in the name of the City of Columbus.

F. Income Tax and Special Income Tax Fund

- 1. Initiated in 1947 and implemented in 1948, pursuant to Ohio law (ORC Chapter 5747), Columbus City Code Section 361.19 authorizes the levying of a two and one half percent income tax on Columbus workers and businesses. Increases in the income tax above one percent are subject to voter approval, pursuant to state law and the Columbus City Charter.
- 2. The city deposits three quarters of income tax revenue to the general fund and one quarter to the special income tax fund (SIT). The SIT is used to finance capital improvements, generally of a non-enterprise nature.
- 3. The above distribution of income tax proceeds should be maintained. National rating agencies consistently cite this long-standing policy as a major factor earning the city its high credit designation.

G. Allocation of Investment Earnings

- 1. The City Treasurer pools all available city funds (excepting cash held by bond trustees, escrow agents, and certain debt service, trust and agency funds), in order to maximize investment efficiency.
- 2. As a charter city, the determination of the distribution of investment income among funds is established by city ordinance and by various grant requirements.
- 3. Various city ordinances identify those funds that shall receive investment income. A complete list is kept by the City Auditor and the Department of Finance and Management.

H. Pro Rata Assessment for General Fund Support

- 1. The Attorney General of the State of Ohio has ruled that the cost of administrative services provided by general fund agencies for independent fund agencies may be pro rated to the independent fund agencies on an equitable basis.
- 2. The charge, commonly referred to as "pro rata," represents an approximation of the cost incurred for certain services performed by administrative agencies of the general fund for enterprise, special revenue, grant and internal service divisions, and for which no specific charge is assessed. Services include, but are not limited to, debt administration and budget preparation, legal counsel, financial reporting, procurement assistance, and building maintenance.

3. Generally accepted accounting practices as contained in Government Auditing Standards, issued by the Comptroller General of the United States, require reasonable justification for the assessed amount.
4. The most recent cost evaluation study performed by the Department of Finance and Management and confirmed by the City Auditor resulted in a pro rata rate of 4.5 percent of revenues to be charged to appropriate funds.
5. The most recent city ordinance assesses an administrative service charge upon funds other than the general fund, equal to 4.5 percent of revenues, the proceeds of which are deposited in the general fund.
6. A triennial review and update of the pro rata calculation shall be conducted by the Department of Finance and Management.

I. Fees and Charge-Setting

1. Fee-setting authority for non-enterprise divisions rests among several different entities, including the City Council, the Board of Health, the Recreation and Parks Commission, the Ohio Legislature, and various other elected and appointed officials.
2. A semi-annual fee review should be conducted by the Department of Finance and Management. Within this review, consideration should be given to the community-wide versus special service nature of the program or activity, the extent to which the service is specifically targeted to low income individuals or groups and the intended relationship between the amount paid and the benefit received.
3. This review should list the major fees and charges along with the following:
 - a. Current fee or charge rates
 - b. Date of the most recent increase
 - c. Market rates and charges levied by other public and private entities for similar services
 - d. The action needed to change the fee
4. The Director of Finance and Management will recommend fee and charge increases based upon the above review to the Mayor's office.
5. With Mayoral approval, the proposed changes shall be presented to the appropriate fee-setting authority for approval.
6. The goal of the rate setting process for the water and sewer enterprise funds shall be to avoid steep increases in rates, while at the same time fully meeting the needs of the system. Ten-year pro forma operating statements for these funds shall be utilized to assist the divisions in achieving this goal.

J. Revenue Diversification

1. The city will strive to maintain a diversified and stable revenue base as protection from short-term fluctuations in any one revenue source and to ensure its ability to provide ongoing service.
2. Restricted revenue shall only be used for the purposes legally permissible and in a fiscally responsible manner. Programs and services funded by restricted revenue will be clearly designated as such.
3. A balance will be sought in the revenue structure between the proportions of elastic and inelastic revenues. New sources of revenue will be sought to achieve the desirable balance.
4. Each time a new revenue source or a change in the rate of an existing source is considered, the effect of this change on the balance of elastic and inelastic revenue will be thoroughly examined by the Finance and Management Department.

K. Debt Issuance and Management

1. The Ohio Revised Code Section 133.05 provides that the total net debt (as defined by the ORC) of a municipal corporation, whether or not approved by the electors, shall not exceed 10.5 percent of the total value of all property in the municipal corporation as listed and assessed for taxation. In addition, the unvoted net debt of municipal corporations cannot exceed 5.5 percent of the total taxation value of property. The statutory limitations on debt are measured by the ratio of net debt to tax valuation and expressed in terms of a percentage.
2. The city will not incur debt to finance current operations.
3. The city may issue debt for a qualifying capital project if the cost of the asset is at least \$5,000 and the useful life of the asset, as determined by the City Auditor, is at least five years.
4. Debt will not be issued for periods exceeding the useful life of the project or asset.
5. Periodic reviews of outstanding debt will be undertaken to determine refunding opportunities.
6. Refunding will be considered if and when there is a positive net economic benefit or the refunding is essential to modernize covenants to improve operations and management.

L. Coverage Ratios for Special Income Tax Fund (SIT)

1. Within the limitations upon debt issuance imposed by law, the SIT fund's available capacity for new debt and its ability to service existing debt are limited by a coverage factor, which is a ratio of total resources in the SIT to projected expenditures required for debt retirement. This factor provides a minimum level at which the SIT fund balance should be maintained for contingency purposes. The coverage ratio is a self-imposed discipline, one based on sound fiscal management practice and works to preserve capacity to address any unforeseen emergency. Coverage levels are goals, not absolute minimum levels of acceptance.

2.

3.

Formatted: Bullets and Numbering

M. Revenue Bond Reserve Ratios

1. Whenever the city issues revenue debt, the bond indenture – an ordained document governing debt administration – often details some level of reserve imposed on the city to insure debt retirement on behalf of the bondholders.
2. The level is established on a case-by-case basis, and compliance is annually reported in the budget document and the Comprehensive Annual Financial Report of the City Auditor.

N. Operating Reserves for Funds Other Than the General Fund

1. The annual reserve balance in the insurance trust fund should be equal to, at a minimum, the sum of one and one half months worth of health, dental and vision claims cost and one month worth of prescription, disability and life insurance claims. In calculating the monthly claims costs for purposes of determining the appropriate reserve amount, a rolling average of claims experience for the previous 12 consecutive months shall be used.
2. The State of Ohio Bureau of Workers' Compensation determines the city's workers' compensation rate. Payments are made one year in arrears, e.g. the amount due in a given year is based upon the payroll costs of the previous year. Payment must be remitted as follows: 45 percent of the premium by May 15 and the balance by September 1. The city's policy is to set the internal rate at a level sufficient by the end of the current fiscal year to fund the anticipated payments on the due dates in the following year. If adjustments are made either to the city's premium rate or to the amount due to the bureau in cases of rebates or credits, the premium rate will be adjusted accordingly.
3. The timing of collections as provided for in the policy above may be altered under the following circumstances, provided that there is a reasonable expectation that

services cannot otherwise be maintained at acceptable levels and that increased revenues during the year or years following the budget year will allow replacement of any moneys gained from any such timing change:

- when revenues have been temporarily lowered, whether from economic recession or otherwise
- where unanticipated events of a most unusual nature have occasioned a need for non-recurring emergency expenditures

Prior to changing the timing of workers' compensation collection for the purposes described above, the Mayor shall provide Council with a written analysis describing how the proposed use of these moneys is consistent with these policies and proposing any revenue enhancements necessary to allow replacement of funds so used.

O. Long-Range Financial Planning

1. A general fund pro forma operating statement is produced for each budget year and updated periodically during the year. The pro forma is published in the budget document as well as in periodic financial reviews. The pro forma projects the city's future general fund financial outlook for a ten-year period.
2. Pro forma projections are based on a series of assumptions, including projected inflation rates, personnel costs for both uniformed and non-uniformed personnel, health insurance costs, revenue growth rates and other division-specific assumptions. Because state law requires each year to end in balance, the plan assumes that deficits projected at the beginning of each year will be addressed so that no negative fund balance is carried over into the next year.
3. To augment the pro forma, various iterations should be prepared, using alternative economic, planning, and policy assumptions. Key assumptions and choices related to achievement of goals should be identified and made available to decision makers for their review in making choices and decisions related to budget issues. The likely financial outcomes of particular courses of action or factors should then be estimated.

Financial Policies

Accounting and Organizational Structure

The City of Columbus, through its various offices and divisions, budgets for and/or administers many different types of primary and secondary funds. Included in this section is an excerpt from the City Auditor's Comprehensive Annual Financial Report, which describes the various types of funds administered by the city. Following this is a discussion of the organizational structure of the City of Columbus, along with a listing of principal officials.

Accounting Structure

The following discussion on the organization of the city's funds and account groups is excerpted from the City Auditor's Comprehensive Annual Financial Report.

Governmental Funds

General Fund - The general fund is the general operating fund of the city. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds - Special revenue funds are used to account for revenues derived from specific taxes, grants or other restricted revenue sources. The uses and limitations of each special revenue fund are specified by city ordinances or federal and state statutes.

Debt Service Funds - Debt service funds are used to account for the accumulation of resources for, and the payment of, general long-term principal, interest, and related costs.

Capital Project Funds - Capital project funds are used to account for financial resources used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds).

Proprietary Funds

Enterprise Funds - Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. The city has separate enterprise funds for its water, sanitary sewer, storm sewer, electricity, and parking services.

Internal Service Funds - Internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the city, generally on a cost reimbursement basis.

Fiduciary Funds

Agency funds - Agency funds are used to account for assets held by the city as an agent for individuals, private organizations, other governments, and/or other funds.

Bases of Accounting

Except for budgetary purposes, the bases of accounting used by the city are in conformity with generally accepted accounting principles (GAAP), as applicable to governmental units, and are consistent with the Governmental Accounting Standards Board (GASB) Cod. Sec. 1600, Basis of Accounting. All governmental funds are accounted for using a current financial resources-current assets and current liabilities-measurement focus. The modified accrual basis of accounting is utilized for governmental and agency funds. Revenues are recognized when they are susceptible to accrual (both measurable and available). Expenditures are recognized when the related liability is incurred, except for interest on long-term debt, which is recorded when due.

The measurement focus for the city's proprietary funds is on the flow of total economic resources (all assets and all liabilities). The accrual basis of accounting (revenues are recognized when earned and expenses when incurred) is utilized by the city in its proprietary funds.

The city's basis of accounting for budgetary purposes differs from GAAP in that revenues are recognized when received, rather than when susceptible to accrual (measurable and available), and encumbrances are recorded as expenditures rather than as reservations of fund balances.

Organizational Structure

The City of Columbus was organized on March 3, 1834, and is a home rule municipal corporation under the laws of the State of Ohio. It is governed by an elected Mayor and City Council. Columbus is the capital of the State of Ohio and is centrally located, primarily within the boundaries of Franklin County and, to a limited extent, Fairfield and Delaware Counties.

The city operates under and is governed by its charter, which was first adopted by the voters in 1914 and which has been and may be amended by city voters. The city is also subject to the general laws of Ohio that are applicable to all cities. Under the Ohio Constitution, the city may exercise all powers of local self-government and may adopt police, sanitary and similar regulations to an extent not in conflict with applicable general laws.

Organization

The Columbus City Charter provides for a mayor-council form of government. The Mayor is the chief executive officer and is elected to a four-year term. The seven member City Council is the legislative body. Members are elected at large to four-year terms at two-year intervals.

City Council sets compensation levels of city officials and employees and enacts ordinances and resolutions relating to city services. Council also levies taxes, appropriates and borrows money, and licenses and regulates businesses and trades through legislation. The presiding officer is the President of Council, who is elected by Council to serve until a new president is elected. The charter establishes certain administrative departments and authorizes Council, by a two-thirds vote, to establish divisions of those departments or additional departments.

The Mayor may veto any legislation passed by Council. A veto may be overridden by as great a majority as required for its original passage.

Other elected officials include the City Auditor, City Attorney, Clerk of Courts, and Municipal Court Judges. The City Auditor is the city's chief accounting officer, and maintains the city's accounting records and arranges for the annual independent audit of the city's accounts. The City Attorney is the city's legal advisor, prosecutor, and solicitor. The Clerk of Courts maintains records of the activities of the municipal court and collects funds due to the court. The 15 Municipal Court Judges have county-wide jurisdiction over all civil cases up to \$15,000, criminal and traffic trials, hearings involving misdemeanor cases, and disputes involving environmental issues.

Principal Officials

The current elected officials and some of the appointed officials are:

Official	Title	Term Beginning	Term Ending
Michael B. Coleman	Mayor	January 1, 2012	December 31, 2015
Paul R. Rakosky	Director of Finance and Management	August 1, 2009	Pleasure of Mayor
Hugh J. Dorrian	City Auditor	January 1, 2010	December 31, 2013
Richard C. Pfeiffer, Jr.	City Attorney	January 1, 2010	December 31, 2013
Deborah Klie	City Treasurer	April 21, 2009	Pleasure of Council
Andrea Blevins	City Clerk	June 30, 2003	Pleasure of Council
David J. Irwin	Secretary of Sinking Funds	April 1, 1999	Pleasure of Sinking Fund Trustees
Andrew J. Ginther	Council President	January 1, 2012	December 31, 2015
Michelle M. Mills	Member of Council	January 1, 2012	December 31, 2015
Zachary M. Klein	Member of Council	January 1, 2012	December 31, 2015
Priscilla R. Tyson	Member of Council	January 1, 2010	December 31, 2013
Eileen Y. Paley	Member of Council	January 1, 2010	December 31, 2013
Hearcel F. Craig	Member of Council	January 1, 2012	December 31, 2015
A. Troy Miller	Member of Council	January 1, 2010	December 31, 2013

In addition to the elected officials and their administrative offices, a number of department heads within the City of Columbus are appointed by the Mayor or by supporting commissions. The Mayor's cabinet consists of the directors of the Departments of Finance and Management, Public Safety, Public Service, Technology, Human Resources, Civil Service, Development, Recreation and Parks, Public Health, Public Utilities, Building and Zoning Services, Community Relations and Equal Business Opportunity. Each director is responsible for the administration of his or her department and its respective divisions.

This page has been intentionally left blank.

City Council

Department Description

Columbus City Council is the legislative authority and chief policy-making arm of city government, empowered by City Charter to exercise control over city expenditures. Citizens elect the seven-member council at-large to four-year terms of office. Council's primary responsibilities include: adopting the annual operating and capital budgets, authorizing certain contracts, and enacting amendments to the Columbus City Code. In addition to its fiscal control and regulatory authority, City Council establishes land use policy through its zoning powers.

The Council works closely with the administrative (executive) branch of city government in the formation of policy impacting public finance, safety, economic development and the delivery of core city services. City Council also initiates and facilitates on-going cooperative efforts with other government entities, the business community, and other institutions to improve the overall high quality of life for Columbus residents.

Legislative aides, legislative assistants, and the Legislative Research Office (LRO) provide City Council members information and guidance on public policy decisions impacting public safety, budgetary, economic development, and community matters.

Council appoints the City Clerk, who maintains the journal of City Council activity, codifying general ordinances and maintaining custody of deeds, abstracts, and titles owned by the city. Council also appoints the City Treasurer, whose duties include the investment of all city funds.

Department Mission

To provide high quality, responsive service to the residents of Columbus, and to demonstrate the utmost respect for the citizens and for each other in a workplace that highly values teamwork, personal integrity, and competence. City Council's overriding goal is to always do what is best for the citizens of the City of Columbus.

Strategic Priorities for 2012

Columbus City Council's 2012 strategic priorities will focus on four areas: working to better serve the needs of all Columbus residents, including maintaining public safety as the city's top priority; economic development and job creation efforts through effective partnerships; prudent financial oversight and the maintenance of the city's fiscal health; and keeping commitments to Columbus residents associated with the passage of the 2009 income tax increase. In pursuit of these priorities, Columbus City Council will:

- Continue to work with the administration to develop innovative collaborations to incentivize significant private investment. Prime examples include support for technology startups, the revitalization of commercial corridors, support for major hospital expansions, and continued investment in the downtown as the commercial and employment core of the region. Key project partners will include Columbus2020!, the Columbus Chamber of Commerce, The Ohio State University, Nationwide Children's Hospital, Battelle, and TechColumbus.
- Continue efforts to retain Columbus-based talent, including: additional support for entrepreneurial startups; target investments designed to bring idle properties back into production; increase access to capital and seek funding for targeted economic development initiatives; and enhance the city's fiber optic network for utilization as an asset for economic development.
- Continue to work with the Department of Public Safety to address the need for additional safety personnel resulting from mandated retirements triggered by the Deferred Retirement Option Plan (DROP); specifically, the funding of additional fire and police classes needed to maintain critical manpower levels.
- Continue to work to identify and appropriate funds for additional safety vehicles and equipment, as well as expansions of supplemental safety strategies, including Community Crime Patrol and Crime Stoppers.
- Continue to work with the administration to improve neighborhood stability through the creation of greater downtown and neighborhood housing opportunities and related investments. City assistance may include various incentives for developers, such as tax abatements or targeted use of city capital monies and infrastructure improvements to leverage private investment.
- Continue to work with community advocates such as the Columbus Medical Association, the United Way, the Community Shelter Board, the Neighborhood Health Center System, and the YWCA to provide needed human services and accessible health care to low-income families and other populations within the community. Council will continue to support an effective response to homelessness through the Office of Homeless Advocacy.
- Continue to work with the administration to expand the city's environmental agenda, including improvements to city vehicles and facilities, and the promotion of "green" development strategies and incentives that encourage responsible, sustainable development.
- Continue progress made toward the goals outlined in the Reform and Efficiency plan which is designed to strengthen the city's long-term fiscal outlook, including: the continued implementation of cost-savings strategies and the restoration of the Economic Stabilization Fund, or "rainy day" fund. Council will also work with

- the City Auditor to continue sound fiscal policies to maintain Columbus' AAA bond rating.
- Continue to identify and implement policies and practices to make government more effective, efficient and accessible, including the implementation of new technologies that will increase citizen access to public information. Proactive communication with the public at-large and input from area commissions, civic organizations and community organizations will remain a high priority.

2012 Budget Notes

- The recommended general fund budget for City Council includes continuation of funding for a contract with the Greater Columbus Chamber of Commerce, the annual maintenance on the automated legislation system, and codifying services for the City Clerk's office.

City Auditor

Department Description

The City Auditor is the city's chief accounting officer. The Office of the City Auditor is responsible for processing and maintaining accurate, systematic records of all the city's fiscal transactions, including certification of funds, receipts, disbursements, assets and liabilities. In addition to this, the Auditor's payroll unit handles the accurate bi-weekly generation of paychecks and tax-withholding remittances for over 9,000 city employees, and through its Income Tax Division, maintains the functions of income tax collection and audit. The City Auditor disseminates such fiscal facts, reporting periodically to city officials and the public in summaries and analytical schedules as prescribed in the City Charter.

For the last 31 years, the City Auditor has received a Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association (GFOA). This certificate is the highest form of recognition for excellence in state and local government financial reporting.

The City Auditor assists in managing the city's long-term debt including the prompt payment of principal, interest, and associated fees on the city's variable rate debt; assures current debt service coverage is sufficient to protect the credit worthiness of the city; and avoids the imposition of increased property taxes related to bonded debt voted directly by the public, both enterprise and non-enterprise.

Columbus Income Tax Division

The Income Tax Division provides the service of collection, audit, and enforcement of the two and one half percent municipal income tax pursuant to Chapter 361 of the Columbus City Codes and the collection of the hotel/motel tax for the City of Columbus and the Franklin County Convention Facilities Authority.

In addition to collecting the municipal tax for the City of Columbus, the Income Tax Division has contracts with and acts as the collection agent for the following municipalities: Brice, Canal Winchester, Groveport, Harrisburg, Marble Cliff, Obetz, and the Northern Pickaway County JEDD.

Department Mission

To carry out the duties and responsibilities as prescribed by the Columbus City Charter and the Columbus City Codes.

To provide efficient and effective collection of monies and audit services with continuous upgrade to the city tax and filing systems and all other necessary resources utilized in the process.

Department Goals and Objectives

To ensure efficient and effective reporting regarding the city's finances to Columbus City Council, the Mayor and administrative agencies, the City Attorney, the Municipal Court Judges and Clerk, and the residents of Columbus.

To ensure accurate audit services, systematic collection of taxes, and monitoring of the city's tax-generated revenues.

Strategic Priorities for 2012

- Maintain high quality fiscal processing, tax collection and audit, debt management, record keeping, and reporting to its customers.
- Continue to ensure compliance with the Columbus City Charter and Columbus City Codes.
- Continue to receive the Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association of the United States and Canada.

2012 Budget Notes

- The 2012 budget for the City Auditor includes funding for outside audit services, including audits for sub-recipients, and for maintenance costs for the city's integrated automated accounting, budgeting and procurement system.
- The 2012 budget for Income Tax includes funding for tax application computer programming services, banking and lockbox services, postage, tax form printing and temporary employment service fees.

City Treasurer's Office

Department Description

The authority of the City Treasurer is set forth in Sections 88 through 96 of the Columbus City Charter.

Specifically, the City Treasurer's responsibilities include:

- The receipt and deposit of all city funds into bank accounts of the city in accordance with Chapter 321 of Columbus City Codes.
- The disbursement of city funds upon warrant by the City Auditor or Sinking Fund Trustees.
- The investment of all excess funds not needed for daily operations in accordance with Chapter 325 of the Columbus City Codes.

Department Mission

To assist, direct, and maintain the fiscal integrity of the City of Columbus, Ohio.

Strategic Priorities For 2012

- Efficient and accurate receipt, custody, disbursement, and investment of all city funds.

2012 Budget Notes

- The Treasurer's budget is primarily personnel-related with funding for ten full-time employees in 2012. The primary non-personnel funding is for banking services' contracts.

This page has been intentionally left blank.

City Attorney

Department Description

The Columbus City Charter best describes the City Attorney's Office:

Section 67. Powers and Duties. [The city attorney]...shall be the legal adviser of and attorney and counsel for the city, and for all officers and departments thereof in matters relating to their official duties. [The city attorney]...shall prosecute or defend all suits for and in behalf of the city, and shall prepare all contracts, bonds and other instruments in writing in which the city is concerned and shall certify in writing approval of the form and correctness thereof. The city attorney may appoint such assistants, secretaries and clerks as council may authorize.

Section 68. Prosecuting attorney. The city attorney shall be the prosecuting attorney of municipal court. He may detail such of his assistants as he may deem proper to assist in such work. He shall prosecute all cases brought before such court and perform the same duties, so far as they are applicable thereto, as are required of the prosecuting attorney of the county.

Section 69. Representing city. The city attorney shall prosecute or defend for and in behalf of the city all complaints, suits and controversies in which the city is a party, and such other suits, matters and controversies relating to city affairs as he shall, by resolution or ordinance of council, be directed to prosecute or defend.

Section 70. Rendering Opinions. The council, the director of any department, or any officer, board, or commission not included within a department, may by request in writing, require the opinion of the city attorney upon any question of law involving their respective powers and duties.

Table of Organization

To fulfill the obligations placed on this office by the Charter, Columbus City Council has authorized 149 full-time and 49 part-time positions for the City Attorney's Office. However, the proposed 2012 budget provides funding for only 113 full-time and 36 part-time positions. Of these positions 60 are scheduled to be occupied by attorneys.

The office has five basic units as follows: Police Legal Advisor unit, Claims Division, Real Estate Division, Prosecutor Division and Civil Division, with the last-mentioned containing a General Counsel section, a Litigation section, a Labor and Employment section and a team of attorneys who focus on abating public nuisances. The Prosecutor Division contains a Prosecution Resources unit that evaluates citizens' requests to file criminal charges, that promotes mediation to resolve disputes short of litigation and that operates a bad check resolution program. Also within the Prosecutor Division is a Domestic Violence/Stalking unit devoted exclusively to the protection of victims of domestic violence and stalking.

Department Mission

To carry out the duties and responsibilities prescribed by the Columbus City Charter and Columbus City Codes in a professional and competent manner so that the office's clients and the public are well and fairly served.

Department Goals and Objectives

To handle every matter to a conclusion that is just and fair both to the City of Columbus and to any other parties involved.

Strategic Priorities for 2012

Every day the City Attorney's Office is engaged in the delivery of legal services, whether it is approving contracts as to form and correctness, defending the city against law suits, assuring that enacted legislation fits properly into the City Code, evaluating whether criminal charges should be filed, prosecuting traffic and criminal cases, providing oral and written opinions, conducting police recruit and in-service training or eliminating public nuisances that persist in the city's neighborhoods.

Consequently, the strategic priorities and budget issues mirror each other and reappear each budget year; and they are: securing adequate resources so that the best qualified people are in the appropriate positions performing at the highest levels so that the law firm representing the City of Columbus is able to carry out the responsibilities assigned to it by the Charter in a competent and professional manner. Proper staffing levels and adequate compensation will always be this office's major priorities and budget issues.

2012 Budget Notes

- Costs for legal settlements for general fund agencies as well as outside counsel for cases involving a conflict of interest are budgeted in the Department of Finance and Management's citywide account.
- The 2012 budget provides funding for 113 full-time and 36 part-time employees. One additional position was added for an attorney to assist with problematic and abandoned housing in Columbus.
- A total of \$80,000 is budgeted for subscriptions to various legal research services and publications.

Municipal Court Judges

Department Description

The Franklin County Municipal Court is established pursuant to section 1901.01 of the Ohio Revised Code and traces its origin to the creation of the Columbus Municipal Court in 1916. The geographic jurisdiction of the court is all of Franklin County and those portions of the City of Columbus that extend beyond the boundaries of Franklin County.

The court has 14 judges in the General Division and one judge in the Environmental Division. Judges serve six-year terms, unless appointed or elected to fill a vacancy. Annually, one peer is elected to serve as the Administrative and Presiding Judge.

The judges preside over civil, criminal, and traffic cases and conduct both jury and non-jury trials. In jury trials, judges interpret the law and the jury determines factual matters. In non-jury trials, by far the more common, judges have the dual role of interpreting the law and determining the facts. The judges also conduct criminal arraignments and initial appearances on felony cases, set bond on criminal charges, issue search warrants, and impose sentence when a defendant is found guilty of a traffic or criminal charge. The judges hear civil cases where the amount in controversy is \$15,000 or less, and cases that are transferred from the Small Claims Division to the regular docket of the court.

The jurisdiction and powers of the Environmental Division differ from those of the General Division in several important respects. The Environmental Division has exclusive jurisdiction to enforce local codes and regulations affecting real property, such as fire and building codes. The Environmental Division has injunctive powers, and there is no monetary limit on the cases that fall within the Environmental Division's exclusive jurisdiction.

Each week, a different judge is assigned to the Duty Session to handle a variety of responsibilities, which include applications for search warrants, motions to dismiss filed by the prosecutor, cognovit notes, motions to excuse jurors, probable cause hearings, motions for default judgments filed in unassigned cases, and performing civil wedding ceremonies.

The court administrator is the chief executive officer and reports to the judges of the court, primarily through the administrative and presiding judge. The court administrator is responsible for developing and implementing policies and procedures, and directs and supervises all administrative and operational court functions, which include the following areas: budget and finance, purchasing, facilities, security, human resources, magistrates, jury, case assignment, probation services, service bailiffs, small claims, court reporters, interpreters, vehicle immobilization, court-appointed counsel, and court investigation.

Department Mission

Judiciary - To safeguard the constitutional rights of all citizens and to provide equal access to all; professional, fair, and impartial treatment; timely disposition of cases without unnecessary delay; and a just resolution of all court matters.

Administration - The mission of the employees is to implement the policies and procedures established by the judiciary and the legislature in a professional and dedicated manner, and to ensure accessibility, fairness, accountability, and courtesy in the administration of justice.

Strategic Priorities for 2012

- House Bill 86 passed in 2011 appears to mandate the use of the Ohio Risk Assessment System (ORAS) in certain probation cases. Implementation of this system will be a major undertaking for the Department of Probation Services and may require the addition of several new Probation Officers (for which there is currently no funding) and extensive staff time and training.
- Find reliable funding sources to continue participation in the Alvis House Residential Work Release program. House Bill 86 provides that mandatory incarceration days for OVI cases (operating a vehicle under the influence of alcohol or drugs) can be served in a work release setting.
- Increase usage by probationers of electronically monitored home incarceration and SCRAM (Secure, Continuous Remote Alcohol Monitoring).
- If funding is approved in the 2012 budget, prepare a request for proposals seeking a vendor to perform a salary survey and update the Court's job classifications, salary ranges, and, if required, salaries.
- Stabilize the special projects fund (which funds the Court's security department) and determine whether an increase in court costs for the Fund is necessary and desirable.
- Evaluate the audio-video recording equipment that has been installed in several judges' courtrooms.
- Prepare financially and programmatically for the mandatory use of certified foreign language and American Sign Language interpreters, which will be required by the Supreme Court beginning in 2013.
- Explore financial reporting methods and forms that would provide better information for hiring and purchasing decisions.
- Complete the move of the Security Department and Service Bailiffs Department to the 18th floor.
- Undertake limited remodeling to reconfigure the duty room and create several new work spaces.
- Increase effectiveness and success rates of the court's specialty dockets – Mental Health Program Docket, ADAP (Alcohol and Drug Abuse Program) and CATCH (Changing Actions to Change Habits). Work with government and

community partners to evaluate feasibility and desirability of creating a veterans' docket.

- Obtain continuation funding from the Franklin County Common Pleas Court and other government partners for the Franklin County Foreclosure Mediation Project operated by the Court's Dispute Resolution Programs Office.
- If not completed in 2011, finish the installation of a new VoIP telephone system.
- Continue collaboration with other government partners (City Council, Mayor, Franklin County Common Pleas Court, Franklin County Commissioners, Sheriff, Department of Rehabilitation and Correction, etc.), community partners, and vendors leading to greater program efficiencies, cost-saving measures, and increased funding, all of which affect the Court's ability to achieve its other strategic priorities.

2012 Budget Notes

- The 2012 general fund budget funds 184 full-time and 11 part-time employees. Also included are fees for court-appointed counsel (\$50,000), foreign language interpreters (\$115,488), forensic psychological examinations (\$98,017), and interpreters for the deaf (\$15,000).
- Funding of \$30,000 is included for electronic monitoring of offenders in the home incarceration program, which provides a cost effective option to incarceration of offenders who do not pose a threat to public safety.
- Juror's fees, totaling \$210,000, are included in the budget for 2012. These funds are used to pay jurors a nominal fee to cover incidentals such as parking, food and other related items.
- Court costs and fees fund core court functions that would otherwise require general fund support. The security fund, which is budgeted at \$1,728,435, pays for all court security, including 21 full-time positions, contracted evening and weekend services, and equipment. The court's computer fund is budgeted at \$352,378 and funds technology needs.

Municipal Court Clerk

Department Description

The Franklin County Municipal Clerk of Court's Office serves as the legal guardian and keeper of all the official records of the Franklin County Municipal Court including all criminal and civil case filings, subpoenas, search warrants, pleadings and monies (court costs, fines and third party monies from garnishments to name a few). The Clerk of Court's Office is entrusted with the responsibility of processing and archiving all court records in accordance with various file retention requirements. Additionally, the Clerk of Court's Office calculates and fully details all financial transactions involving the court, from fines and costs to money garnishments, trusteeship and rent escrow monies along with disbursing the same according to law. The Clerk's Office compiles and publishes an Annual Report each year that details the various categories of court case filings, all financial transactions connected with all court cases, including identifying what entities receive court costs, and statistically reports all relevant data regarding the same.

Mission

To accurately maintain, safeguard and store all court documents as well as collect and disburse all monies as directed by legal mandates.

This will be accomplished through a knowledgeable and diverse staff that will strive to serve all who use this office through competent customer service, communications and community outreach.

Strategic Priorities for 2012

The objectives of these priorities will be to save valuable taxpayer dollars, better utilize staff resources and lessen the carbon footprint of the Franklin County Municipal Clerk of Court's Office.

E-filing for Civil Cases

Create an electronic filing system that will allow parties to file civil cases and documents online.

E-Ticket

Expand citation program to the Franklin County Sheriff's Office and the Ohio Highway Patrol.

Web-based Garnishment Management System

Develop a web-based garnishment management system (GMS) that will allow debtors, employers and attorneys the ability to manage garnishments online.

Day Forward Imaging

Create an imaging workflow process which incorporates an electronic imaging station. As part of the e-filing process, the Municipal Court Clerk's office will convert all paper documents to an electronic image as documents are filed.

Expansion of Time-Payment Program

Develop a web-based time payment system to allow individuals to establish, maintain and monitor their time payments.

Ohio Courts Network (OCN)

Continue collaboration with the Ohio Supreme Court to expand the Ohio Courts Network. The Franklin County Municipal Court Clerk's office has provided a complete image of its database to OCN and performs nightly updates.

2012 Budget Notes

- The 2012 general fund budget funds 155 full-time and 2 part-time employees. Funding for basic supplies and services, such as file folders, envelopes, paper, postage, printing, and bank fees make up the majority of the Municipal Court Clerk's 2012 non-personnel general fund budget, amounting to over \$1 million.
- The Municipal Court Clerk's 2012 computer fund budget of \$1,839,189 includes seven full-time positions. The computer fund budget also includes funding for supplies, maintenance and support, and equipment related to the continued development and maintenance of the case management software system.

Civil Service Commission

Department Description

The Civil Service Commission is part of the checks and balances of city government. It maintains a merit system of employment to ensure that the City of Columbus has a competent workforce. To do this, it manages the city's job classification plan by maintaining current job descriptions for the city workforce, continually updating the city's job classes and standardizing their use. The Commission also works with city agencies to establish hiring criteria for city jobs and then assesses the qualifications of applicants against these criteria. The Commission ensures that individuals hired to work for the City of Columbus are qualified for the work to be performed, are compensated appropriately, and meet the city's residency requirement. Each pay period, the Commission reviews each personnel transaction and then certifies that the city's employees have been employed and are being paid in accordance with the City Charter, city ordinances, and commission rules.

Department Mission

To ensure that the City of Columbus has a qualified workforce dedicated to serving its citizens.

Strategic Priorities for 2012

From the Columbus Covenant:

Safety

- Continue efforts to improve diversity in the safety forces and to meet the city's hiring needs.
- Administer the firefighter and police officer exams to ensure an adequate pool of competent, qualified candidates are available for appointment.

Peak Performance

- Collaborate with the Auditor's Office, Human Resources Department, and the Department of Technology to complete the implementation of the new Columbus Human Resources Information System (CHRIS).
- Assess the qualifications of applicants to ensure they are capable of delivering quality services to the citizens of Columbus. The more competent the city workforce is, the greater the quality of services that can be provided to the public with the same tax dollars.

2012 Budget Notes

- The Civil Service Commission budget includes funding for 34 full-time and 12 part-time employees, an increase of one full-time employee from 2011.
- To accommodate planned police and fire classes in 2012, the budget includes \$96,140 for medical screenings and \$79,750 for psychological screenings for police and fire recruits.
- Funds budgeted for scheduled safety promotional testing in 2012 include \$69,900 for the Police Lieutenant/Commander exam, and \$33,600 for the Fire Battalion/Deputy Chief exam.

Department of Public Safety

Department Description

The Department of Public Safety manages the operations of the Divisions of Fire, Police, Support Services, and the Safety Director's Office for the City of Columbus.

Department Mission

To build and maintain safe neighborhoods by working cooperatively with citizens to minimize injury, death, and property destruction.

Strategic Priorities for 2012

From the Columbus Covenant:

Safety

- Monitor expenses of Public Safety Divisions, especially overtime.
- Continue to deploy uniformed personnel in neighborhoods to preserve current response standards to life-threatening emergencies.
- Continue to focus on the most effective and efficient deployment of Police and Fire personnel, making staffing adjustments when necessary.
- Continue efforts to prevent crime, reduce violence, and remove illegal firearms from city streets.
- Continue to enhance pedestrian and vehicular safety through the use of photo red light cameras.
- Begin renovation of the Woodrow Avenue location and move the Police property room.
- Continue various renovations at Fire stations, including pavement repairs, new energy efficient lighting, window replacements, and kitchen renovations.
- Begin energy saving retrofits at Police headquarters.
- Continue efforts to comply with standards to maintain national and international accreditations for both the Police and Fire Divisions.
- Continue to utilize the COPS grant to retain police officers.
- Begin design of new Police crime lab.
- Begin design of a replacement Fire station.
- Begin renovation of a new facility for the Support Services Division and a warehouse for the Fire Division.

Neighborhoods

- Improve neighborhood safety, community participation, and Police responsiveness by working with other city agencies and community leaders to continue successful neighborhood safety initiatives. An important component of safety initiatives involve implementing strategies related to the reduction of gun violence and gang activity. City agencies and community leaders will continue to work with other government agencies, community members and federal, state, and county law enforcement agencies to leverage additional resources.
- Complete implementation of the Neighborhood Safety Camera Project and review performance measures on crime data.
- In partnership with the Community Crime Patrol and Capital Crossroads, continue to monitor the newly developed downtown parks, proactively addressing any safety concerns.
- Continue to utilize Police resources in conducting the summer strike force initiative that targets areas of criminal activity.
- Continue to use the Police Community Response Teams (CRT) to engage localized crime patterns, provide crowd control, and foster community partnerships to address quality of life issues.

Customer Service

- Promote concepts of community involvement in crime awareness and crime reduction programs and efforts. The focus will be centered on participation in neighborhood crime reduction and organizational efforts such as block watch groups to support community policing partnerships.
- Continue the emergency medical services (EMS) billing program to increase enhanced features for patient care reporting and maximizing revenue.
- Review the automated phone attendant for non-emergency calls to the Police radio room to ensure maximum efficiency.

Education

- Continue to work with the public to facilitate educational activities such as student participation in the neighborhood safety academy and provide coordination between the schools' programs and a continued safety personnel presence.
- In partnership with Columbus City Schools, continue to maintain a presence of police officers and firefighters in the schools, including 17 school resource officers in Columbus high schools and 20 community liaison officers who present public safety programs in the elementary and middle schools.
- Continue police officer and firefighter participation in Somali and Hispanic cultural awareness and Spanish language classes in a continuing effort to enhance communication with immigrant communities.

Technology and Equipment

- Complete the 800 MHz Radio Rebanding Project.
- Begin design and strategy for the migration of the current 800 MHz radio system from analog to digital. (Support for the analog system will end in December 2012).
- Begin installing VOiP telephone systems in all Public Safety buildings.
- Update the communications systems in the emergency response vehicle to include internet capability, data transmission and VOiP.
- Continue to utilize the distance learning program to enhance training efforts in the Fire Division. This program employs computer system connectivity to provide firefighters opportunities to better access information regarding fire and emergency medical services, as well as promoting training that reduces the need for a physical presence in the classroom. This approach allows firefighters to remain in Fire stations, ready for emergency calls while reducing overtime demands.
- Continue the significant efforts to replace and improve emergency response vehicles by placing in service 3 new tiller ladders and 5 heavy rescue vehicles.
- Continue to integrate and enhance the functionality of the new computer aided dispatch (CAD) system.
- Continue to utilize Telestaff, a computer-based staffing program, designed specifically for the complex needs of the Fire Division.
- Continue to utilize a software solution to automate the flow of information between scrap metal dealers and the Division of Police. This solution has dramatically improved the ability to search records and link stolen property with a suspect(s). The system has already led to a number of arrests.
- Continue to work with Franklin County Emergency Management and Homeland Security to upgrade the outdoor emergency siren system.
- Procure new police cruisers and other light vehicles for use by the Public Safety Divisions.
- Enhance pedestrian safety around school zones through the use of mobile speed vehicles and license plate readers.
- Complete the renovation of the Police Academy indoor shooting range.

2012 Budget Notes

Safety Administration

- Support to the Emergency Management Agency of Columbus and Franklin County is budgeted at \$595,000 which represents the city's proportionate share of the maintenance and administrative support of the area's emergency siren system.

- Jail contract expenses are budgeted at \$6 million in 2012. The per-diem cost was increased in May of 2011 from \$72 to \$79.
- A total of \$300,000 is budgeted for the community crime patrol, which patrols the University district, the Hilltop/Franklinton area, and the Merion-Southwood neighborhood as well as the Recreation and Parks multi-use trail along the Olentangy River. The community crime patrol assists the Division of Police in identifying suspicious activities indicative of criminal behavior.
- To promote neighborhood safety initiatives, \$50,000 is budgeted for community grants for violence prevention.
- Minority recruiting efforts will continue in 2012, with \$40,000 allocated to this effort.

Support Services

- In 2011, an expanded and upgraded computer aided dispatching system was implemented. Funding for maintenance of this system is included in this budget in the amount of \$410,809.

Police

- The Division of Police's 2012 budget provides funding for a beginning year contingent of 1,899 police officers. This beginning year figure assumes a December 2011 class of 35 recruits. It is anticipated that during 2012, there will be a total of 50 separations. Officers lost through these separations will be replaced via 2 budgeted classes totaling 80 recruits and subsequent internal promotions.
- The COPS grant will continue to pay for the majority of the expenses related to the 115th Academy class which graduated in August 2010 and offset the costs of four recruits in the 116th class. This is the third year of the three year grant, and the 2012 budget totals \$3.79 million.
- Major non-personnel budget items include \$8.1 million in internal charges for fleet (including fuel), over \$3.0 million for uniforms and clothing allowance, \$1.8 million for the towing contract, \$562,010 for helicopter maintenance, \$700,000 for prisoner medical expenses, \$300,000 for evidence funds, \$308,000 for helicopter fuel and over \$250,000 for ammunition.
- A total of \$700,000 is included for the community summer initiative in 2012.
- A total of \$1.6 million in Police expenses will be paid out of the photo red light fund in 2012.
- Approximately \$1.45 million in funds received by the city from E-911 revenue will be used to partially fund the salaries and benefits of communications technicians in the division in 2012.
- The special income tax (SIT) fund will continue to assume debt associated with the police pension liability. It will also be used to fund all police building leases, projected at over \$1.0 million.
- Funding for police cruisers is budgeted in the city's SIT fund in 2012.

Fire

- The Fire Division's 2012 budget provides funding for a beginning year contingent of 1,563 firefighters, which includes 60 recruits. It is anticipated that during 2012 there will be a total of 35 separations. Firefighters lost through these separations will be replaced with budgeted classes totaling 35 recruits and subsequent internal promotions.
- The division currently provides fire suppression and EMS service with 34 paramedic engine companies, 15 ladder companies, and 5 heavy rescue units. Thirty-two EMS transport units, one for each station, have been attached to engine companies to create two-piece companies capable of responding to either fire or medical emergencies.
- Major non-personnel budget items include over \$6.2 million in internal charges for fleet (including fuel), over \$1.95 million for uniform parts and clothing allowance, \$822,240 for the physical fitness program, \$1.2 million for medical supplies, and \$525,000 for turnout gear.
- The EMS third-party reimbursement program that began in January 2003 is expected to generate \$14.3 million in 2012. Offsetting that revenue is an estimated \$1.9 million for EMS billing related services.
- The SIT fund will continue to assume debt associated with the fire pension liability, and will also fund the Williams Road warehouse lease, as well as the professional standards unit's Long Street lease.
- Funding for light duty Fire vehicles is budgeted in the city's SIT fund in 2012.

Mayor

Department Description

The Mayor provides leadership and vision for the City of Columbus through the formulation of policies, delivery of city services, communication and outreach to citizens and the greater community. As head of the executive branch of government, the Mayor establishes priorities for the departments serving the citizens of Columbus. The Mayor's staff is responsible for the coordination and monitoring of policies and programs designed to meet the goals of the Columbus Covenant.

Department Mission

To ensure the safety and prosperity of all citizens of Columbus through the Mayor's goals outlined in this document.

Strategic Priorities for 2012

The strategic priorities of the Mayor are embodied in the Columbus Covenant – a strategic plan that outlines the seven major areas the city seeks to improve in order to move closer to the vision of becoming “the best city in the nation in which to live, work, and raise a family”.

Those seven goal areas are:

From the Columbus Covenant:

- Customer Service – provide quality and efficient service delivery to customers using “best practices”
- Neighborhoods – engage and promote strong, distinct, and vibrant neighborhoods
- Safety – enhance the delivery of safety services
- Economic Development and Technology – provide an atmosphere that promotes job creation and economic growth in existing and emerging industries
- Education – encourage and promote participation in learning opportunities
- Downtown Development – develop a vibrant and thriving downtown that is recognized as an asset for the region
- Peak Performance – invest in all city employees and develop systems that support a high-performing city government

2012 Budget Notes

- The recommended budget for the Mayor's Office provides for continued operation of the office.
- In 2012, the general fund will pick up a portion of the costs associated with the "Get Green" initiative. In past years, these costs were borne solely by moneys provided to the city by the Solid Waste Authority of Central Ohio (SWACO). In 2012, SWACO will fund 50 percent of the environmental steward and associated costs with the city's general fund picking up the balance.

Community Relations Commission Office

Department Description

In 1990, the Community Relations Commission (CRC) was established to help convene and facilitate discussions with civic leaders, business leaders, citizens and elected officials on issues of ethnic, racial and cultural diversity. The CRC is committed to creating connections between the neighborhoods of Columbus and all of our residents. Through the work of the CRC, our vision of “Building a Community for All” can become a reality.

Department Mission

The mission of the CRC is to provide leadership to the people of Columbus by educating citizens about diversity, identifying and resolving community tensions and eliminating racism/discrimination.

Strategic Priorities for 2012

From the Columbus Covenant:

Neighborhoods

- Continue to work with area commissions, civic associations, and community organizations on conflict resolution within various neighborhoods, provide technical training, best practices, and offer additional support as requested.
- Continue implementation of the Mayor’s New Americans Initiative with a focus on integrating immigrant and refugee families into the community. The initiative encompasses capacity building, education and awareness presentations, distribution of civic guides and assistance with citizenship civic engagement.

Economic Development and Technology

- Continue to respond to requests for training and technical assistance on diversity, cultural awareness, and civil rights compliance, changing demographics, non-discrimination practices and cultural sensitivity.
- Work in conjunction with the Equal Business Opportunity Commission Office to build economic capacity within the refugee and immigrant communities.

Safety

- Improve residents’ general knowledge and awareness of safety forces’ operations and procedures, through social media, television, and presentations such as the ABC’s of CPD & CFD resulting in enhanced relationships and understanding between the community and safety forces.

Education

- Continue to provide public forums and weekly live television programs on key issues facing our community. The live forums will educate our residents and allow critical community input and interactive participation. These programs will be televised and community reaction will be monitored.

Peak Performance

- Continue to update and enhance the complaint tracking system, which tracks the CRC staff's performance on complaints and neighborhood issues and events. The database offers a real time status on each charge and complaint initiated through the complaint system.
- The CRC will continue to provide cultural sensitivity training to all city departments.
- Continued focus on performance dashboard results to monitor success of programming and activities in order to increase efficiency.

2012 Budget Notes

- Funding for the New Americans Initiative continues in 2012 to assist with the assimilation of new Americans arriving in Columbus from other countries. Services will include translation and interpretation services, as well as training for police and fire personnel.

Equal Business Opportunity Commission Office

Department Description

The Equal Business Opportunity Commission Office (EBOCO) develops and implements race and gender-neutral programs that encourage the use of a diverse pool of qualified contractors and service providers, reviews informal purchasing policies and provides technical assistance to the minority, female, and small business community, and recommends and implements additional efforts necessary to further develop inclusiveness in the city's contracting practices. EBOCO also reviews all rules and regulations relevant to contract compliance and ensures that the city is conforming to those rules or regulations.

Additionally, EBOCO compiles, reviews, and analyzes minority and female business enterprise utilization, based upon city contract awards, contract payments, and vendor registration data. The office is also responsible for the production of quarterly utilization reports to the Mayor and City Council.

Department Mission

The mission of the Equal Business Opportunity Commission Office is to promote inclusiveness within the city's procurement process and to facilitate equitable awarding of contracts to all businesses including minority and female business enterprises.

Strategic Priorities for 2012

From the Columbus Covenant:

Peak Performance

- Encourage and promote fairness and equity in the use of small, minority, and female owned business enterprises by city agencies and departments.
- Monitor and review city contracts for compliance with city, state, and federal requirements.
- Participate in outreach activities that will inform customers (internal and external) about the contracting opportunities and the importance of a diverse vendor base.
- Establish policies and procedures to ensure that available minority and female businesses have equal access to opportunities in bid solicitations.
- Continue internal meetings, external forums and other educational training sessions as well as host "how to do business with the city" seminars to encourage minority and female businesses to seek opportunities with the city. EBOCO will continue the publication and dissemination of a minority/female business enterprise directory, the ACCESS newsletter, the "Access to Opportunities" television program, and the EBOCO annual report.

- Periodically recommend and implement additional efforts necessary to institutionalize processes and further develop inclusiveness in the city's contracting practices.
- Continue to expand strategic partnerships, allowing pooling of services to have the greatest impact and provide exceptional customer service that exceeds expectations.

2012 Budget Notes

- Funding in 2012 provides for two additional positions for pre-bid, pre-construction and compliance review of federal and state-funded projects.

Department of Building & Zoning Services

Department Description

The Department of Building & Zoning Services supports the safety and quality of life for the residents and visitors of the City of Columbus through the implementation of the Columbus Building and Zoning Codes.

Department Mission

To ensure safe, quality development in the City of Columbus.

Strategic Priorities for 2012

From the Columbus Covenant:

Customer Service

- Provide quality service and efficiency in plan submission through the continuation of the preliminary plan review process in collaboration with all departments.
- Continue to update, educate and communicate new policies/procedures that may improve the building process in our community.
- Maintain an ongoing communication among departments in meeting Memorandum of Understanding (MOU) compliance.
- Continue cross-training staff on all aspects of the development process to meet MOU compliance.
- Continue to manage necessary zoning code revisions such as definitions, residential standards, permitted uses, deletion of antiquated terms, and initiate necessary revisions to the Graphics Code.
- Maintain an up-to-date website and continue to introduce effective information to the public.
- Continue necessary upgrades to the existing Accela Automation software system to enhance processing time for permit application; to provide user friendly online permit tracking and offer additional online permitting options to the public.
- Continue to reduce the wait at the intake counter through cross-training and improved processes and procedures.
- Continue partnering with the industry in promoting safe, quality and responsive services to consultants, contractors and citizens of Columbus.

Safety

- Continue to enforce the Columbus Building and Zoning Codes throughout the permitting and inspection process.

- Continue to provide all necessary safety resources and training to staff.

Education

- Continue outreach training on an annual basis to the industry/development community to help lessen the plan review time and ease the development process.
- Provide adequate job and/or trade related training to staff and continue to promote certification training/seminars.

Peak Performance

- Implement strategic opportunities as addressed in a timely manner.
- Implement performance management by refining and tracking applicable information on performance measures which will significantly improve data linked to the budget.
- Refine and promote a relevant employee performance evaluation technique that will support high-performing employees.

Budget Notes for 2012

- Funds are allocated to continue to improve the computer based technology that drives storage and retention of information concerning zoning and building. This includes funds for replacement computers as well as funds for various software improvements and upgrades.

Department of Development

Department Description

The Department of Development provides an array of services through its divisions and offices: the Code Enforcement Division, Economic Development Division, Planning Division, Housing Division, the Director's Office, and the Office of Land Redevelopment.

The department coordinates key development projects and provides resources through its financing and technical assistance programs.

Department Mission

The mission of the Department of Development is to engage and promote strong, healthy, distinct and vibrant neighborhoods, provide an atmosphere that promotes job creation and economic growth in existing and emerging industries, develop a thriving downtown that is recognized as a regional asset, and provide high quality customer service.

The department has pursued its mission through key development projects such as the King-Lincoln redevelopment, Northland Village, Gowdy Field, and Greenview Estates.

Strategic Priorities for 2012

From the Columbus Covenant:

Neighborhoods

- Coordinate funding from the federal Housing and Economic Recovery Act of 2008, American Recovery and Reinvestment Act and the Financial Reform Act (NSP 1, 2, 3) with public and private sector partners to revitalize defined areas, focusing on neighborhoods hit hardest by the foreclosure crisis. Utilize the Columbus Land Bank and housing programs to target acquisition of foreclosed properties, demolish blighted structures, and renovate vacant homes into community assets.
- Continue the coordinated efforts of the City Attorney and code enforcement staff by bringing 250 new cases before the Franklin County Environmental Court.
- Continue the King-Lincoln Redevelopment Initiative by working with private sector partners to redevelop two mixed use structures in the heart of the Long Street corridor.
- Continue to coordinate redevelopment efforts in the South Parsons Gateway consistent with the adopted vision plan through a cooperative effort by Planning, Economic Development, Land Redevelopment, and Housing. Work with Columbus Public Health relative to the Maloney Health Center site.
- Coordinate the housing development program with other public and private sector programs, especially the city's land banking efforts, to revitalize defined areas, focusing on the neighborhood investment districts (NIDs).

- Continue to acquire vacant and foreclosed properties, demolish blighted properties, and sell or hold property in the land bank for redevelopment to provide rental and homeownership opportunities in strategic neighborhoods.
- Continue a major housing development project in a neighborhood investment district.
- Expand down-payment assistance activities to offer homeownership opportunities to a maximum number of low and moderate income households by providing more than 90 first time homebuyers with assistance.
- Continue to utilize the five Neighborhood Pride Centers to serve as links between city services and Columbus neighborhoods. Each pride center is a one-stop-shop for various city services and is dedicated to protecting the health, safety, and welfare of families living in their designated area.
- Continue the neighborhood pride program with up to four new neighborhoods, and continue to implement neighborhood priorities and partnership arrangements in previous neighborhood pride areas to institutionalize the neighborhood pride program in the community.
- Continue to staff the Property Maintenance Appeal Board which hears appeals from the Housing, Nuisance Abatement, and Health, Sanitation, and Safety Codes.
- Continue to work with area commissions, civic groups and block watches to address issues and problems in the neighborhoods.
- Explore and implement measures to promote environmental stewardship in city operations and development efforts.
- Implement the Get Green Columbus initiative in all department divisions by focusing on green development, business incentives, green residential development, and leveraging the Columbus building and zoning codes.
- Implement the \$250,000 Green CHDO Home award from HUD for construction of homes in the American Addition project. Continue to advocate for green building standards for all city funded affordable housing.
- Continue to implement key recommendations of the 21st century Growth Policy initiative, including its four components: Pay-As-We-Grow, joint facilities, job and regional growth and intergovernmental cooperation.
- Continue to provide staff support to the Big Darby Accord process, including initial implementation steps for the Darby Town Center as well as other related initiatives (open space acquisition, conservation development, etc.)
- Undertake and complete four new area/neighborhood plans: Far North Plan Amendment, Northland I, West Olentangy, and Dublin-McKinley.
- Complete two area plans initiated in 2011: East Columbus, and North and South Linden.
- Complete the East Franklinton Creative Community District Plan, including management of the consultant team.
- Provide assistance to the PACT initiative in the Near East, including assistance with consultant procurement.

- Initiate up to three new sets of commercial overlays.
- Continue working with Franklin County and other partners in completion of the Weston Market Study and Economic Development Strategy, as well as implementation tasks that will be undertaken.
- Continue to staff the University Area Review Board, the Rocky Fork Blacklick Accord Panel, and the Darby Accord Panel.
- Continue to provide support and training to the 16 area commissions which work to empower neighborhood residents.
- Participate in the Mid-Ohio Regional Planning Commission's watershed management planning.
- Continue to staff the Columbus Art Commission and provide staff support to several public art projects, including the Columbus 2012 temporary art installation downtown and the permanent installation at North Bank Park.
- Continue to staff the Board of Commission Appeals, Brewery District Commission, German Village Commission, Italian Village Commission, and Victorian Village Commission.
- Continue to monitor the historic rehabilitation of the Gift Street property (Deardurff House) in Franklinton.
- Undertake updates to the design guidelines for the Historic Resources Commission to the extent possible, given available resources.
- Continue working with the Department of Public Service on the review and approval of various components of the I70-71 reconstruction project, including active engagement with the adjacent neighborhoods.
- Continue working with COTA on the proposed Cleveland Avenue bus rapid transit project.
- Provide assistance as required to the Recreation and Parks Department as the downtown pedestrian bridge project moves through design.
- Continue staff support and management of the annexation process.
- Continue to work with the neighborhoods and the City Attorney's Office to address the increase of vacant structures due to foreclosures.
- Continue to work with the Columbus Health Department and the Franklin County Bed Bug Task Force to address the problem of bed bugs within the community.
- Continue to perform inspections of gas appliances in citizens' homes and apartments to prevent carbon monoxide poisoning.

Economic Development and Technology

- Proactively pursue opportunities for job growth and investment through improved marketing efforts that will build awareness of the City of Columbus' strength and potential.
- Foster growth among existing and emerging industries through a targeted business retention program.

Development

- Leverage relationships with Columbus2020!, TechColumbus, Battelle Research Institute, The Ohio State University and other businesses to encourage entrepreneurship, innovation and commercialization.
- Continue to support regional economic development strategies designed to retain and expand companies within advanced logistics, small business, and technology-based industries.
- Support ongoing development in the King-Lincoln, Franklinton and Parsons Avenue districts through the use of small business grants and loans.
- Continue to support growth of the Rickenbacker multimodal hub with strategic investments and supporting economic development incentives.
- Coordinate the economic redevelopment of key development projects including Northland Village, Columbus Coated Fabrics, B&T Metals and the city's neighborhood commercial revitalization districts.
- Continue implementation of a Green Economic Development policy to encourage investment in environmentally sustainable business growth.

Downtown Development

- Continue to implement the comprehensive business plan for downtown development, including strategies for housing, retail, parking, transportation, recreation, and economic/office development. Focus on specific recommendations for workforce housing and downtown amenities/programming.
- Collaborate with Capitol South and the Columbus Downtown Development Corporation on targeted programs to encourage development and redevelopment of the Mile on High district and other key downtown properties.
- Continue partnering with the Columbus Downtown Development Corporation in the implementation of the downtown business plan.
- Increase the number of downtown employees by strengthening partnerships with the State of Ohio and other public and private employers, as well as by implementing targeted programs.
- Continue staffing the Downtown Commission.
- Continue to work with the Downtown Commission to ensure consistency between development projects and the Downtown Strategic Plan. Consider code amendments as necessary.
- Assist with the implementation of the Mile on High Strategy.

Peak Performance

- Implement strategic opportunities on time and on budget.
- Implement performance management by refining performance measures and collecting and tracking relevant data with links to the budget and employee performance evaluation. Implement and enhance the use of performance data for all programs within the department.

Customer Service

- Institute an ongoing communication mechanism that shares “best practices” among all departments.
- Work with the 311 call center to enhance communication with the public.
- Continue to work with the Accela Program to make the work of Code Enforcement Officers more efficient.

2012 Budget Notes

Administration

- Total support for social service agencies is \$4.1 million, comprised of \$3.2 million in general fund support and \$.9 million in emergency human services funds. General fund support is \$500,000 greater than in 2011 and includes funding for a South Side collaborative that will provide services to address the needs of the South Side community that were formerly provided by the South Side Settlement House.
- The general fund budget includes \$150,000 for the Columbus and Franklin County Port Authority, the same amount provided over the past several years.

Economic Development

- The division will receive \$3.138 million to assist in the economic development efforts being put forth by Experience Columbus, Columbus2020!, and TechColumbus.
- The division will continue to focus its efforts on the retention and expansion of existing Columbus businesses, the attraction of new businesses to Columbus and the creation of new business opportunities from local research institutions and community entrepreneurs. The 2012 budget includes \$325,000 to continue these efforts.
- The division supports downtown development through a contract with the Capital Crossroads Special Improvement District for \$190,000.
- The division supports local economic development through the provision of loans from the economic development loan fund and through contracts with economic development-oriented agencies. The community development block grant supported budget for this effort in 2012 is approximately \$1.4 million.
- The budget provides \$100,000 for a near-east partnership agreement to support OSU with the development efforts on the near east side.

Code Enforcement

- Funding of \$100,000 is provided from the general fund for the demolition of unsafe structures acquired through the land bank. Funds from the special income tax fund will be used to augment this program.

Development

- In 2012, an additional \$200,000 is being provided to procure increased levels of weed cutting services on foreclosed properties that have been abandoned. This brings the 2012 funding level for these services to \$793,892; \$545,000 in the general fund and \$248,892 in community development block grant funds.

Planning

- The general fund supports 15 full-time equivalent positions in 2012, the same level as 2011.
- The 2012 budget provides support of \$50,000 for implementation of the Darby Town Center master plan, which is being managed jointly by the city, Franklin County and Brown and Prairie Townships. This funding will support staff and legal counsel for negotiations and contracting land commitments.

Housing

- Support for the Community Shelter Board and the rebuilding lives program will total over \$4.1 million in 2012. The majority of funding for these programs comes from the general fund, though minor allocations, totaling \$325,000 and \$81,029, are provided respectively by HOME and CDBG funds,.
- The affordable housing trust fund was formed in 2000 and is administered by the Columbus Housing Trust Corporation to provide affordable housing and promote home ownership. The fund was seeded with \$2 million in urban development action grant (UDAG) repayments. Annual deposits of 8.43 percent of the hotel/motel tax fund revenues have been made and will continue, with the ultimate goal of building the fund to \$20 million. Hotel/motel revenues are estimated at \$1.275 million in 2012.
- HOME funds totaling \$172,691 will be used to provide community housing development organizations with operating grants.

Department of Finance and Management

Department Description

The Department of Finance and Management is organized within two operational groups: the Financial Management Group and the Asset Management Group. The Director's Office provides overall coordination and policy direction for the department's fiscal, human resource and legislative processing functions.

The Financial Management Group is comprised of the Financial Management Division, which includes the budget, grants management, purchasing, performance management, and debt management offices. The budget office oversees the development, monitoring and control of the city's operating budgets. The debt management office provides coordination of the capital improvements budget and the six-year capital improvements program. The grants management office provides budget preparation and program monitoring for several federal grant programs. The purchasing office is responsible for the procurement of goods and services, including the administration of the city's procurement policies and procedures. The performance management office is responsible for the development and maintenance of performance management systems throughout the city. The city's print shop and mailroom are housed in this division as well.

The Asset Management Group is comprised of the Divisions of Facilities Management and Fleet Management as well as the construction management and real estate management offices. Facilities Management is responsible for custodial services, maintenance, energy management, and security for the City Hall complex, Police and Fire Division facilities, the Public Health complex, and the I-71 complex. The Fleet Management Division maintains motorized equipment for most city departments and divisions. The division also develops and promotes citywide policies that govern acquisition, maintenance, use and disposal of vehicles. The goal is to deploy the most cost-effective vehicles, reduce underutilized vehicles, and eliminate older high-maintenance vehicles from inventories. The construction management office provides building construction, renovation, and project management. The real estate management office provides centralized real estate administration including leasing, acquisition, disposition, and casualty insurance administration.

Department Mission

To protect and to enhance the fiscal integrity and efficient management of the city while promoting the Mayor's citywide program initiatives.

Strategic Priorities for 2012

Peak Performance

- Continue Columbus*Stat, a forum for the Mayor and his chief administrators to meet with department managers through a systematic process of performance analysis, focusing on accountability using performance management dashboards to review performance.
- Continue to implement the city's environmentally preferable purchasing program by incorporating appropriate language in bid documents, adding website information regarding environmentally preferable purchasing, researching environmentally friendly products and communicating and educating vendors and city agency staff on the program.
- Update the procurement codes to reduce redundancies, allow for enhanced efficiencies and include verbiage recognizing increased use of electronic purchasing systems.
- Ensure that the city operates within adopted operating and capital budgets.
- Develop and promote citywide policies that will govern vehicle acquisition and maintenance. Continue work with city departments to reduce underutilized vehicles and eliminate older, high-maintenance vehicles from the city's fleet.
- Work with partners within the city and community to identify green opportunities, new fleet technological developments, and training.
- Begin utilizing Compressed Natural Gas (CNG) for the City's current fleet of 24 CNG vehicles. Annually, the use of CNG will displace over 55,000 gallons of diesel fuel; save \$60,000 to \$90,000 in fuel costs; and displace approximately 490 metric tons of carbon emissions.
- Continue to emphasize and make available opportunities for Fleet Division employees to attend Automotive Service Excellence (ASE) training, Emergency Vehicle Technician (EVT) training, and similar certifications as well as maintain ASE Blue Seal for the division. Continue to build ASE Master Certifications as well as EVT Master Certifications in an effort to increase diagnostic abilities, thereby reducing outside contract expenses.
- Continue to use "after-market" parts, without compromising quality standards or performance.
- Continue to review and update city real estate agreements. The real estate management office will continue to work to ensure that proper terms and protections are included in all city real estate leases and licenses. The office will also assist city agencies with the acquisition of land and facilities, either for purchase or lease in order to meet operational needs.

- Continue to monitor space utilization by city operations to identify opportunities for shared use and co-location of functions to increase efficiencies, collaboration, and reduce operating costs.
- Continue to review and update real property and personal property risk exposure and acquire cost-effective insurance protection to minimize expenses from loss.
- Develop and establish citywide policies governing the use of city property by non-city entities in order to ensure consistency and protect city revenue and assets.
- Continue to review city real estate assets to identify and dispose of property identified as “surplus” to effectively manage expenses and generate revenues.
- Evaluate city building way-finding signage to begin development of a standardized signage program for city-wide application.
- Continue construction management of major infrastructure improvement projects at the City Hall Campus, Municipal Courts Building as well as other various smaller projects in various stages of completion.
- Institute new preventive maintenance programs for heating and cooling systems and for roofs on city facilities under the Facilities Division purview. These programs will reduce overall maintenance costs, help prevent major equipment failures and extend the life of existing building systems.
- Capture and register energy usage data (e.g. electricity, water/sewer, natural gas) for city buildings via the Energy Star Portfolio Manager. This application benchmarks the city's energy usage data with the data for other commercial, institutional, manufacturing, and government facilities, enabling the city to target energy efficiency efforts at facilities most in need, leading to better energy utilization, increased cost savings and reduction of the city's carbon footprint.
- Complete the master space planning processes at the Municipal Court Building and the Piedmont and Carolyn Avenue Complex to ensure efficient and cost-effective management of city real property assets. Begin a similar space planning effort for the Groves Road Warehouse to consolidate various city functions and operations, and to provide much needed warehouse space.

Safety

- Continue management of construction on the new police property room and the design of the crime lab. Additionally, numerous police substations and other safety facility upgrades and improvements will be completed.
- Finalize the installation of high efficiency lighting retrofits at up to 28 fire stations. Inefficient interior lighting will be removed and replaced with energy efficient T-8 fluorescent lighting. The project reduces electricity consumption and provides better lighting throughout the stations.

- Continue to monitor personnel levels of the city's safety forces in light of the Deferred Retirement Option Plan (DROP) and its potential impact on staffing levels, and develop contingency plans to address various scenarios.
- Prepare for possible public emergencies and make facilities safer for citizens and city employees.

Downtown Development

- Continue construction management on the renovation of the Old Police Headquarters building located at 120 West Gay Street, as well as the adjacent parking areas. Six city departments will be relocated from obsolete, high maintenance buildings to this LEED certified facility upon project completion.

Customer Service

- Continue fleet and purchasing consumer panel meetings as a means to identify and resolve customer service issues and identify opportunities for improvement.
- Continue to upgrade security protocols at various locations. These upgrades will include enhanced training regimens, improvements to standard operating procedures, possible changes in facility layouts and equipment upgrades. Methods to identify improved monitoring and control of employee/visitor traffic into administrative buildings will also be reviewed.
- Develop and implement a facilities management work order system to provide building trade specific monitoring and cost control. This will allow the division to better manage labor hours, travel time, and inventory levels.
- Continue to refine operations and increase efficiencies by evaluating the potential of moving fleet satellite facilities and functions into the Fleet Management Groves Road facility.
- Develop and refine strategies to maximize grant dollars for "greening" the city's vehicle fleet. Continue to seek and secure grant dollars for capital equipment.
- Install Global Positioning Satellite (GPS) technology on approximately 2,500 "on-road" city vehicles, with the objective of tracking the movement of all city owned vehicles and providing remote critical vehicle maintenance data such as oil change intervals and error code readings from the engines of city vehicles. The installation of these devices will increase efficiencies, save on fuel costs, and improve employee safety.
- Continue to apply for various fleet related awards to garner positive publicity for improved processes and activities within the city, i.e. "100 Best Fleets" and "Green Fleet Awards" through Government Fleet.
- Assist other city agencies in delivering major capital facility projects such as the Morse Road Eco Center and the Alum Creek Facility for the Division of Refuse Collection, and various outpost facility upgrades for the Department of Public Service.

Neighborhoods

- Continue to assist the Division of Police in monitoring the pilot neighborhood safety cameras that were installed in 2011. These cameras supplement ongoing patrol and enforcement in pilot neighborhoods by allowing the division to monitor activity remotely.
- Honor the good neighbor agreement with adjacent property owners and businesses of the fleet maintenance facility on Groves Road.
- Recognize and respect that many of the city's buildings and facilities are located within and adjacent to neighborhoods throughout the city.
- Continue the design of the new Southside Family Health Center, to be located on Parsons Avenue on or near the site of the former John R. Maloney Center. This center will provide much needed health services for families living on the south side of Columbus and help spur economic development in the area. Construction is to start in 2012.
- Work with the Development Department, Public Service Department and Columbus Public Health to determine facility needs and/or improvements made necessary by the transitioning of programs and services of the Southside Settlement House.
- Replace the heating ventilation and air conditioning systems of the North Market and consider other critical exterior improvements to the facility such as interior painting and tuck pointing.

Education

- Educate internal stakeholders regarding services offered by the department and how to best access and utilize these services.

2012 Budget Notes

Financial Management

- In 2012, \$1.3 million is budgeted for the city's contract with the Public Defender, which provides legal counsel to indigent persons charged with criminal offenses.
- Various items are initially budgeted in the Finance and Management Department and are transferred, as needed, to other departments throughout the year. In 2012, this includes economic development incentive moneys, projected legal expenses, and deposits to the anticipated expenditure fund and the rainy day fund.
- As was the case in the past several years, all projected internal service charges to general fund agencies for technology services are budgeted in the Financial

Management Division in 2012. This has proven to reduce the volatility of projections for the general fund.

- The budget for this division also includes \$112,689 for various citywide memberships.

Facilities Management

- Facilities Management's 2012 budget includes almost \$7.2 million to pay utility bills on behalf of other city agencies.
- In addition to utility expenses, approximately \$334,000 is budgeted for custodial contracts for the Division of Police and Fire academies and \$300,000 for the Columbus Public Health facility.

Fleet Management

- The Fleet Management Division's labor charge is \$70 per hour for light duty vehicles and \$90 per hour for heavy duty vehicles. The mark-up on parts remains at 22 percent, the mark-up on professional services and credit card fuel purchases remains at five percent, and the markup on fuel remains at 24 cents per gallon.
- Funds for the replacement of general fund vehicles will be financed through the special income tax fund in 2012.
- Fuel prices are budgeted at a wholesale cost. The total budget for both unleaded gasoline and diesel is \$11.3 million. Given the volatility of fuel prices over the past several months, this is an expense that will be closely monitored.

Budget and Program Summary

Department of Human Resources

Department Description

The Department of Human Resources provides leadership, direction and support to city departments. The department is responsible for administering employee benefit programs, coordinating and delivering citywide training and workforce development opportunities, designing and administering a fair, equitable, and market driven compensation management system and providing for the consistent and uniform administration of collective bargaining agreements.

The Department of Human Resources also develops occupational health and safety programs and monitors compliance with established safety standards, administers drug-free workplace programs, coordinates citywide recognition and charitable programs, and ensures fair and equal treatment of employees and applicants.

Department Mission

The mission of the Department of Human Resources is to promote and support organizational excellence through effective human resources programming administered in an environment that embraces diversity, quality customer service and professional development.

Strategic Priorities for 2012

From the Columbus Covenant:

Customer Service/Peak Performance

- In 2012, the Department of Human Resources will continue to focus on addressing the components of the ten year reforms and efficiencies action plan that are related to employee compensation and benefits. Since a number of these reforms must be achieved through collective bargaining negotiations, they will require the collaborative efforts of the Labor Relations, Employee Benefits and Compensation Management program areas. These reforms will be achieved incrementally and will require continued focus over the next several fiscal years.
- The Citywide Occupational Safety and Health Program (COSHP) assists departments in conducting various safety audits, indoor air quality investigations, safety training, and other environmental health and safety services aimed at reducing the risk of work related injuries and illnesses. Several detailed services that will be provided in FY 2012 are: indoor air quality evaluations, including fungi assessments; asbestos evaluations, including laboratory analysis; new employee orientation; blood borne pathogen, respiratory protection, hazard communication, OSHA compliance safety audits, workstation assessments, hearing conservation, control of hazardous energy, and written program development. COSHP will continue to work collaboratively with appointing authorities, City Council, the Ohio Bureau of Workers' Compensation (BWC) and the Capital Area Safety Council to achieve the objectives required to obtain premium discounts and rebates.

- Human Resources has contracted with Mount Carmel Occupational Health and Wellness to provide day-to-day occupational safety clinical services. This service delivery model has been in place since FY 2010. It is designed to achieve a broader scope of services, greater efficiency in service delivery, reduced costs and greater transparency in billing and invoicing. The goal of the clinic is to provide clinical services to city employees that will identify, control or prevent occupationally related disease or disability; provide post exposure counseling and treatment where appropriate; determine fitness and suitability for assigned work; and promote and maintain a healthy workplace for city employees.
- Targeted efforts to reduce workers' compensation costs will continue to be a priority. The Employee Benefits/Risk Management (EBRM) section will participate in the BWC's retrospective rating program and work collaboratively with our managed care organization, our actuarial consultant, the BWC and city departments to aggressively manage workers' compensation and injury leave claims. Efforts to improve injured workers' medical treatment and return employees safely to work will include employee accident and injury reporting procedure training as well as comprehensive claims management and transitional work programs. EBRM will also participate in any available premium reduction programs offered by the BWC.
- In 2012, the "Healthy Columbus" program initiative will continue to focus on weight control, physical fitness and healthy lifestyle habits. EBRM will continue to partner with United Health Care and the Central Ohio YMCA to advance the objectives of the Diabetes Prevention and Control initiative. This and other disease management programs will be offered to coordinate health care treatment and education for employees with chronic diseases in order to improve the employee's overall health condition while reducing medical costs.
- EBRM will also sponsor free spring and fall health and wellness fairs that will provide an array of screenings and assessments enabling city employees to detect, treat, and continually monitor diagnosed health conditions. This will serve as an additional long term medical cost reduction tool.
- A major priority for 2012 will be the successful implementation of the Columbus Human Resources Information System (CHRIS). This will be accomplished as part of an interdepartmental project team that includes Civil Service, the City Auditor, Technology and Human Resources.
- The MCP/ASR Performance Excellence Program (PEP) continues to be a priority in terms of ensuring its successful use as a departmental management tool. As part of phase two of the CHRIS project, new individual performance management (IPM) software will be purchased to provide improved functionality for PEP and other citywide IPM programs.
- Based on the Citywide Training Needs Assessment, the Citywide Training and Development Center of Excellence (CTDCE) will continue to work with departments, decentralized training areas, and enterprise customers to determine, design and implement customized human resource development related products and services, based on case-by-case needs. CTDCE will continue to seek opportunities to utilize all new technology both in face-to-face classroom settings as well as in distance learning settings.

- CTDCE will continue to increase its presence in the public market in efforts to recruit and retain enterprise customers. Initiatives used to accomplish this goal include, but are not limited to strategic distribution of marketing materials (catalog, calendar, brochures and flyers), increasing social media/networking presence, implementation of a website, continuing the production of The REACH Show, housing and promoting the public City of Columbus Toastmasters club, and maximizing external partnerships with businesses, agencies and organizations.
- The Equal Employment Opportunity (EEO) office will continue to focus on fair and equitable treatment of employees and applicants consistent with city policies and executive orders. The EEO office will also plan and execute steps for producing the Black History Month Celebration.
- In 2012, the employee resources office will focus on reviewing and revising the Citywide Employee Recognition Program that recognizes and rewards employees for outstanding service delivery, longevity, safety, innovative ideas and community leadership. The Employee Resources Office will also continue to coordinate the two major philanthropic campaigns that employees support annually: the Combined Charitable Campaign and Operation Feed.
- In 2012, the employee resources office will continue to focus on implementing innovative ways to communicate to employees in a greener, more efficient manner. These innovations will be incorporated in both the annual citywide employee recognition ceremony and the above referenced campaigns.

2012 Budget Notes

- The employee benefits fund includes funding for several professional service contracts including employee benefits consultation, workers' compensation actuarial services, health care audit, and occupational safety consultation services. The latter contract will assist departments in conducting safety audits, asbestos and mold assessment and abatement, safety training, and other environmental and occupational programming aimed at reducing risk exposure and work-related injuries.
- The employee benefits fund includes funding for outside counsel to act as the city's chief negotiator and legal counsel in 2012 labor negotiations with the city's labor unions.

Department of Technology

Department Description

The Department of Technology (DoT) supports the local government information infrastructure by providing uninterrupted, secure, and reliable information systems. The department institutes information management policies and procedures, maintains the city's information management systems and provides citywide telephone support. The department is also responsible for designing and maintaining the city's website, including media services to city agencies, providing desktop and service desk support, operating the government access television channel, providing systems and applications support to the city's 311 call center and managing the city's telecommunication network. Additionally, the department's computer operation section provides printing, folding, inserting, and mailing services to enterprise agencies as well as project and account management, and procurement of technology related purchases to all city agencies.

Department Mission

The Department of Technology will leverage technology to make Columbus the best-performing municipality in the Midwest.

Strategic Priorities for 2012

In anticipation of a slow growth economy, the department will continue to focus on the core business functions of the city with efforts to improve business processes through IT efficiency gains. In addition, the department will continue to partner with other city departments to carry out mission-critical citywide initiatives, many of which are described below. In so doing, the department is an important service provider, not just to other city agencies, but to residents of the Columbus metropolitan area as well.

From the Columbus Covenant:

Customer Service

- Continue to upgrade the city's internet services to provide residents with increased access to local government services and information. Additionally, the department will continue to extend city departments' ability to reach their customers through new media in a secure, effective, and efficient manner by implementing enhanced web security and measuring tools. The content editor users group started meeting late in 2011. This group also plans to have training established at the end of 2011 and into 2012. The branding initiative will be a large focus for 2012 which will include incorporating the new Columbus logo and revising the sites to provide a consistent look and feel from department to department/site to site. The department also plans to enhance web standards and guidelines.
- Research, plan, design and begin to implement a business intelligence (BI) initiative.

Technology

- In 2010, the department completed and delivered proposed Standards for Use for social media, by which departmental sites are to be governed. The department recommended the formation of a permanent social media working group. The city continues to increase its social media outreach. The Standards for Use will be updated by the early part of 2012. The social media working group meets periodically to reinforce standards and guidelines, collaborate on new approaches, and discuss new ideas and opportunities to reach out to citizens.
- Continue to enhance the Green Spot website (columbusgreenspot.org) to encourage residents, businesses, and community groups to take steps to protect our environment. Add in the GreenSpot Kids website as recommended by members of the Green Initiative. GreenSpot has also been added to the new MyColumbus mobile application for additional exposure.
- MyColumbus mobile application was released in 2011. The application puts city services at the finger tips of residents and visitors, bringing to life many of Mayor Michael Coleman's initiatives to improve our quality of life. In 2012, MyColumbus will continue to grow and expand. The application uses many integrated technologies, such as GPS for location services, RSS for City News Feeds, and has an entire Social Media Center providing access to Twitter, Facebook, and YouTube information. This is in line with Mayor Coleman's push to position Columbus as a city of the 21st century and encompasses four mayoral initiatives to help city residents and make Columbus the best city in the nation to live, work, and raise a family: My Neighborhood, Get Active, Get Green (Green Spot), and 311.

Neighborhoods

- Continue upgrading the Accela "one-stop-shop" permitting center system. Upgrades will incorporate new tools and hardware that will integrate and build upon the city's geographical information system (GIS), the city's 311customer service system, and a common citywide telephone service system.
- My Neighborhood website and the mobile application will continue to be a focal point for delivering city information and services such as parks, police/fire stations, schools, etc. Future expansions will include CIP data and snow clearing information.

Safety

- Continue working with the Public Safety Department to put into operation a new and improved computer aided dispatch (CAD)/911 system.
- Continue to work with the Public Safety Department to develop a plan to upgrade several Police Division applications to newer server platforms, which will improve service delivery and reduce costs.
- Continue to work with the Department of Public Utilities and Division of Fire to implement phase two of the Hydrants Inspection project. This endeavor is to improve upon bridging gaps in their business process in order to properly maintain the city fire hydrants.

- Work with the Department of Public Safety on the Neighborhood Camera initiative. The system will be interconnected using the city's fiber optic cable network. Two neighborhoods, Mt Vernon and Hilltop, were brought on line in 2011 and three more, Linden, Livingston, and Weinland Park, are under construction. In 2012, the department will continue to work with the Department of Public Safety to develop plans for extending fiber connectivity to police precincts as a part of the Neighborhood Camera initiative.
- Work with the Department of Public Safety to bridge voicemail systems. Bridging the systems will allow seamless communications between the Department of Public Safety and other city agencies.

Economic Development

- Continue to develop, expand and implement portions of a citywide connectivity plan that will outline the most efficient means by which to connect to city facilities for data exchange and telephone voice traffic. This includes researching and implementing wireless fiber optic broadband network technology and integrating it with the overall city network, where practical. The department will use the information from this plan to determine the extent to which connectivity can be used as an incentive for economic development. The city is currently expanding its fiber footprint by nearly 160 miles of fiber optic cable in three separate projects which will provide extended service areas around the city for economic development opportunities. The three projects are completed and we are now interconnecting the three for contiguous connectivity across the city.

Education

- Continue to develop the GetActiveColumbus.com website initiated by the Mayor's Office and developed with input from the Health and Recreation and Parks Departments.

Peak Performance

- Continue work with customers to acquire an Enterprise Work Order Management System. Such a system will provide a platform to unify the various workflows of the Recreation and Parks, Public Service and Finance (Facilities Management) Departments. The purpose of this project is to improve the ability to document and dispatch work orders, thereby reducing lead times, improving quality, eliminating duplicative paperwork and collecting the data needed for continuous process improvement.
- Complete phase one, which includes go-live, and begin phase two implementation of the new state-of-the-art Columbus Human Resources Information System (CHRIS).
- Continue to enhance the city's voice over internet protocol (VoIP) telephone system by implementing Unified Communications. Unified Communications offers a variety of benefits which include: Voice and Unified Messaging – the ability to manage emails and voicemails from a single inbox; Personal Communicator – PC based phone provides the flexibility to work from any location while still providing the same functionality as a desk phone; Mobility –

Technology

single business number and voicemail regardless of device. Cost savings on cell phone minutes used will be realized by utilizing the VoIP infrastructure; Conferencing – voice and video conferencing capabilities utilizing the VoIP infrastructure will save the city time and money while supporting the Mayor's green initiative.

- Continue to convert city telephone services to a voice over internet protocol (VoIP), utilizing the city's current data network infrastructure investment. This will provide the latest technological advancements and allow the city to dramatically reduce telephone line costs while providing enhanced telephony service. Telephone calls will travel over the city's data network rather than a phone company's network.
- Continue to leverage and enhance the city's voice over internet protocol (VoIP) system by providing fax over internet protocol (FoIP). FoIP benefits include: eliminating analog line, paper and toner costs which will also support the Mayor's green initiative.
- In 2011, DoT engaged a local software development company to develop a custom application for managing the DoT rate model. The requirements gathering process is complete and a functional application is expected to be completed by the first quarter of 2012. This application will allow service managers to enter data directly into the rate model through a web interface, allow version control and enable financial reporting. Future improvements include three year budget forecasting and trending, as well as integration with the billing and time and attendance systems.
- Continue to improve and mature the Executive Steering Committee (ESC) best practices. The ESC will be engaged on technology project portfolio management throughout the city and instrumental in the preparation of the department's project budgets.
- Expand the implementation of the Quality Assurance (QA) program, recognized in the 2011 Mayor's Award of Excellence for preventing \$1.2 million in rework. In 2012, the QA methodologies will be rolled out to additional customer projects as well as internal DoT processes.
- Continue to support the city's 311 customer service system which provides access to city services and information with the highest possible levels of customer service delivery. In 2011, DoT added a 311 module to the MyColumbus mobile application to provide citizens another method of submitting and viewing service requests to 311, in addition to the phone and web interface. 2012 will bring additional enhancements to the mobile app for enhanced functionality relating to the 311 service.
- With the main components of the disaster recovery infrastructure in place, work will be focused on developing and testing procedures to reconstitute mission-critical systems and applications in the event the citywide data center is compromised. This effort also contributes to the city's overall pandemic and business continuity planning.
- Finish the renovation of the data center facility HVAC system by replacing cooling units not replaced in 2011 and renovate parking lot as needed.

- In 2011, DoT kicked-off a general fund computer replacement project that will continue to take place in 2012. This project will improve the efficiencies of the general funded agencies by replacing existing outdated and aged computer equipment with new hardware. This will replace over 700 systems with new energy efficient systems and over 600 displays with greater energy efficiency. This will improve both efficiency of the end users and will continue to improve the energy efficiency and consumption of electricity.
- Complete the transition of security logging, monitoring, and event correlation to Dell SecureWorks. Build the framework of operational, technical, and management controls that fully leverage the service provider's capabilities to reduce security risks to the city's information assets.
- Continue enabling city agencies to meet regulatory requirements while transitioning to a Governance, Risk, and Compliance (GRC) model for managing supporting activities. Complete the integration of security risk management services across citywide projects and initiatives.
- Continue to expand GIS capabilities with a greater focus on assisting city agencies in integrating graphical information from the GIS central repository. This repository contains underlying geographic location information (e.g. street center lines, building and parcel locations) which is or will be utilized by many mission-critical applications such as the computer aided dispatch, 311 call center, the Accela "one-stop-shop" and WASIMS.
- DoT will expand and enhance enterprise application service delivery by implementing Application Performance Monitoring software from one of the Gartner Magic Quadrant leaders. This software will help DoT monitor performance of critical systems, provide SLA metrics and compliance reporting and enable DoT to have better real time visibility of service interruptions and performance degradation, and allow for more proactive resolution.
- Continue the Enterprise Systems Upgrade project to replace old mission-critical systems which are at end-of-life. These investments will improve system availability and efficiency. The major focus of the 2012 system upgrades will be the backup and recovery system.
- In 2011, DoT began the replacement of our current Help Desk software with Hewlett-Packard's IT Service Management (ITSM) software. This software is expected to be operational during the first quarter of 2012. This is another step in the adoption of industry best practices. This software tracks system availability and automates the ticketing and service response processes. This will help DoT refine and formalize our service support processes resulting in improved system availability and increased end-user satisfaction.
- Continue to improve and expand the capabilities of the Department of Public Utilities GIS Dashboard by implementing improved functionality.

2012 Budget Notes

- The Department of Technology purchases information systems hardware, software and related equipment and licenses on behalf of other city agencies. Funds for this purpose are budgeted in the Director's Office budget. In 2012, \$5.1 million is budgeted for these purchases. Of this total, \$754,307 is budgeted in the general fund while the balance of \$4.3 million is allocated among various other funds.
- The Information Services Division funds the cost of maintaining, supporting and licensing a large inventory of hardware, software, fiber and infrastructure for which DoT is responsible. A portion of the department's budget also funds debt service costs associated with its capital improvement plan. The costs borne by this division are billed back to the user divisions using an electronic billing model. As was the case in the past several years, all projected internal service charges to general fund agencies for technology services are budgeted in the Financial Management Division in 2012 in order to reduce the volatility of projections for the general fund. Internal service charges to other funds are billed back to each fund on a monthly basis.

~~— In 2006, the Department of Technology (DoT) will partner with other city departments to carry out several important citywide initiatives, many of which are described below. In so doing, the department is an important service provider, not just to other city agencies, but to citizens of the Columbus Metropolitan Area as well. The department continually strives to provide the best services possible to its customers, and values the partnerships.~~

~~From the Columbus Covenant:
Customer Service~~

~~— Work with the Public Service Department to finalize implementation of the citywide 311 system to include the publication of one access three-digit number ("311") as well as one local seven-digit number.~~

~~— sent than rebuilding giseby which h risystem (HRIS)~~

~~— service vointernet protocolsIn support of the Columbus City Call Center, the Centrex replacement project will result in a new state-of-the-art telephone communication system which directly integrates with the 311 system.~~

~~— Continue to expand public access to GIS-based information via the internet on capital improvement projects through the city's "My Neighborhood" portal. Institute a customer satisfaction survey feedback process for most DoT services, including mail delivery, telephone, application development and support, account management and desktop, to name a few.~~

~~— Continue the Recreation and Parks Department's "CLASS" software implementation project whereby participants can register and pay for classes and activities sponsored by this department remotely, via the internet.~~

~~— Provide continued support to the Department of Health's clinical application, when needed.~~

~~— Provide support for the city's "V-Gov" initiative, which, when implemented, will enable a web-based procurement process.~~

~~— Review and identify all software applications that have a cash/payment. Once identified, work with the relevant departments to install a standard "forms engine"~~

Formatted: Font: (Default) Arial, 11 pt

Formatted: Normal, Indent: Left: 0.25", No bullets or numbering

whereby payment to the city can be automated. With this service, payment for various city services can be sent directly to the respective department or City Treasurer via the internet, rather through the US mail.

Neighborhoods

— Continue to support the “One-Stop Shop” permitting center and accela data base and maintain a system that will track plats, plans and permits throughout the city.

— Safety

□ Work to reduce non-emergency calls to 645-4545 and 911 by ensuring the availability of the 311 number.

□ Install a Fire Station connectivity infrastructure that will support Public Safety's distance learning initiative.

Economic Development

- Develop a citywide connectivity plan that will outline the most efficient means by which to connect, for data exchange and telephone purposes, city facilities. Next, the department will use the information from this plan to determine the extent to which connectivity can be used as an incentive for economic development. Finally, working with other city agencies as well as outside partners, DoT will explore various means by which previously “unconnected” neighborhoods can become so.

Peak Performance

- Replace the ClearPath mainframe server with the newer generation LIBRA model, which houses the Police/LEADS and central Payroll applications. This will result in greater reliability and serviceability, a \$500k savings in software and hardware licensing, maintenance and support costs over a five year period and fifty percent greater processing capacity.

- Continue to support the internet-hosted GIS-based application. This application accurately pinpoints the locations of capital funded projects of the Sanitary Sewer, Storm Water, Water and Transportation Divisions. Recreation and Parks has also expressed a desire to have its projects incorporated into the application. Ultimately the department would like to implement this application citywide.

- Through the installation of a fiber optic cable link that connects Health, Refuse Collection, Water and the Piedmont facility to the City's Data Center, the city will incur cost savings. These savings will be incurred by transitioning off the SBC GigaMan lease and T1 circuits, currently used to provide primary and redundant services to these locations. Installation of the fiber optic cable link will also facilitate higher bandwidth communications between these facilities, thereby supporting applications like distance learning, video conferencing, voice over IP, and video security.

- The department Centrex replacement project will migrate portions of the city's central telephone switching system, provided by Southwest Bell Corporation (SBC), to a current system utilizing state-of-the-art, premise-based telephone switching technology. Taking advantage of the city's current fiber network infrastructure and the latest telephone switching technology, the city will be able to dramatically reduce telephone line costs while providing quality service.

- In 2006, DoT will continue to offer inter and intra-net services, also known as “E-Government” thus providing local citizenry with increased access to local

Technology

~~government services and information. Additionally, DoT will continue to support and assist city departments in their efforts to reach out to their customers via the internet.~~

~~-DoT will coordinate enterprise or volume purchasing, the end result being greater discounts and fewer contracts. This is part of the on-going centralization of the Department of Technology that was initiated in 2002.~~

~~-The Department will continue to expand its geographic information system (GIS) capabilities with an expansion in 2006 of its spatial data repository offerings and a greater focus on helping city agencies take their business processes to the web using the increased GIS data. The department will also be working closely with other local jurisdictions to improve data coordination and exchange in the area.~~

~~-In 2006, Dot will update and maintain all service level agreements with all departments with which they have existing agreements.~~

City of Columbus 20126 Budget

Formatted: Tab stops: 9", Right + Not at 6"

Department of Columbus Public Health

Department Description

Columbus Public Health (CPH) protects, promotes and monitors the health of the public by:

- Assuring compliance with public health laws, mandates and regulations;
- Establishing policy to address health issues and emerging health threats; and
- Providing preventive, environmental, community, clinical and home-based services.

Department Mission

Columbus Public Health is a leader in improving the health and safety of Columbus by monitoring community health status, identifying and addressing public health threats, enforcing laws that protect the public's health, and providing services to prevent and control disease.

Strategic Priorities for 2012

From the Columbus Covenant:

Neighborhoods

- Provide services to prevent, investigate and control infectious diseases, including communicable disease outbreaks, sexually transmitted infections, and food-borne and water-borne illnesses.
- Continue to provide high quality clinical services for children and families including sexual health, immunization, dental, and prenatal services. Staff will continue to reduce barriers to service by providing such services as translation and evening hours.
- Columbus Public Health will lead the city's ongoing efforts to combat the current epidemic of obesity by implementing strategies to make Columbus an active and vibrant community. Programming and initiatives dedicated to these efforts include Get Active Columbus, Healthy Children Healthy Weights, the Institute of Active Living, farmers markets and community gardens, bike and walking paths, walking maps and art walks, the Creating Healthy Communities Network, Women Infant and Children (WIC) and the Healthier Choices Committee.
- Provide public health services, such as immunizations, tuberculosis control, and prenatal services for immigrants and refugees and other vulnerable residents.
- Continue to work with the Columbus Neighborhood Health Centers, Inc. (CNHC) and others groups to help support quality primary care for as many as possible.
- Maintain social work staff in neighborhood pride centers and other venues to assist vulnerable residents. The goal is to protect residents' health and safety,

primarily by linking them to needed health and social services and through the community-focused public health nursing corps.

Safety

- Continue departmental and community planning to prepare for and respond to a range of disasters or emergencies, including bioterrorism. Community leadership, public education and staff training will continue in 2012 with an emphasis on providing the highest level of public health protection possible for all Columbus residents.
- Implement a year round seasonal influenza initiative to better protect Columbus residents and workplaces.

Education

- Coordinate with other city departments and agencies to enhance the safety of children near and around schools.
- Improve health in minority and lower income communities through neighborhood-based Health Advisory committees and partnership initiatives.
- Continue school inspection services and collaborative efforts with Columbus City School nurses to respond to children's pressing health needs.

Customer Service

- Continue the SIGNS community education program for Columbus residents. This program provides information to the public on the safety of restaurants, pools, schools and other venues inspected by the Environmental Health Division. The transition to enhanced mobile web technology will improve efficiency.

Peak Performance

- Continue e-mail notification system to provide important public health information to subscribers through Columbus Public Health's website and social media.
- Enhance technology in the vital statistics area to allow for computer scanning and storage of birth and death certificates and regular access to data reports, including real time analysis of Franklin County residents.
- Expand quality improvement, safety and workforce training efforts in order to pursue public health accreditation status.

2012 Budget Notes

- The 2012 budget for Columbus Public Health allows for continued provision of public health services that are mandated, services that meet the priorities contained within the Columbus Covenant, and a variety of programs that the Board of Health deems essential.
- The city will provide \$5.1 million in funding to the Columbus Neighborhood Health Centers, Inc., an increase of \$107,860 from 2011.
- The 2012 budget provides funding for the Take Care Columbus program, which links patients with clinical preventive services in the community and the GLBT/Latino Health Disparities program, which addresses HIV and syphilis issues in the GLBT community.
- The department will continue to address increasing public health and community imperatives, including pandemic disease outbreaks by monitoring disease outbreaks and promoting infection control.
- Both the dental clinic program, which serves uninsured clients, and the dental sealant program, which provides preventive sealants to low income school children, will continue in 2012.
- Additional general fund moneys are being allocated for translation services to better serve the growing non-English speaking population. The amount available for these contracts in 2012 totals \$219,000.
- In 2012, the city will continue its support for the community gardens project with the provision of \$25,000.

Department of Recreation and Parks

Department Description

The Columbus Recreation and Parks Department provides active and passive recreational activities, opportunities, programs and facilities for Columbus citizens in accessible and safe environments. The department also maintains parks, multi-use trails, city trees, golf courses and recreational facilities, and it promotes the preservation and wise use of the city's natural resources. In addition, the department provides health and social services to older adults throughout eight counties in central Ohio, and it promotes cultural and physical diversity through its activities, the programs offered and in the staff that it hires.

Department Mission

The Columbus Recreation and Parks Department's mission is to enrich the lives of our citizens.

Strategic Priorities for 2012

From the Columbus Covenant:

Neighborhoods

- Continue to work with various partners on joint projects including Metro Parks on the development of the remaining portion of the Whittier Peninsula, Franklin Park Conservatory on a new greenhouse production facility and Franklin Park's master plan, Children's Hospital on the completion of Livingston Park, and Columbus City Schools on shared parks and playgrounds.
- Continue development and construction of multi-use trails through bike/pedestrian studies and mobility plans.
- Continue improvements to various recreation centers including HVAC and electrical systems, roofs, playground equipment, floors, and landscaping.
- Continue upgrades to various outdoor swimming pools that will also include construction of new spraygrounds.
- Continue new honeysuckle removal program in conjunction with neighborhood volunteers at various parks throughout the city.

Economic Development and Technology

- Continue with the implementation of the Mayor's "Get Green Columbus" initiative, especially in the areas of street tree plantings and downtown beautification efforts.

Education

- Continue to implement and enhance the Application through Pride, Purpose and Success (APPS) Program in an effort to engage and mentor at-risk youth and young adults.
- Continue to coordinate the Capital Kids after-school program.

Downtown Development

- Work with the Mayor's Office and the Columbus Downtown Development Corporation on the design of the second phase of the Scioto Mile, as well as the construction of the new pedestrian bridge near North Bank Park to connect the east and west banks of the Scioto River.

Peak Performance

- Continue to complete capital improvement project on time and within budget.
- Implement and enhance the use of performance measurement data for all programs within the department.
- Seek additional funding opportunities through sponsorships, grants and the creation of an endowment fund through the Columbus Foundation.

Budget Notes for 2012

- Due to financial constraints, 12 recreation facilities were closed in 2009. During 2010, increased income tax revenues and private partnerships allowed the department to begin re-opening recreation centers on a full- and part-time basis. The 2012 budget provides funding for the city to assume programming responsibilities for Holton Recreation Center, which had been operating under a not-for-profit organization. This will bring the total number of recreations centers that are open on either a full- or part-time basis to 29.
- The Franklin Park Conservatory will receive \$350,000 in city support in 2012, while the King Arts Complex will receive \$22,000.
- The department will receive \$2.1 million from the Department of Public Service's street construction, maintenance and repair fund for tree maintenance in the right-of-way.
- Funding totaling over \$1.2 million is provided for the maintenance of the Scioto Mile Park in 2012.
- The department will invest in economic development in the area with its provision of \$440,000 to COWIC (Central Ohio Workforce Investment Corporation). COWIC's mission is "to meet the employment needs of businesses and job seekers to support economic development in Central Ohio."

- Funding is provided in the amount of \$1.15 million to continue and expand the Applications for Pride, Purpose and Success (APPS) program. This program enriches the lives of youth ages 14-21 and young adults by connecting them to services and programs focused on building life skills, character development, jobs, post secondary education, and other components. Partnerships will continue to be developed, and resources leveraged that reflect best practices in promoting education and reducing crime and violence in this age group.
- The department will receive both community development block grant and general funds for after-school programming. The Capital Kids Program, which provides participants a safe place to learn and play during after-school hours, will receive \$578,917 in 2012 for staff, supplies and services. The department will also receive \$354,043 in general fund moneys to provide grants to various agencies for additional after school programming.
- The community development block grant (CDBG) will provide funds to two additional programs in 2012 directed at school aged children. The School's Out Program, which will receive \$175,217, focuses on children between 6 and 14 years of age. This program operates during the summer months and is designed to benefit the children of working parents by providing a day long, well supervised program offering recreational, educational, cultural and physical activities. Additionally, the department will receive \$257,326 in CDBG funds to offer programming to youth, ages 6 to 18, at city recreation centers. The focus of this programming is healthy recreation, instruction and social skill building.

Department of Public Service

Department Description

The Department of Public Service is comprised of the Director's Office, the 311 Customer Call Center and four divisions: Refuse Collection; Mobility Options; Planning and Operations; and Design and Construction.

The Director's Office provides overall coordination and policy direction for the department. Fiscal, human resources, contracting, communications and legislative processing functions are also coordinated by this office, as well as oversight of the Columbus portion of Paving the Way, a multi-jurisdictional road-construction information service. Keep Columbus Beautiful, which coordinates hundreds of volunteers in litter pick-up events, administers the city's illegal dumping and graffiti services, and manages the city's internal recycling program, is also coordinated through the Director's Office.

The Division of Refuse Collection provides residential refuse and bulk-collection services, litter-container collection, dead-animal pickup from public property, clean up for major downtown special events, and administers contracts for yard waste and subscription recycling services. In addition, the Department of Public Service/Division of Refuse Collection is coordinating with the Mayor's Office to develop and implement a citywide free curbside recycling program announced by Mayor Coleman in 2010. The new recycling program is scheduled to begin in 2012.

The Division of Mobility Options is responsible for delivering all services related to mobility necessary to ensure a safe and efficient transportation system for pedestrians, bicyclists, and vehicular traffic as well as improving neighborhood livability and safety. The division manages the city's Bicentennial Bikeways Plan, which outlines goals for making Columbus a more bike-friendly city by the city's bicentennial in 2012 and through 2028. The division also provides parking management services, including on-street and parking garage planning, parking enforcement, meter collections, residential parking permit sales, and impounded vehicle processing services.

The Division of Planning and Operations is responsible for delivering all services related to transportation planning including traffic engineering studies, pavement and structures management, zoning and right-of-way permit reviews, and plat reviews. The division provides street maintenance services within the City of Columbus' right-of-way including street sweeping, litter control, graffiti removal, and snow removal in an efficient manner. The division also installs and maintains pavement markings, traffic signals, traffic signage, and parking meters.

The Division of Design and Construction is responsible for developing quality construction plans, managing design contracts, and enabling the department to build and maintain a safe and efficient transportation system. In addition, the division manages construction contracts, providing quality and timely construction inspection, surveying, and materials testing services in support of Public Service, Public Utilities, and privately-funded infrastructure construction projects.

Department Mission

To deliver quality city services in the areas of transportation, refuse collection and publicly managed parking.

Strategic Priorities for 2012

From the Columbus Covenant:

Customer Service

- Promote increased use of the 311 Customer Call Center.
- Provide quality basic city services.
- Promote good communication with internal and external stakeholders, the general public and department employees, including use of social media.
- Provide citizens with access to city services and city information through the operation, support and promotion of the 311 Customer Call Center.
- Partner and coordinate with other city departments on construction projects in order to provide value for residents and the city.

Neighborhoods

- Actively support and participate in the Neighborhood Pride program.
- Provide timely and consistent services, particularly in the areas of refuse collection, bulk collection, and street-maintenance activities, including pothole repair, snow and ice removal and street sweeping.
- Construct sidewalks to provide safe access for pedestrians, especially school children.
- Implement a comprehensive policy for conservation of brick streets and alleys within established historic districts.

Safety

- Correct safety deficiencies at dangerous intersections in the city to improve both vehicular and pedestrian safety.
- Prepare for possible public emergencies by ensuring the Department of Public Service facilities are ready and functional under adverse conditions.
- Discourage crime and gang activity through the removal of graffiti in the city's right-of-way.

Economic Development and Technology

- Promote policies and procedures that ensure the department conducts business with responsible firms and encourages development of emerging businesses.
- Support the development and implementation of regional economic development strategies.

- Work with regional economic development partners to address transportation challenges such as traffic congestion, highway construction, airports and transit.
- Identify and promote “green” business opportunities and practices to ensure a sustainable, responsible, and safe working environment for employees and residents.
- Support efforts to revitalize or stabilize neighborhood corridors and residential and commercial districts.
- Support economic development through infrastructure planning and improvements.
- Implement an E-bidding program to automate a complex, paper-based bidding process with technology to virtually eliminate clerical errors on behalf of vendors. E-Bidding saves the City and vendors time and money while maintaining a secure and transparent bidding process.

Education

- Partner with other city departments to enhance safety and infrastructure through the installation of sidewalks around schools.
- Increase public awareness of pedestrian safety.
- Increase public awareness of bicycle safety through Share The Road and other efforts that promote motorists and cyclists sharing roadways legally and safely.
- Educate the public about services the Department of Public Service offers and how to use them.

Downtown Development

- Support projects that increase downtown residential and commercial development.
- Support the Ohio Department of Transportation (ODOT) during construction of the Rich Street Bridge.
- Continue to collaborate with ODOT, the Mid-Ohio Regional Planning Commission (MORPC), Franklin County and key stakeholders in the Interstate-70/71 planning and construction process.
- Work with government partners (ODOT, MORPC, and the Franklin County Engineer’s Office) on downtown circulation and mobility efforts.
- Explore ways to make downtown more environmentally welcoming by incorporating features such as bicycle amenities, rain gardens, recycling options, and improved pedestrian mobility.

Peak Performance

- Operate within adopted operating and capital budgets, and meet or exceed established performance measures.

- Develop an effective project management system “PMIS” to incorporate all project phases including planning, design, and construction. This system will promote solid scoping and tracking of project milestones to ensure timely project delivery, effective project cost accounting, communications with all stakeholders, and project manager accountability.
- Continue to collect and update right-of-way asset management data for utilization by the department to prioritize streets for resurfacing, maintenance projects, and scheduling the replacement and repair of signs, wheelchair ramps, and curbs, among other things.
- Use COMBAT, an automatic vehicle locator program (global positioning) for use in snow and ice operations. This is a joint program between the city and the Franklin County Engineer's Office and is supported by up to 80 percent reimbursement by the federal government.
- Cooperate with SWACO in planning and upgrading refuse transfer facilities.
- Use continuous-improvement methods to improve services and work processes.
- Provide transitional return-to-work assignments for employees who have sustained an occupational injury or illness and are able to work in a limited but productive capacity.
- Support and develop methods to recruit, develop, and retain highly motivated, qualified, and productive employees and develop and communicate expectations of employee performance at all levels of the organization.
- Implement a work order management system that will track work orders, outputs and materials used.
- Process parking meter collections, ticket issuance, and storage fees in an effective and fiscally prudent manner.
- Continue to upgrade the entire city fleet of parking meters with new smart meters that will take credit and debit cards in addition to coins. The first 2,000 meters have been upgraded since 2010, with 1,000 new smart meters to be installed annually until all 4,215 meters have been upgraded. More than 400 new smart meters have been added in several locations that currently do not have parking meters in neighborhoods that include: The Ohio State University area, the Arena District, North Market area, Brewery District, Downtown, Italian Village, and the Columbus State Community College and Columbus College of Art and Design areas.

2012 Budget Notes

Director's Office

- Funding of \$1.55 million is included for the 311 Customer Call Center, a single point of contact that residents can call to access services provided by a variety of city agencies. The call center is staffed with 21 full-time and 2 part-time employees, working two shifts. The street construction, maintenance and repair (SCMR) fund and the four funds within the Department of Public Utilities share in the cost of the call center's operations through internal billings.

Refuse Collection

- Residential refuse collection and yard waste collection services are provided through the general fund. This includes 90-gallon, 300-gallon, bulk refuse collection and multi-family collection methods. The general fund also funds the budgets for sidewalk litter receptacles, dead animal collection and the Keep Columbus Beautiful programs.
- The 2012 general fund budget includes, for the first time, funding for a citywide free curbside recycling service.
- The SCMR fund includes \$3.47 million for the bulk collection program. This will fund 40 full-time employees in 2012.
- Funding for the disposal of refuse at the county landfill (tipping fees) will be provided at a cost of \$17.6 million from the special income tax (SIT) fund.

Mobility Options

- The 2012 budget for the division includes funding for the parking ticket processing and collection contract. This contract provides for all aspects of ticket issuance and processing, notice, collection processing, and supplies. Payments are accepted by mail, in person, by telephone, and over the internet.

Planning and Operations

- The storm water utility fund will continue to reimburse the SCMR fund for the cost of street cleaning and snow and ice removal, since such efforts protect water quality and minimize the burden on the sewer system from ice, snow and surface debris. Reimbursement for these activities will total \$7.1 million in 2012.
- Funding for the bridge maintenance program is included in the capital budget.
- The SCMR fund will continue to fund efforts in the Department of Recreation and Parks for tree maintenance in the right-of-way. The cost of the program is projected at \$2.1 million in 2012.

Design and Construction

- The construction inspection fund includes funding for 56 full-time and 43 part-time employees to provide construction inspection services for City of Columbus agencies. The private inspection fund includes funding for 16 full-time and 3 part-time employees to provide construction inspection services for private development.

Fleet Management

□ The Division of Fleet Management's hourly labor charge remains at \$54 per hour in 2006. The mark-up on parts remains at 22 percent and the mark-up on professional services and credit card fuel purchases will remain at 5 percent.

□ There is \$930,000 budgeted in 2006 for non-safety vehicle purchases.

The fleet budget includes an additional \$2.4 million for fuel due to national fuel price increases. Approximately \$1.754 million will be borne by general fund agencies. The 2006 fuel budget is based upon an average price of gasoline and diesel at \$2.65 per gallon.

Department of Public Utilities

Department Description

The Department of Public Utilities protects surface water quality, promotes public health and safety and sustains economic development. The department is responsible for collecting and treating wastewater generated within the City of Columbus and 22 suburban communities, and those unincorporated areas of Franklin County. The department provides abundant, safe and reliable drinking water within the City of Columbus and 20 suburban communities.

The Department of Public Utilities also manages stormwater to mitigate flooding and water quality impacts, educates the public on watershed stewardship and water conservation, and regulates industrial water pollution discharged to sewers.

The department also supports fire suppression activities with reliable fire hydrants, provides and maintains street lights for vehicle safety and pedestrian security, and offers dependable electrical power at a competitive price.

Department Mission

To enhance the quality of life, now and into the future, for people living, working and raising families in central Ohio through the economic, efficient and environmentally responsible stewardship of superior public utilities.

Strategic Priorities for 2012

From the Columbus Covenant:

Customer Service

- The “Project Dry Basement” program will continue. The intent of this program is to cover the cost of approved backflow prevention devices for Columbus single and two-family homes prone to sewer backups during wet weather and from blockages.
- The department will annually update its portion of the city’s website to provide residents with timely, important information on capital projects, such as status, location and projected completion date.
- The Division of Sewerage and Drainage will continue its comprehensive plan for Columbus’ sewer system to mitigate the city’s wet weather overflows and basement backup problems. Committing to a \$2.5 billion investment (in 2005 dollars) over the next 40 years, the Wet Weather Management Plan (WWMP) will bring Columbus into full compliance with two Ohio Environmental Protection Agency (OEPA) consent orders. In 2012, the Division of Sewerage and Drainage will continue implementation of the WWMP. The Division will also continue construction on the single largest capital project ever implemented by the city, a 20-foot diameter tunnel through the downtown area known as OARS.

Neighborhoods

- The Division of Sewerage and Drainage will continue its neighborhood-focused stormwater program to mitigate flooding in residential areas. As part of this program, many localized stormwater capital improvements are planned for 2012, a list of which can be found in the capital summary section of this document.
- The department will use the Stormwater Drainage Manual to promote “green” stormwater management systems. The Division of Sewerage and Drainage will continue to safely and responsibly manage stormwater runoff in the construction, expansion or redevelopment of residential subdivisions, industrial sites, commercial developments and roadway construction. The Division of Sewerage and Drainage will further seek ways to encourage the use of green infrastructure in new and existing properties.
- The Division of Sewerage and Drainage will continue to rehabilitate and replace aging sanitary and combined sewer infrastructure to increase the level of service in neighborhoods while continuing to reduce overflows in our rivers and streams.
- The Division of Power and Water and the Division of Sewerage and Drainage will improve and refine their respective programs to identify and prioritize projects that are geared towards the maintenance of a solid infrastructure in residential areas.
- The Division of Sewerage and Drainage will continue to pursue removing the 5th Avenue Dam, contingent on sufficient funding from other sources.
- The Division of Power and Water will continue its main replacements and rehabilitation program to reduce water leaks.
- The Division of Power and Water will continue contracts to upgrade street lighting circuits.

Safety

- The Division of Power and Water will continue to design and construct projects for enhanced security, the recommendations for which arose from a vulnerability assessment that was undertaken to ensure a secure and safe drinking water supply.
- The Division of Power and Water will continue to work with neighborhoods that apply for decorative street lights through the petition and assessment process.
- The Division of Power and Water will continue its neighborhood lighting program.

Economic Development

- The department will continue to be a key partner in major development projects that enhance neighborhoods and downtown.
- The Division of Power and Water will continue major water treatment plant expansion projects to ensure an adequate water supply for growing populations in the central city and outlying areas. Construction of improvements at the Hap Cremean Water Plant to meet new drinking water regulation will commence in

2012. At the same time, DPU will continue to encourage responsible water conservation practices.

- The Division of Sewerage and Drainage will continue collaboration with the Solid Waste Authority of Central Ohio (SWACO) and Kurtz Bros. to implement a new process or processes to promote the beneficial reuse of organic wastes, including but not limited to, bio-solids, livestock manure and yard waste to produce clean renewable energy.
- The Division of Power and Water will continue the Children's Water Festival educational initiative. The 2011 event brought 700 grade school students during National Drinking Water Week in May.
- The department will continue to promote the "GreenSpot" program, which inspires, educates and recognizes residents, businesses and community groups on the methods and benefits of conserving and protecting water consistent with the Mayor's Get Green Columbus initiative.
- The department will participate in Neighborhood Pride and other public events, promoting both department programs and projects and its role in the Mayor's Get Green Columbus initiative.
- The department will continue its source water and stormwater protection services to include the We All Live Downstream public education program and the stormwater and watershed management programs.
- The Division of Sewerage and Drainage will notify the public about overflow events through local newspaper ads, signs and its website. Education efforts include informational fact sheets and inserts in water and sewer bills once a year.

Peak Performance

- The department will continue implementation of an asset management program (AMP) begun in 2008 to continually focus on affordably meeting customer service level expectations at the lowest overall long-term financial, social and environmental cost. A more rigorous and defensible capital decision making process will be implemented prior to asset creation. New technology will be utilized to better assess existing asset conditions to determine risk levels associated with aging infrastructure assets. Thirty levels of service have been identified and will be reported on beginning in 2012. Resources and efforts will be prioritized and focused on the most critical assets to lower risks and overall utility ownership costs based on that data. Monitoring and analysis of key performance indicators will continue to focus on adapting operations to achieve peak performance.
- The Division of Power and Water will continue a valve exercise and replacement program and a hydrant replacement program to improve distribution system reliability.
- The Division of Power and Water will complete a water audit to identify and quantify unmetered water. The division will also continue to replace meters and identify and repair leaks in an effort to lower the percentage of water that is not accounted for annually.

- The department will continue to work to develop leadership among staff members by improving communication throughout the department. The goal is to increase the effectiveness and efficiency of all staff members.
- The department will continue participation in the citywide effort to utilize internet and electronic contract bidding of its construction contracts in order to improve existing bid procedures and reduce bid costs.
- The department will continue implementation of the Environmental Management System to support all employees in performing day-to-day work activities in a manner so as not to harm the environment and to comply with all relevant regulatory requirements.

2012 Budget Notes

Director's Office

- The Sewer and Water Advisory Board (SWAB) will recommend to Columbus City Council adjustments to water and sanitary sewer rates that will increase revenue to the funds by eight and three percent, respectively. A decrease of two percent is being recommended for the storm sewer fee in 2012.

Water

- The 2012 debt service budget is nearly 14 percent higher than in 2011, due to a recent increase in bond sale and capital loan activity, undertaken to finance the division's growing capital improvements program, primarily the up ground reservoir. Debt service represents 40 percent of the budget of the water enterprise fund.
- Funding is maintained in the 2012 budget for maintenance and security of grounds, buildings and dams at Griggs, O'Shaughnessy and Hoover reservoirs, the three primary sources of water for the Columbus metropolitan area.
- Funding is continued for the operation of the division's three water treatment plants in compliance with the Safe Drinking Water Act.
- Funding is also continued for the distribution maintenance function. These employees maintain the integrity of the water infrastructure by repairing taps, valve leaks and main line breaks. This section is also responsible for fire hydrant maintenance.

Power

- The largest component of the division's budget, by far, is the purchase of wholesale electric power. The budget for purchase power in 2012 is \$64.6 million, or almost 71 percent of the division's budget.
- The division continues to control expenditures in other line items, including personnel, by scrutinizing hires and other expenditures to ensure that they are critical to the operation of the division.

Sewerage and Drainage

- Debt service represents 45 percent of the operating budget in the sewerage system enterprise fund. Overall debt service will increase by 1.7 percent in 2012.
- Funding is maintained to continue the efficient operation of the division's two wastewater treatment plants within the limits and conditions set forth by the National Pollutant Discharge Elimination System Permit.
- Funding is maintained in 2012 to allow sewer maintenance operations staff to continue to monitor the integrity of the wastewater collection system with periodic inspection and telemonitoring of sewer lines at current levels. Problem areas within the system will be scheduled for repair or upgrade. Additionally, this staff will continue to address emergency calls regarding sewer system overflows, water-in-basements and other related emergencies.

Stormwater

- Since its creation in 1994, this division has been involved in many neighborhood storm sewer capital improvement projects which have provided flooding relief for residents. In 2012, over \$15.6 million in debt service will be spent for capital improvement projects to mitigate flooding throughout the city. Debt service comprises 42 percent of the budget in the stormwater enterprise fund.
- In 2012, the stormwater utility fund will continue to pay the cost of street cleaning and snow and ice removal, since such efforts protect water quality and minimize the burden on the sewer system from ice, snow and surface debris. These two programs are expected to total \$7.1 million in 2012.

Performance Indicators

Office of Performance Management

The Office of Performance Management (OPM) provides program performance analysis and reporting services to Columbus city leaders and department staff so they can make more informed decisions to improve the quality and efficiency of city services. OPM supports the Columbus*Stat process by administering performance data collection and facilitating weekly meetings between city executive leadership, department directors and their staffs. Columbus*Stat is a forum for departments to regularly report progress on major initiatives and discuss operational performance utilizing program and department-wide metrics.

Notes to Performance Indicators

- The data shown presents a snapshot of key performance indicators for city departments.
- Performance results may be shared with a department other than the one “owning” the indicator.
- Target lines displayed on the graphs represent 2012 goals and may not reflect targets set for prior years.
- Population estimates are provided annually by the Mid-Ohio Regional Planning Commission, which uses census data with adjustments, to develop estimates.

Investigations: % of violent crime reports cleared by arrest

Percentage of violent crime reports which are cleared by the arrest of a suspect or suspects. Violent crimes include murder, rape, robbery and aggravated assault.

2012 Target: 10%

The percentage of violent crime reports cleared by arrest has remained steady at 11 percent over the last three years. This is one percentage point above the target of ten percent. At mid-year 2011, that number was just two percentage points below target at eight percent.

Investigations: % of property crime reports cleared by arrest

Percentage of property crime reports which are cleared by the arrest of a suspect or suspects. Property crimes include burglaries and vehicle thefts.

2012 Target: 3%

Meeting target, the percentage of property crime reports cleared by arrest has remained a constant three percent from 2008-2010. At mid-year 2011, performance is also at target (three percent).

Fire Response Time: % of fire incident responses within eight minutes of call

By City Council resolution, the Division of Fire maintains an overall maximum response time of eight minutes or less in at least 80 percent of fire incident responses. Note: mid-year data is through May.

2012 Target: 80%

The percentage of fire incidents responded to within eight minutes increased in 2009 by four percentage points to 93 percent. In 2010, this performance increased by one percentage point over the previous year to 94 percent. At mid-year 2011, the percentage mirrored the 2010 performance at 94 percent, 14 percentage points above the goal of 80 percent.

EMS Response Time: % of emergency medical responses within eight minutes of call

By City Council resolution, the Division of Fire maintains an overall maximum response time of eight minutes or less in at least 80 percent of EMS incident responses. Note: mid-year data is through May.

2012 Target: 80%

The percentage of emergency medical responses within eight minutes has maintained an 86 percent effectiveness rating for the last three years. At the midpoint of 2011, the rate was also at 86 percent, exceeding the target of 80 percent, by six percentage points.

Code Enforcement: % of non-emergency code enforcement requests investigated within five business days

Factors that impact response times include: the number of requests received, staffing availability, the nature of the complaint, and weather conditions.

2012 Target: 85%

As of June 2011, the city received 16,062 non-emergency requests from residents; 88 percent, or 14,051, were investigated within the division's accepted timeline. This represents a slight decrease from the performance achieved in the prior two years, but still exceeds the 85 percent target set by the division.

Code Enforcement: % of emergency code enforcement requests investigated within two business days

Emergency requests are a higher priority than non-emergency requests and include issues that are of immediate concern to the health and safety of residents (such as water shut-offs).

2012 Target: 90%

As of June 2011, the division logged 1,978 emergency requests, 1,860 of which, or 94 percent, had been investigated within two business days. This represents a slight decrease in response times over the past two years, but still exceeds the 90 percent target set by the division.

Fleet Management: % of fleet maintenance mechanics with ASE Blue Seal certification

Percentage of mechanics who have obtained at least one ASE (Automotive Service Excellence) certification. In order to receive Blue Seal recognition, 75 percent of a shop's technicians must have at least one certification.

2012 Target: 75%

By investing in training the city's technicians in the highest fleet standards, the division can help to reduce diagnostic errors and reduce re-works on repairs, thereby saving time and money. As of June 2011, 70 of the 84 maintenance technicians employed by the division had at least one ASE certification.

Financial Management: # of bond rating agencies giving Columbus its highest rating on general obligation bonds

The city's bond rating is an important measure of the city's fiscal health.

2012 Target: 3

Through principles of fiscal conservatism and responsible spending models, the city has been able to maintain the highest rating from all three major rating agencies for the past several years. The better the rating, the lower the interest on bonds the city will receive, thus saving the city significant amount.

Food Safety: % of licensed food facilities in compliance with food health and safety standards

Percentage of facilities not entering into the enforcement process, and thereby clear of unresolved violations.

2012 Target: 99%

As of June 2011, 99.9 percent (or 4,957) of the city's 4,963 licensed facilities were in compliance with food health and safety standards. Compliance is enhanced through regular inspections by city environmental health inspectors of restaurants and other food operations. Owners and food handlers also receive training and on proper safety techniques. This ensures a healthy and safe dining experience for residents and visitors and helps to reduce the incidence of food-borne illness.

Aquatics: # of aquatics participants

Number of individuals and groups (duplicated count) utilizing the city's public pools.

2012 Target: 200,000

The 2009 year represented the lowest years' attendance, declining 23 percent from 2008. It was in this year that the city experienced the closure of several recreation centers and pools due to budget constraints. By contrast, a 22 percent increase in participants was experienced in 2010 over 2009, coinciding with the re-opening of recreation centers and pools. At mid-year 2011, attendance (66,200) was less than half of the annual goal of 200,000.

Recreation Centers: # of recreation center program participants

Number of participants registered for classes and programs.

Note: mid-year data is through May.

2012 Target: 34,000

The 2009 year represented the lowest years' participation with a 55 percent decrease over the previous year. It was in this year that the city experienced the closure of several recreation centers and pools due to budget constraints. However, in 2010, the number of program participants rebounded with a 53 percent increase in attendance (12,062) compared to 2009. This coincides with the re-opening of the recreation centers and pools. At mid-year 2011, program participation (16,317) was at 48 percent of the annual goal.

Waste Stream Diversion: % of waste diverted from landfill

Percentage of waste diverted through recycling and yard waste programs, which extends the life of the landfill.

2012 Target: 11%

The percentage of waste diverted from the land fill was at its highest point in 2008 at 17 percent. Since this time, while still above a target of 11 percent, there has been a slight decline in waste diverted from the landfill. At mid-year 2011, landfill diversion remained above target at 12 percent.

Street Maintenance: % of pothole repair service requests closed within three days

Frequency at which the Public Service Department is able to respond to citizen pothole reports in a timely manner.

2012 Target: 80%

The percentage of pothole repair service requests closed within three days has steadily improved over the past few years. 2009 experienced the most significant improvement in performance by 18 percent over 2008. At mid-year 2011, performance met the established target at 80 percent.

Street Maintenance: % of snow and ice removal requests closed within two days

Frequency at which the Public Service Department is able to respond to citizen requests for snow and ice removal in a timely manner. Note: mid-year data is through February.

2012 Target: 90%

The Public Service Department's response to citizens' requests for snow and ice removal in a timely manner remained relatively constant at a high level of performance in 2008 and 2009. With a decline in performance in 2010 by 20 percent, February 2010 marked a record amount of snow and an increase in the amount of residential treatments over prior years. Performance at mid-year 2011 was well above target at 96 percent.

Refuse Collection: # of households served weekly per collection refuse personnel

Amount of households receiving refuse collection service each week from personnel of the Refuse Collection Division.

2012 Target: 1,600

The number of households served weekly per collection personnel increased by 13 percent in 2009 compared to 2008. The year 2010 experienced a five percent decrease over 2009. At mid-year 2011, collections were similar to that of the 2010 year end performance.

Wastewater Treatment: % of wastewater bio-solids produced that are put to beneficial reuse (Southerly)

2012 Target: 30%

Percentage of Southerly's waste production disposed of either by composting or land application.

The percentage of production from the Southerly plant that was disposed of by composting or land application experienced its greatest level of performance in 2008 at 32 percent. Performance in 2009 is five percentage points below 2008 performance at 27 percent, but increased by one percentage point in 2010 to 28 percent. At mid-year 2011, the percentage of wastewater bio-solids put to beneficial reuse was nearly half of the goal of 30 percent.

General Fund Summary

The general fund provides financial support for the city's basic services. Many divisions are funded solely by the general fund, others receive general fund subsidies, and others have multiple funding sources.

Revenues, excluding the unencumbered balance, encumbrance cancellations and transfers from other funds, are projected at \$701.3 million, an increase of 0.12 percent from 2011 revenue projections. A description of the major revenue sources of the general fund is provided below, followed by a revenue summary chart.

Income Tax

The primary source of revenue to the general fund is the income tax. Columbus' income tax was first instituted in 1947 at 0.5 percent. Subsequent increases occurred in 1956, to 1.0 percent; in 1971, to 1.5 percent; in 1982, to 2.0 percent, and in 2009 to its current 2.5 percent.

The city levies an income tax on all wages, salaries, commissions, and other compensation paid to employees and on the net proceeds of business operations in the city. Pursuant to Columbus City Codes, Section 361.37, 75 percent of all income tax collections are deposited in the general fund for general fund operations and 25 percent of collections are deposited in a separate fund to service debt on capital improvements.

Approximately 85 percent of income taxes are collected through employer withholdings. Payments are made to the city on a statutorily prescribed basis.

The income tax is the largest source of revenue for general fund operations. In 2012, income tax revenues to the general fund are estimated at \$523.65 million, which is 71 percent of total general fund revenue. This represents a three percent growth over 2011 projections.

Property Tax

The city annually receives property taxes equal to 3.14 mills of assessed tangible and real property and public utility, located in the city. Property taxes are collected by Franklin, Fairfield, and Delaware counties and are typically remitted to the city on a semi-annual basis. Collections are based on the prior year's assessed valuations, established by state law at 35 percent of appraised market value for real property and at 100 percent of true value for public utility property. Taxes are collected one year in arrears for real property.

Pursuant to Ohio statute and Columbus City Codes, property tax revenue is used for three purposes: certain debt service requirements, partial payment of police and fire pension costs, and general fund operations. State law requires that the first two obligations be met before property tax revenue can be deposited into the general fund for general operations. Because the city pays debt service on non-enterprise capital improvements from the special income tax (SIT) fund, property tax revenues are deposited directly in the general fund. The 2012 estimate for property tax collections is \$44.2 million, a decline of just under 7 percent from the 2011 projection.

Hotel-Motel Tax

Columbus City Code Section 371.02 authorizes the levying of a six percent excise tax on room rates at hotels and motels located in the city. In 1988, 15 percent of the hotel-motel tax was repealed to allow the Convention Facilities Authority to use 0.9 percent of the total tax to finance construction of a convention center. In 1989, the city levied the 5.1 percent tax balance. Revenues are distributed in the following manner: 29.4 percent for the advancement of cultural development in the community; between 29.4 and 36.0 percent to promote the City of Columbus; 8.2 percent for emergency human service needs; 8.4 percent for deposit into the housing trust fund; and the balance deposited into the general fund without restriction. The 2012 projection for general fund hotel-motel tax receipts is \$3.7 million, an increase of 2.8 percent over 2011 projections.

Kilowatt-Hour Tax

Beginning in 2001, a tax was levied on users of electricity provided by the Division of Electricity. Known as the kilowatt-hour (KWH) tax, state statutes provide for these monies collected from users located within the city to be deposited to the city's general fund. In 2012, fifty percent of KWH tax revenues will be deposited directly to the Electricity Enterprise Fund, leaving \$1.65 million for deposit to the general fund. This assumes a flat funding level from 2011.

Shared Revenues

Local government fund (LGF) revenues represent portions of various State of Ohio taxes which are shared with local governments within the state. The local community funds, formerly known as the local government fund, and the local government revenue assistance fund are now combined as the local community funds from the State of Ohio. This category also includes the city's share of estate taxes and other smaller taxes. Total revenues are projected at \$37.1 million in 2012, a nearly 25 percent reduction from projected 2011 revenues.

Fines and Penalties

The City of Columbus receives 100 percent of all municipal court costs and fines assessed in cases initiated by the city (other than those that have been earmarked for special purposes such as computerization of court functions), as well as fines assessed for traffic and parking violations. In addition, the city receives a percentage of court costs and fines assessed in cases initiated by the state, county or other municipalities and tried in the Franklin County Municipal Court. Revenues from fines and penalties are projected at \$18.5 million in 2012, a slight decrease of 0.7 percent from projected 2011 collections.

Charges for Service

Sources of revenue in this category include pro rata charges, third party reimbursements for emergency medical services, parking meter revenues and other parking charges, and revenue from various divisions that charge for services. These include auto impounding fees, sales of impounded autos, certain fire protection and dispatching service charges, and revenue from the collection of income taxes and prosecution services for other

municipalities and villages. Total revenues from charges for service are projected at \$56.87 million in 2012, a 2.26 percent increase over 2011 estimates.

Pursuant to Ordinance 2956-96, all independent funds are assessed an administrative service charge of 4.5 percent of revenues, the proceeds of which are deposited into the general fund. This charge, referred to as “pro rata”, represents a fee for certain services performed by administrative divisions for enterprise, special revenue, grant and internal service divisions, and for which no specific service charge is assessed. Services include, but are not limited to, debt administration and budget preparation provided by the Finance and Management Department, legal services provided by the City Attorney, financial reporting and assistance provided by the City Auditor, and maintenance and cleaning services provided by the Division of Facilities Management.

Investment Earnings

Investment earnings are deposited into the fund in which they were earned. The Treasury Investment Board, consisting of the City Treasurer, City Auditor, and the Finance and Management Director, is responsible for investing the city's liquid assets. In order to ensure the credit-worthiness of the investment of public monies, federal statutes restrict municipal investment to U.S. government securities, bank certificates of deposit, and repurchase agreements. General fund investment earnings are projected to yield \$4 million in 2012.

License and Permit Fees

This category consists primarily of cable communications fees and fees charged by the Department of Public Safety for the issuance and enforcement of City of Columbus licenses and permits. The city charges cable companies a service permit fee for the ability to operate a cable system in the City of Columbus, equal to five percent of cable operator gross revenues. Fees in this category are estimated at \$10.3 million in 2012, of which Cable TV permits are expected to be approximately \$9.3 million.

Other Revenue

This category includes various unclaimed funds, refunds and miscellaneous revenue. The 2012 estimate is \$1.4 million.

Encumbrance Cancellations

These funds represent monies set aside in prior fiscal years for expenditures that subsequently were not made. Funds then can be made available for use through the cancellation of encumbrances. The estimate for 2012 is \$1.6 million.

2009 and 2010 are year-end actuals, while 2011 and 2012 are budgeted.

⁽¹⁾ Actual Uniformed Police 2009 includes 23 members of the 114th Academy class which was partially funded by a JAG (Byrne) grant. Actual and Budgeted numbers in 2010-2012 include the use of a COPS Hiring Recovery Program (CHRP) Grant for 50 personnel.

⁽²⁾ 2010 Uniformed Actual includes a recruit class of 51 who entered the Academy on 12/27/10 and are included on the payroll ending 01/1/11.

Community Development Block Grant Operating Fund

2012 Fund Balance Summary

The community development block grant (CDBG) fund typically realizes beginning year cash balances resulting from reprogramming of previous years' unspent funds and modest unappropriated cash balances. The amounts carried forward to 2010 and 2011 were \$1,358,856 and \$1,643,489, respectively. The 2012 beginning year cash balance is projected to be \$2,000,494.

The following table reflects the fund balance assumptions:

2012 CDBG FUND BALANCE SUMMARY		
Unencumbered Cash Balance (January 1, 2012)	\$	2,000,494
Plus Estimated 2012 Receipts		5,463,359
Plus Estimated Encumbrance Cancellations		-
Total Estimated Available Resources	\$	7,463,853
Less 2012 Recommended Operating Budget		(6,725,617)
Projected Available Balance (December 31, 2012)	\$	738,236

2012 Revenues

Carryover and reprogrammed funds will provide 26.8 percent of the available funding.

The entitlement award from the U.S. Department of Housing & Urban Development (HUD) is expected to be approximately 62.64 percent of all CDBG resources. Entitlement allocations vary by congressional legislative action. The city is projecting a reduction in the entitlement award for 2012 of \$1,168,910 (20 percent).

Economic development loan repayments account for 4.59 percent of CDBG resources and have declined steadily in recent years. The city continues to contract with two sub-recipient agencies to implement economic development revolving loan programs. Loan repayments are retained by these agencies for additional loans.

Housing loan repayments are expected to be 4.02 percent of CDBG resources. Housing revenues are trending downward, the result of more grants and deferred loans being issued in recent years in lieu of amortized loans.

Miscellaneous revenues include interest earnings on revolving loan funds (which must be remitted to HUD) and program income from activities such as the School's Out program, loan repayments from the discontinued roof repair program, and environmental blight activities. Miscellaneous revenues are expected to account for 1.95 percent of CDBG resources.

The following table summarizes CDBG revenues by type and year:

CDBG REVENUE BY SOURCE AND YEAR				
	2009	2010	2011	2012
REVENUE SUMMARY	Actual	Actual	Estimated	Proposed
Entitlement Award	\$ 6,457,750	\$ 6,986,116	\$ 5,844,549	\$ 4,675,639

PERCENT CHANGE		10.7%	-2.8%	-19.3%

2012 Proposed Operating Budget

CDBG activities are divided into four primary themes: affordable housing opportunity, neighborhood and target area revitalization, economic development and economic opportunity, and supportive services. All activities satisfy one of two basic federal mandates: the elimination of slum and blight or benefit to low and moderate income families and individuals. As part of the CDBG budget process, the city solicits significant community input for developing priorities and the funding of activities.

The four primary themes and activities are further defined below:

Affordable Housing Opportunity

The activities funded under this theme support the current level of housing options and related services for special needs populations, expand the conservation and improvement of existing affordable owner and renter housing in targeted areas, increase opportunities for low and moderate income households to become and remain homeowners, and ensure equal access to housing.

The largest activities within affordable housing opportunity are the affordable housing opportunity fund, which provides for housing rehabilitation, housing accessibility modifications and senior citizen home maintenance, and the homeowner assistance program staff, which implement the housing program. Also funded under affordable housing opportunity are the fair housing services contract, the relocation and housing administrative staff, and the AIDS housing program. The affordable housing opportunity component includes a total of 10 activities totaling \$2,253,721, or 33.51 percent of the CDBG budget.

Neighborhood and Target Area Revitalization

The neighborhood and target area revitalization programs seek to enable residents to play a greater role in community leadership, self-help, advocacy and development issues; to provide technical and financial assistance to community-based organizations in order to address neighborhood needs; to improve the infrastructure and physical environment of Columbus' central city neighborhoods; and to preserve and promote the character and assets of neighborhoods and target areas.

Notable activities are the code enforcement program, which is responsible for property inspections and is a major participant in the neighborhood pride initiative; the environmental nuisance program, which abates weeds and solid waste within the community development service area; the land reutilization program, which allows the city to designate and acquire certain tax delinquent properties for redevelopment; and the neighborhood liaisons who work closely with neighborhood leaders to discuss, address and resolve community issues. The neighborhood and target area component includes a total of four activities totaling \$1,517,374, or 22.56 percent of the CDBG budget.

Economic Development and Economic Opportunity

This theme seeks to create and maintain a favorable business environment in low and moderate income areas while generating employment, business growth and consumer services; to promote thriving small and emerging for-profit and non-profit businesses throughout Columbus; to increase low and moderate income individuals' access to regional job markets and locations; and to improve public infrastructure in commercial and industrial areas.

The economic development loan fund seeks to promote low and moderate income job creation. The fund provides working capital to small businesses with an emphasis on minority owned businesses and provides fixed asset financing to business borrowers that create jobs through expansion. The neighborhood support fund provides monies to neighborhood-based organizations to develop and implement their own economic development projects, initiatives, and services. Also funded within this theme are staff for brownfield remediation, business development office, business financing, and neighborhood commercial development. Economic development includes a total of six activities totaling \$1,443,717, or 21.47 percent of the CDBG budget.

Supportive Services

The supportive services goals are designed to make Columbus neighborhoods safer places in which to live, work and raise a family; to meet the comprehensive health needs, including health management skills, within our neighborhoods and target areas; to assist families and individuals moving from poverty or public assistance to stability or self-sufficiency; and to provide a coordinated system of childcare, education and development services for children, teens and families.

All activities funded under supportive services require benefit to low and moderate income citizens. Notable among these are the pregnancy support program, which impacts high-risk pregnant women through active community outreach; the Capital Kids program, which provides out-of-school programming for Columbus children; the sexual health awareness program which seeks to reduce STD/HIV infection, unwanted pregnancies and high-risk sexual activities; and the School's Out program, which funds a day camp for children on days that the Columbus Public Schools are not in session. Supportive services include a total of six activities totaling \$955,767, or 14.21 percent of the CDBG budget.

The CDBG budget also provides monies for programmatic support. Most notable is the loan servicing contract which provides for assistance in the administration of both the housing and economic development loan portfolios. Programmatic support includes a total of four activities totaling \$535,038, or 7.96 percent of the CDBG budget.

Non-Program Expenditures

CDBG regulations require any interest earned on revolving loan funds be remitted to the U.S. Treasury. The estimate for interest earnings is \$20,000 and represents 0.29 percent of the total budget.

The following table summarizes the community development block grant fund recommended appropriation levels:

2012 CDBG PROPOSED OPERATING BUDGET					
DIVISION	PERSONNEL	SUPPLIES	SERVICES	OTHER	TOTAL

Special Revenue Funds

Municipal Court Computer System Procurement and Maintenance Fund

2012 Cash Balance Statement

The municipal court computer fund is projected to begin 2012 with an unencumbered cash balance of \$1,121,460 and end the year with an available balance of \$819,893.

This fund was created to provide the Municipal Court with computer hardware, software, training and computer-related services. Effective March 1, 1993, the Ohio Revised Code was amended to allow the addition of court fees for the purpose of court computerization. For the Municipal Court Judges, the fee is \$3 per cause of action or appeal. The Municipal Court Clerk may add an amount of \$10 per transaction, including causes of action or appeals. The projection of total revenue attributable to the Municipal Court Judges for 2011 is \$370,000; revenue for the Clerk of Courts is \$1,350,000.

2012 MUNICIPAL COURT COMPUTER FUND BALANCE SUMMARY		
Unencumbered Cash Balance (January 1, 2012)	\$	1,121,460
Plus Estimated 2012 Receipts		1,720,000
Plus Estimated Encumbrance Cancellations		170,000
Total Estimated Available Resources	\$	3,011,460
Less 2012 Recommended Operating Budget		(2,191,567)
Projected Available Balance (December 31, 2012)	\$	819,893

Street Construction Maintenance and Repair Fund

2012 Cash Balance Statement

The street construction, maintenance and repair (SCMR) fund is projected to end 2012 with a fund balance of \$3,300,885. Revenue for the SCMR fund is expected to be \$140,656 less than 2011 projections. In 2012, the storm water fund will reimburse the SCMR fund for the \$7.1 million cost of the street cleaning and snow and ice removal programs. In 2012, salt and asphalt will not be budgeted in this fund. Also, a portion of the bulk program in the Refuse Collection Division will be funded by the SCMR fund.

2012 STREET CONSTRUCTION MAINTENANCE AND REPAIR FUND BALANCE SUMMARY	
Unencumbered Cash Balance (January 1, 2012)	\$ 6,191,177
Plus Estimated 2012 Receipts	46,629,873
Plus Estimated Encumbrance Cancellations	<u>128,000</u>

Revenue Notes:

- Motor vehicle fuel tax revenues will increase slightly in 2012.
- Right-of-way permit fees are estimated at \$1,064,218 in 2012.
- Franklin County reimbursements are estimated to be \$2.7 million in 2012.
- Motor vehicle license tax revenues will decrease slightly from 2011.
- Capital reimbursements are estimated at \$2,500,000 in 2012, a decrease of \$1,239,209 from 2011 projections.
- Reimbursements from the storm water fund will total \$7,113,639 in 2012.

Street Construction Maintenance and Repair Fund Pro Forma Operating Statement

A ten-year pro forma operating statement is presented on the following page. It represents the fund's revenues and expenditures for that period, given certain assumptions, and is essential in providing a framework for future financial decisions. The major assumptions included in this pro forma for years 2013 and beyond are as follows:

- The projected annual growth for motor vehicle fuel tax revenues and motor vehicle license tax revenues is at 0.5 percent per year.
- Operations and maintenance expenses, excluding personnel, health insurance, pro rata and technology, are inflated at two percent per year. Personnel expenses assume one percent growth in years 2013 – 2021. Insurance costs are projected to grow by nine percent annually in 2013 and beyond; however, projections include offsets due to incremental increases in employee shares. Pro rata charges represent 4.5 percent of revenue. It is assumed that there will be zero growth in technology expenses.
- The ending fund balance is projected to be positive in 2012 and then negative in all years thereafter.

Health Special Revenue Fund

2012 Cash Balance Statement

The health special revenue fund is projected to end 2012 with a zero fund balance. Total available resources include any unencumbered cash at the beginning of the year, revenues deposited into the health special revenue fund, a general fund transfer subsidy and encumbrance cancellations. These resources are used to cover the Health Department's operating expenditures.

PERCENT CHANGE		-1.33%	10.69%	7.19%

Revenue Notes:

- The health special revenue fund receives a transfer from the city's general fund each year to cover all budgeted operating expenses that cannot be supported solely by other Columbus Public Health Department revenue sources. The general fund subsidy totaling \$19,740,623 represents 77 percent of the department's operating revenues. This subsidy is higher than the past two years and represents an increase of eight percent over the subsidy in 2011.
- Other revenues include license and permit fees, charges for services, birth and death certificate fees and various program fees. Revenues, not including the general fund subsidy, unencumbered balance or encumbrance cancellations, are projected to increase seven percent from estimated 2011 revenues.
- Since 2009, Occupational Health Clinic services have been provided through an outside vendor.
- In Miscellaneous Revenues and Refunds, the 2009 amount includes \$500,000 from Columbus Neighborhood Health Centers.
- In 2012, total revenues, excluding the beginning year unencumbered cash balance and estimated encumbrance cancellations, are projected to be \$25,687,694.

Recreation and Parks Operation and Extension Fund

2012 Cash Balance Statement

The recreation and parks operation and extension fund cash balance statement is itemized below. While the fund is not expected to have an unencumbered cash balance at the beginning of 2012, total available resources include a general fund transfer subsidy and encumbrance cancellations. These resources are used to cover Recreation and Parks Department operating expenditures.

TOTAL RESOURCES	\$ 28,163,787	\$ 30,116,714	\$ 33,286,169	\$ 36,950,951
PERCENT CHANGE		6.93%	10.52%	11.01%

Revenue Notes:

- The recreation and parks operation and extension fund receives a transfer from the city's general fund to cover all budgeted operating expenses that cannot be supported solely by user fees and charges. The general fund subsidy for 2012 is \$30.3 million. The general fund subsidy does not include technology expenditures, which are budgeted in Finance and Management.
- Revenues come from adult sports leagues (softball, soccer, basketball, football and volleyball), recreation fees, gymnasium rentals, tree trimming, capital project management, and various other charges. Revenues are expected to be \$6.32 million.
- The department will continue to waive the entry fee for all pools for the summer outdoor season.
- Tree trimming services in the right-of-way will continue to be billed to the street construction maintenance and repair fund (SCMR) in 2012, generating estimated revenue of \$2.1 million.

Golf Course Operations Fund

2012 Cash Balance Statement

The golf course operations fund is projected to begin 2012 with no unencumbered cash balance and end the year with a surplus of \$19,635. Revenue receipts are projected at \$4,238,000. Total available resources, including expected encumbrance cancellations of \$120,000 are budgeted at \$4,358,000. This total represents a 4.9 percent increase over estimated 2011 total resources. Revenues are generated from greens fees, golf cart rental fees and the sale of refreshments at the seven municipal golf courses. Ninety percent of greens fee revenues are deposited into this fund, while the remaining ten percent goes directly toward golf course debt retirement.

2012 GOLF COURSE OPERATIONS FUND BALANCE SUMMARY		
Unencumbered Cash Balance (January 1, 2012)	\$	-
Plus Estimated 2012 Receipts		4,238,000
Plus Estimated Encumbrance Cancellations	\$	120,000

TOTAL RESOURCES	\$ 4,670,951	\$ 4,575,141	\$ 4,152,903	\$ 4,358,000	
PERCENT CHANGE		-2.05%	-9.23%	4.94%	

Revenue Notes:

- Revenue is directly related to weather conditions and is therefore difficult to project. Other factors that impact revenues include competition and the state of the economy.
- Total golf course revenues for 2012 are estimated at \$4.2 million. Airport Golf Course will be closed for play until early 2013 as a result of runway construction at Port Columbus International Airport. Replacement revenue will be provided through an agreement with the Columbus Regional Airport Authority.
- The division continues to closely monitor its revenues and expenditures, and plans to take mitigating action in the future should its financial position deteriorate.

Development Services Fund

2012 Cash Balance Statement

During 2010, all development services fund activity was moved from the Department of Development to the Building and Zoning Services Department. All fees and charges associated with development-related services are deposited into the fund. Revenue to the fund is projected at \$15.58 million in 2012. The fund is projected to end 2012 with an unencumbered cash balance of \$3,178,701.

Development Services Fund Pro Forma Operating Statement

A ten year pro forma operating statement is presented on the following page. It represents the fund's revenues and expenditures for that period, given certain assumptions, and is essential in ensuring the solvency of the fund and for maintaining an acceptable end-of-year balance. The major assumptions included in this pro forma are as follows:

- Revenues are increased by 1.5 percent in the years 2013 - 2021.
- Operations and maintenance expenses, excluding personnel, pro rata and health insurance, are inflated at two percent per year. Personnel expenses assume one percent growth in years 2013 - 2021. Insurance costs are projected to grow by nine percent annually in 2012 and beyond; however, projections include offsets due to incremental increases in employee shares. Pro rata fees represent 4.5 percent of non-city revenue.
- The ending fund balance is projected to be positive through 2021.

1111 East Broad Street Fund

2012 Cash Balance Statement

In 2007, a special revenue fund entitled the “1111 East Broad Street Operations Fund” was established to allow the Facilities Management Division to deposit rental payments from occupants of the building owned by the city at this location. Facilities Management funds necessary for the operation of the building are deposited in this fund as well. The fund is expected to begin 2012 with an unencumbered cash balance of \$591,991. Revenue receipts from leases are projected at \$1,131,520 with \$630,655 generated from COWIC and \$500,865 from the Department of Technology. This is slightly less than in 2011, due to possible tenant changes. Estimated available resources total \$1,723,511. Operational expenses in 2012 are projected to be \$1.64 million, leaving a projected available balance at year end of \$87,881. No general fund transfer is likely to be needed in 2012.

2012 1111 EAST BROAD STREET FUND BALANCE SUMMARY		
Unencumbered Cash Balance (January 1, 2012)	\$	591,991
Plus Estimated 2012 Receipts		1,131,520
Plus Estimated 2012 General Fund Transfer		-
Plus Estimated Encumbrance Cancellations		-
Total Estimated Available Resources	\$	1,723,511
Less 2012 Recommended Operating Budget		(1,635,630)
Projected Available Balance (December 31, 2012)	\$	87,881

Private Inspection Fund

2012 Cash Balance Statement

On April 1, 2009, the Department of Public Service ceased all expenditure and revenue activity in the development services fund and established two new funds – the private construction inspection fund and the internal service construction inspection fund. The private construction inspection fund captures the accounting activity of the Division of Design and Construction that is connected with the inspection of private development infrastructure construction that is generally associated with subdivision and commercial development. Revenues for 2012 are budgeted at \$2,296,398. The fund is expected to end 2012 with an unencumbered cash balance of \$478,428.

2012 PRIVATE INSPECTION FUND BALANCE SUMMARY	
Unencumbered Cash Balance (January 1, 2012)	\$ 283,234
Plus Estimated 2012 Receipts	2,296,398
Plus Estimated Encumbrance Cancellations	<u>2,000</u>
Total Estimated Available Resources	\$ 2,581,632
Less 2012 Recommended Operating Budget	(2,103,204)
Projected Available Balance (December 31, 2012)	<u><u>\$ 478,428</u></u>

Special Revenue Funds

Internal Service Funds

Employee Benefits Fund

2012 Cash Balance Statement

The employee benefits fund was established in 1993. A portion of this fund is dedicated to the administration of the risk management section of the Department of Human Resources. The fund's primary source of revenue is the monthly insurance premium paid by each division for all participating employees of the city's insurance program.

2012 EMPLOYEE BENEFITS FUND BALANCE SUMMARY	
Unencumbered Cash Balance (January 1, 2012)	\$ -
Plus Estimated 2012 Receipts	3,337,914
Total Estimated Available Resources	<u>\$ 3,337,914</u>
Less 2012 Recommended Operating Budget	(3,337,914)
Projected Available Balance (December 31, 2012)	<u><u>\$ -</u></u>

Revenue Notes:

- The figures cited above reflect only the revenues and expenditures associated with administration of the risk management section of the Department of Human Resources.
- Revenues and expenditures associated with the payment of claims are not represented in this section.

Print and Mailroom Services Fund

2012 Cash Balance Statement

The print and copy center operates as an internal service fund, with costs supported by billing user agencies for print and copy services provided. Mailroom services, transferred from the Department of Technology to the Department of Finance and Management in 2008, are included in this fund as well. Revenues and expenditures for both the print center and the mailroom are accounted for in this fund. Charges for the mailroom, including postage charges, are billed back to user agencies. The fund is projected to begin 2012 with a negative unencumbered cash balance of \$188,270, primarily due to low print shop revenues. The fund is expected to end 2012 with a negative unencumbered cash balance of \$363,349, primarily due to low print revenues, with low mail revenues contributing as well.

2012 PRINT AND MAILROOM SERVICES FUND BALANCE SUMMARY		
Unencumbered Cash Balance (January 1, 2012)	\$	(188,270)
Plus Estimated 2012 Print Services Receipts		175,798

Land Acquisition Fund

2012 Cash Balance Statement

Revenues to the land acquisition fund are comprised of charges to other city divisions for land acquisition services. The 2012 revenue estimate is based on a projection of 2,418 hours of services billed at a rate of \$300 per hour. The division reviews its rate periodically and increases it when necessary to fully recover costs. The land acquisition fund is projected to end 2012 with an unencumbered cash balance of \$32,371.

2012 LAND ACQUISITION FUND BALANCE SUMMARY		
Unencumbered Cash Balance (January 1, 2012)	\$	40,976
Plus Estimated 2012 Receipts		725,400
Plus Estimated Encumbrance Cancellations		-

Technology Services Fund

2012 Cash Balance Statement

The technology services fund is housed in the Department of Technology and is projected to begin the year with a zero unencumbered cash balance and end the year with \$150,000, due to encumbrance cancellations. Revenues to the fund consist of charges to other city divisions for technology services, utilizing an updated rate model to determine applicable rates for various operational functions. In addition, the department procures goods, services, and other computer related equipment on behalf of city divisions and bills back the cost as a direct charge. The department also receives revenue from outside sources, such as Franklin County, the Franklin Park Conservatory and the Martin Luther King facility, for services provided.

2012 TECHNOLOGY SERVICES FUND BALANCE SUMMARY	
Unencumbered Cash Balance (January 1, 2012)	\$ -
Plus Estimated 2012 Receipts	30,332,857
Plus Estimated Encumbrance Cancellations	150,000
Total Estimated Available Resources	\$ 30,482,857
Less 2012 Recommended Operating Budget	(30,332,857)
Projected Available Balance (December 31, 2012)	<u>\$ 150,000</u>

Technology Services Fund Pro Forma Operating Statement

The department will continue to use a charge-back methodology to fully recover costs related to information technology services. In 2009, an updated rate model was completed which more accurately reflects user charges and services as well as cost recovery. The department continues to use a time and attendance reporting system for many of its services.

A pro forma operating statement for the ten year period follows this section and represents the Director's Office and the Information Services Division (ISD) revenues and expenditures for that period. The major assumptions are as follows:

- Personnel expenses assume a one percent growth in years 2013-2021. Insurance costs are projected to grow by seven percent annually in 2013 and beyond; however, projections include offsets due to incremental increases in employee shares.
- The Information Services Division incurs debt service for capital expenditures such as terminal replacement, system migration, network expansion, the city's Oracle site license and enterprise-wide network management software, data center renovations, hardware upgrades and mass storage, software upgrades, telephony upgrades, and other projects.

Details related to operations are as follows:

Administration

Directs the business office activities and provides leadership, administrative and fiscal support to other functional areas of the department.

Applications Programming

Includes funding for enterprise licenses for Oracle software maintenance and support and Microsoft server licensing and provides development, design, maintenance and enhancements to computer programs and systems.

Productions Service

Provides continuous operation and maintenance of the city's computer systems, related peripheral equipment, data communications systems and post report printing operations. Includes maintenance and support of city mainframe equipment, lease of and maintenance on high-volume printers and Unix software licensing and maintenance.

Help Desk

Centralized help desk offers first level, technical assistance to user agencies, citywide.

Desktop Support

Deploys and maintains the city's desktop computer systems in a manner that ensures high availability to city employees.

Systems Administration

Includes funding for enterprise system management, NT and Unix system administration, account maintenance and hardware and software upgrades. Systems administration budget includes Windows NT support.

Security

Provides enterprise security management through infrastructure security and intrusion detection. Security budget includes security maintenance and anti-virus software.

311 Support

Maintains systems and applications for the city's 311 customer call center.

Telephone Services

Coordinates telephone services, training and consulting for all city agencies.

GIS Section

Includes funding for contract project management, software maintenance, and in-house staff.

Metronet

Includes funding for operation and maintenance of the citywide fiber optic network. The metronet budget includes support for equipment maintenance, consulting expertise and in-house staff.

Data Center

Operational costs include utilities, security and maintenance of the UPS and generator systems.

Account Management

Includes funding for information technology account management personnel and services to customer agencies. Account managers provide customer specific business process expertise to city agencies.

Web Support

Maintains and supports citywide internet and intranet web applications. Provides internet web site links for citizens and citywide departments.

Government Television Channel

Coordinates contracts for video programming services. Prepares scripts and provide editing services for production programs.

Interconnect

Designs and manages oversight and installation of the city-owned fiber optic cabling plant. Provides preventive maintenance and repair of outside fiber optic cable.

CHRIS

Provides technical leadership, direction and support to maintain the Columbus Human Resources Information System (CHRIS).

Fleet Management Fund

2012 Cash Balance Statement

The Fleet Management Division recovers its costs by billing user agencies for services provided. The revenue includes rates of \$70 per hour for light vehicles and \$90 per hour for heavy vehicles, a 22 percent mark-up on parts, a 5 percent mark-up on commercial services and credit card fuel purchases, and a fuel overhead rate of \$.24 per gallon for bulk fuel.

The fleet management services fund is projected to end 2012 with a negative unencumbered cash balance of \$1,636,173. It is necessary to have outstanding encumbrances for fuel and services at year-end to allow the division to pay expenses until passage of the 2013 budget.

Other General Fund	1,302,107	1,361,944	1,482,558	1,586,547
Other Funds	7,422,864	7,229,953	8,265,209	9,178,574
Refunds/Miscellaneous	354,507	111,091	117,303	100,000
Insurance Trust Fund Transfer	-	-	-	-
Unencumbered Cash Balance	(2,460,174)	(1,398,878)	(1,999,503)	(1,972,020)
Encumbrance Cancellations	1,017,800	1,094,165	463,469	750,000
TOTAL RESOURCES	\$ 26,784,711	\$ 27,570,977	\$ 30,327,937	\$ 30,511,875
PERCENT CHANGE		2.94%	10.00%	0.61%

Revenue Notes:

- Revenues, excluding the unencumbered cash balance and encumbrance cancellations, will total \$31,733,895 in 2012, a decrease of 0.4 percent from the 2011 projection.

Fleet Management Services Fund Pro Forma Operating Statement

A ten year pro forma operating statement is presented on the following page. It represents the Division of Fleet Management's projected revenues and expenditures for that period, given certain assumptions. The pro forma is essential in planning recovery rate percentage increases or decreases and for maintaining an acceptable end of year balance. The major assumptions included in this pro forma are as follows:

- Operations and maintenance expenses, excluding personnel, pro rata and health insurance, are inflated at two percent per year. Other expenditures are held flat, while capital expenditures grow by three percent each year. Personnel expenses assume one percent growth in years 2013 - 2021. Insurance costs are projected to grow by nine percent annually in 2013 and beyond; however, projections include offsets due to incremental increases in employee shares.
- Debt service principal and interest have been broken out separately. The debt service principal and interest payments represent reimbursement to the special income tax fund for the retirement of bonds issued for the following: the design and construction of the division's Groves Road facility, compressed natural gas fueling stations, and infrastructure improvements to all existing fuel stations.
- Recovery rates in the pro forma are adjusted as necessary to allow the division to maintain positive year end unencumbered cash balances. This pro forma indicates a 7.75 percent increase in revenues in 2013 as necessary to meet that goal. Revenues in each of the years thereafter are adjusted to maintain a positive balance in the fund.

Construction Inspection Fund

2012 Cash Balance Statement

On April 1, 2009, the Department of Public Service ceased all expenditure and revenue activity in the development services fund and established two new funds – the private construction inspection fund and the internal service construction inspection fund. The internal service construction inspection fund captures the accounting activity associated with the construction administration and inspection services of the Division of Design and Construction. This agency provides these services for roadway, bridge, water, sanitary and storm sewer, electric power and signal infrastructure for the City of Columbus. Revenues for 2012 are budgeted at \$9,399,475. The fund is expected to end 2012 with an unencumbered cash balance of \$1,843,362.

2012 CONSTRUCTION INSPECTION FUND BALANCE SUMMARY	
Unencumbered Cash Balance (January 1, 2012)	\$ 632,636
Plus Estimated 2012 Receipts	9,399,475
Plus Estimated Encumbrance Cancellations	51,049
Total Estimated Available Resources	\$ 10,083,160
Less 2012 Recommended Operating Budget	(8,239,798)
Projected Available Balance (December 31, 2012)	<u><u>\$ 1,843,362</u></u>

Enterprise Funds

Sewerage and Drainage Operating Fund

2012 Cash Balance Statement

The projected beginning year 2012 cash balance is \$157.9 million, which includes \$60 million in a reserve fund.

2012 SEWERAGE AND DRAINAGE OPERATING FUND BALANCE SUMMARY		
Cash Balance (January 1, 2012)	\$	157,902,906
Plus Estimated 2012 Receipts		239,596,125
Total Estimated Available Resources	\$	397,499,031
Less 2012 Recommended Operating Budget (Sewers/Drains)		(238,506,532)
Less 2012 Recommended Operating Budget (Administration)		(4,569,040)
Projected Available Balance (December 31, 2012)	\$	<u><u>154,423,459</u></u>
Note: Cash Balance at January 1, 2012 does not include "bond debt service" reserve fund balance of \$10 million		

2012 Revenue Summary

User fees completely support the operations of the Division of Sewerage and Drainage. Section 118 of the Columbus City Charter empowers the City Council to establish separate sewer and water rates to fully cover the cost of service. Rates are set to recover the cost of operations, maintenance and debt service, and are reviewed annually by the Sewer and Water Advisory Board. City Council must approve all rate increases before they are effective.

One of the city's goals in the rate setting process is to avoid steep increases and at the same time fully meet the needs of the system. To achieve this goal, a pro forma operating statement was developed. This document is updated annually to reflect current appropriation levels and adjusted for actual revenues and expenditures.

Statements in this section relative to this fund are made on a cash basis and include prior year expenditures.

2012 Revenue Summary

SEWERAGE AND DRAINAGE REVENUE BY SOURCE AND YEAR HISTORICAL AND PROJECTED 2009-2012				
REVENUE SUMMARY	2009 Actual	2010 Actual	2011 Estimated	2012 Proposed
Service Charges:				
Sewer Sales	\$ 177,851,430	\$ 181,154,799	\$ 189,066,277	\$ 192,950,352
Wet Weather Charges	25,636,339	26,848,511	29,262,675	30,348,798
System Capacity Charges	3,471,405	4,061,321	3,801,267	3,839,280
Investment Income	6,767,844	2,645,658	1,258,975	1,271,565
Storm Maintenance Reimbursement	6,413,631	7,007,270	8,824,530	9,089,266
Other*	3,020,988	3,750,902	4,137,428	2,096,864
Beginning Year Cash Balance	115,595,315	132,638,479	152,746,467	157,902,906
TOTAL RESOURCES	\$ 338,756,952	\$ 358,106,940	\$ 389,097,619	\$ 397,499,031
PERCENT CHANGE		5.71%	8.65%	2.16%

*Includes debt refinancing premiums in 2010 and 2011.

Revenue Notes:

- The Sewer and Water Advisory Board recommended a three percent increase in revenues in 2012. With this increase, revenues, excluding the beginning balance, will total \$239.6 million in 2012.
- System capacity fees are assumed to grow by one percent. Growth of this fee has declined steadily over the last decade, as it is based on growth of the sanitary sewer system, which has also slowed in recent years.
- Due to the volatility of the market, the interest income projection is very conservative and reflects a growth rate of one percent over that of 2011. Investment income, as a revenue source to the enterprise funds, is based on the amount of cash available in the treasury upon which interest can be earned.
- The storm maintenance reimbursement will continue in 2012. This transfer of funds from the storm sewer fund to the sanitary sewer fund is made to pay for shared resources.
- The low income discount is continued in 2012 on the commodity portion of the sanitary sewer bill to provide financial relief to qualified customers.

Sewer Pro Forma Operating Statement

Presented below is a pro forma operating statement for the sewerage system enterprise operating fund, reflecting sanitary sewer operations only. A separate pro forma statement for storm sewer operations is presented later in this document. Represented is a projection of the sewerage and drainage operating fund revenues and expenditures on a cash basis for the period 2010 through 2021, the assumptions for which are outlined below. The pro forma operating statement is essential to the planning and rate setting processes. The major assumptions upon which the pro forma's numbers are based are as follows:

- The Sewer and Water Advisory Board recommended various sewer rate increases to produce three percent more revenue in 2012.
- Sanitary sales growth is projected at zero percent in 2012, 0.5 percent in 2013 and 2014 and at 1 percent for the balance of the pro forma projection period.
- System capacity charges are assumed to grow by one percent annually, representing modest growth of these charges.
- Projections for personnel costs reflect the rates in effect for the various collective bargaining agreements and/or management salary ordinances represented in the division.
- Equipment costs in 2012 and beyond include the required annual allotment to the EPA-mandated capital replacement fund.
- The 2012 operations and maintenance budget includes \$10.37 million to pay pro rata (payment to the general fund for services provided to the utility divisions by general fund agencies).
- In 2012, new debt will be issued in the form of general obligation bonds to fund various sanitary and wet-weather sewer projects related to the federally mandated projects.
- Debt service for payment of Ohio Water Development Authority (OWDA) low-interest loans has been included within the appropriate debt schedules. Use of these low-interest monies decrease the debt retirement expenses associated with sanitary sewer projects. Unlike municipal bonds, debt service on OWDA-funded construction projects is not paid until construction is complete.
- The Division of Sewerage and Drainage's capital improvements plan has been reduced by ten percent throughout the pro forma period. This reduction recognizes the likelihood that actual debt issuance in any given year will not reach levels outlined in the capital improvements budget because of unavoidable lags in the project planning and implementation process.
- The Division of Sewerage and Drainage's pro forma statement also assumes that all debt will be issued late in any given year, such that the interest expense is not due until the following year and the principal payment is due the year after that.
- A portion of the costs associated with the Public Utilities Director's Office are borne by the sewerage enterprise operating fund. In 2012, \$4.6 million is allocated in this fund for this purpose.

Electricity Enterprise Fund

2012 Cash Balance Statement

Revenues into the electricity enterprise fund are projected to grow parallel to the growth of purchase power increases as the division attempts to recover these cost increases. Since there are no planned transfers from the special income tax (SIT) fund to the electricity enterprise fund to cover the purchase power cost increases, the division must continue to recover these costs through rate increases or fuel cost adjustments to its customers.

At the beginning of 2012, there is a projected cash balance of over \$3.2 million, which reflects the combined balances of the reserve and operating funds.

2012 ELECTRICITY ENTERPRISE FUND BALANCE SUMMARY		
Cash Balance (January 1, 2012)	\$	3,222,128
Plus Estimated 2012 Receipts		90,961,970
Total Estimated Available Resources	\$	94,184,098
Less 2012 Recommended Operating Budget (Electricity)		(90,695,253)
Less 2012 Recommended Operating Budget (Administration)		(640,718)
Projected Available Balance (December 31, 2012)	\$	<u><u>2,848,127</u></u>

2012 Revenue Summary

Electricity operating fund revenues fall into two basic categories: revenue from the retail sale of electricity and specific services (e.g., operation and maintenance of expressway lighting) and investments.

Statements in this section relative to this fund are made on a cash basis though do account for prior year expenditures.

2011 Revenue Summary

ELECTRICITY ENTERPRISE FUND REVENUE BY SOURCE AND YEAR HISTORICAL AND PROJECTED 2009-2012				
REVENUE SUMMARY	2009 Actual	2010 Actual	2011 Estimated	2012 Proposed
Charges for Electric Service	\$ 73,368,942	\$ 82,177,901	\$ 85,769,133	\$ 87,148,076
Investment Income	207,910	64,249	40,116	40,116
Other Revenue*	1,926,528	3,604,537	3,261,172	3,360,638
Street Light Assessments	480,236	492,174	441,065	413,140
Transportation Street Lighting Revenue	-	-	-	-
Beginning Year Cash Balance	11,868,640	4,373,873	2,869,936	3,222,128
TOTAL RESOURCES	\$ 87,852,256	\$ 90,712,734	\$ 92,381,422	\$ 94,184,098
PERCENT CHANGE		3.26%	1.84%	1.95%

*Includes debt refinancing premiums in 2011.

Revenue Notes:

- Revenues, excluding the beginning year cash balance are expected to be \$90.96 million in 2012.
- Revenues to the electricity enterprise fund are generated through the purchase of wholesale and resale of retail electricity.
- Effective May 2001, changes in state law caused the Division of Electricity to pay the proceeds of a kilowatt hour tax to the general fund. At that time, to avoid a net reduction in revenue to the division, the general fund reimbursed the payments to the electricity operating fund. However, in 2004, legislation was passed that allowed the general fund to keep the kilowatt hour proceeds. In turn, through 2008, the division received a portion of the costs associated with operation of the street light system from the street construction, maintenance and repair fund (SCMR fund). Starting in 2009, however, this intra-fund transfer was not made and will again not be made in 2012. In 2012 the general fund will retain approximately half the proceeds of the kilowatt hour tax and return the other half to the electricity enterprise fund.
- Due to the volatility of the market, the 2012 interest income projection reflects no growth over that of 2011. Investment income, as a revenue source to the enterprise funds, is based on the amount of cash available in the treasury on which interest can be earned.

Electricity Pro Forma Operating Statement

Presented below is a pro forma operating statement for the electricity enterprise operating fund, which outlines projections of operating fund revenues and expenditures on a cash basis for the period 2010 through 2021. Assumptions are outlined below. This division does not follow the same rate setting processes as the Water, Sanitary and Stormwater Divisions. Rather, its rates are determined by what the market will support given that there are other providers of retail electricity in the area. As such, the pro forma operating statement is essential to this division's planning, management and decision making processes. The major assumptions upon which the pro forma's numbers are based are as follows:

- The pro forma assumes operating, maintenance and debt service costs for the division's street lighting program through the entire pro forma period. The objective of the program is to install street lighting throughout the city with revenues derived from electric retail sales.
- Projections for personnel costs reflect the rates in effect for the various collective bargaining agreements and/or management salary ordinances represented in the division.
- The largest portion, by far, of the Division of Electricity's budget is for the purchase of electrical power. In 2012 \$64.6 million is budgeted for this wholesale power, which in turn, is sold to the division's customers. Purchase power costs are projected to grow by one percent annually through the end of the pro forma period.
- The 2012 budget also includes \$4.07 million for payment of pro rata.
- Revenues will increase by 1.6 percent in 2012 and by 1.0 percent in 2013.
- Proposed new bonded debt is conservatively projected. It is assumed that such debt will be directly bonded at 4.0 percent in 2012, 4.5 percent in 2013 and 5.0 percent thereafter. Details regarding the proposed capital expenditures are available in the capital summary section of this document.
- The Division of Electricity's pro forma statement also assumes all debt will be issued late in any given year, such that the interest expense is not due until the following year and the principal payment is due the year after that.
- A portion of the costs associated with the Public Utilities Director's Office are borne by the electricity enterprise operating fund. In 2012, \$640,718 is allocated in this fund for this purpose.

Water Operating Fund

2012 Cash Balance Statement

The projected beginning year 2012 cash balance is \$40.6 million, which includes \$27 million in a reserve fund.

2012 WATER OPERATING FUND BALANCE SUMMARY		
Cash Balance (January 1, 2012)	\$	40,554,562
Plus Estimated 2012 Receipts		173,175,536
Total Estimated Available Resources	\$	213,730,098
Less 2012 Recommended Operating Budget (Water)		(173,354,996)
Less 2012 Recommended Operating Budget (Administration)		(4,075,363)
Projected Available Balance (December 31, 2012)	\$	36,299,739
Note: Cash Balance at January 1, 2012 does not include "bond debt service" reserve fund balance of \$10 million		

2012 Revenue Summary

User fees completely support the operations of the Water Division. Section 118 of the Columbus City Charter empowers the City Council to establish separate sewer and water rates to fully cover the cost of service. Rates are set to recover the cost of operations, maintenance and debt service, and are reviewed annually by the Sewer and Water Advisory Board. City Council must approve all rate increases before they are effective.

One of the city's goals in the rate setting process is to avoid steep increases and at the same time fully meet the needs of the system. To achieve this goal, a pro forma operating statement was developed. This document is updated annually to reflect current appropriation levels and adjusted for actual revenues and expenditures.

Statements in this section relative to this fund are made on a cash basis though do account for prior year expenditures.

2012 Revenue Summary

WATER OPERATING FUND REVENUE BY SOURCE AND YEAR HISTORICAL AND PROJECTED 2009-2012				
REVENUE SUMMARY	2009 Actual	2010 Actual	2011 Estimated	2012 Proposed
Water Sales	\$ 127,557,616	\$ 135,745,830	\$ 146,256,893	\$ 156,007,353
Water Penalty Fees	1,727,213	1,772,802	1,827,944	1,846,223
System Capacity Charges	2,987,186	2,821,000	3,415,894	3,450,053
Sewer Billings	5,796,878	5,648,001	6,680,187	6,880,593
Meter Service Fee	741,917	389,160	423,866	428,105
Investment Income	1,977,259	1,026,337	940,770	950,178
Other Revenue*	1,983,692	4,638,736	7,210,350	3,613,031
Beginning Year Cash Balance	34,746,266	31,298,309	35,368,275	40,554,562
TOTAL RESOURCES	\$ 177,518,027	\$ 183,340,175	\$ 202,124,179	\$ 213,730,098
PERCENT CHANGE		3.28%	10.25%	5.74%

*Includes debt refinancing premiums in 2010 and 2011.

Revenue Notes:

- The Sewer and Water Advisory Board recommended an eight percent increase in revenues in 2012, largely funded by rate increases to the various customer classes. With this increase, revenues, excluding the beginning balance, will total over \$173.18 million in 2012.
- Sewer billing charges are projected to total \$6.88 million in 2012. These charges reflect the Sewer Division's portion of the cost of operating the billing system in 2012.
- System capacity fees are assumed to grow by one percent. Growth of this fee has declined steadily over the last decade, as it is based on growth of the water system, which has also slowed in recent years.
- The low income discount is continued in 2012 on the commodity portion of the water bill to provide financial relief to qualified customers.
- Due to the volatility of the market, the interest income projection is very conservative and reflects a growth rate of one percent over that of 2011. Investment income, as a revenue source to the enterprise funds, is based on the amount of cash available in the treasury upon which interest can be earned.

Water Pro Forma Operating Statement

A pro forma operating statement from 2010 through 2021 is presented below. The statement is designed to project the utility's revenues and expenditures for that period, given certain assumptions and is essential to the planning and rate setting process. The major assumptions upon which the water pro forma's numbers are based are as follows:

- The sewer and water advisory board recommended rate increases to produce eight percent more revenue in 2012.
- Water sales growth is projected at zero percent in 2012, 0.5 percent in 2013 and 2014 and at 1 percent for the balance of the pro forma projection period.
- System capacity charges are assumed to grow by one percent annually, representing modest growth of these charges.
- Interest rates on investments of revenues and reserves are projected to grow by one percent annually.
- Projections for personnel costs reflect the rates in effect for the various collective bargaining agreements and/or management salary ordinances represented in the division.
- Included in the operations and maintenance budget for 2012 is \$7.79 million for payment of pro rata and \$18.89 million for the purchase of chemicals.
- Proposed new debt is issued in the form of bonds at an assumed interest rate of four percent in 2012, 4.5 percent in 2013 and five percent thereafter.
- The Division of Water's capital improvements budget (CIB) has been discounted by 20 percent. This reduction recognizes the probability that debt issued in any given year will not reach the levels outlined in the division's capital improvements budget due to unavoidable lags in the project planning and implementation process.
- A portion of the costs associated with the Public Utilities Director's Office are borne by the water enterprise operating fund. In 2012, \$4.1 million is allocated in this fund for this purpose.

Storm Sewer Maintenance Fund

2012 Cash Balance Statement

Prior to 1993, the storm sewer maintenance special revenue fund was used only to reimburse the sanitary operating fund for stormwater management expenses. No expenditures were made directly out of this fund. This arrangement changed in 1993, when the storm sewer maintenance fund became the operating fund for stormwater management engineering and design, although the sanitary fund is still reimbursed for some storm sewer maintenance expenses. More recently, this fund's designation changed from that of special revenue to enterprise fund. This change allowed the division to set aside monies in a reserve fund against which contracts could be certified in the absence of bond cash.

A 2012 beginning year cash balance of \$17.6 million is projected for this fund. This includes a \$9 million reserve balance. No additional reserve fund transfers are projected at this time. However, the department will request that any surplus revenues, when available, be shifted to that fund.

2012 STORM SEWER MAINTENANCE FUND BALANCE SUMMARY		
Unencumbered Cash Balance (January 1, 2012)	\$	17,645,354
Plus Estimated 2012 Receipts		<u>37,223,427</u>
Total Estimated Available Resources	\$	54,868,781
Less 2012 Recommended Operating Budget		(37,242,558)
Less 2012 Recommended Operating Budget (Administration)		(1,218,391)
Projected Available Balance (December 31, 2012)	\$	<u><u>16,407,832</u></u>
Note: Balance at January 1, 2012 includes reserve fund balance		

2012 Revenue Summary

Storm sewer maintenance fees provide the vast majority of revenues to this fund. In August 1995, the Division of Sewerage and Drainage implemented a new fee structure based on the impervious area of a given property, which directly relates to stormwater runoff into the storm drainage system. The stormwater service fee is based upon an equitable and consistent rate system, defined in equivalent residential units (ERU), where one ERU equals 2,000 square feet of impervious area.

In 2011, there was no increase to this fee as it was determined that sufficient revenues were being generated using the current rate structure. Similarly, in 2012, the Sewer and Water Advisory Board recommended a two percent decrease to the ERU as a minor adjustment to the ERU rate structure.

Statements in this section relative to this fund are made on a cash basis though do account for prior year expenditures.

2012 Revenue Summary

STORM SEWER MAINTENANCE FUND REVENUE BY SOURCE AND YEAR HISTORICAL AND PROJECTED 2009-2012				
REVENUE SUMMARY	2009 Actual	2010 Actual	2011 Estimated	2012 Proposed
Storm Maintenance Fees	\$ 32,565,490	\$ 36,184,609	\$ 36,821,732	\$ 36,583,798
Investment Earnings	531,708	299,249	185,264	190,822
Other Revenues *	360,357	674,254	1,152,709	448,807
Beginning Year Cash Balance	9,229,497	10,017,172	14,589,534	17,645,354
TOTAL RESOURCES	\$ 42,687,052	\$ 47,175,284	\$ 52,749,239	\$ 54,868,781
PERCENT CHANGE		10.51%	11.82%	4.02%

*Includes debt refinancing premiums in 2010 and 2011.

Revenue Notes:

- 2012 revenues are based on a charge of \$4.48 per ERU, per month.

Storm Sewer Maintenance Pro Forma Operating Statement

- The Storm Sewer Maintenance pro forma operating statement assumes that there will be a two percent decrease to the storm sewer maintenance fee in 2012 such that the new ERU, or equivalent residential unit, will be \$4.48.
- Proposed new debt is issued in the form of bonds at an assumed interest rate of four percent in 2012, 4.5 percent in 2013 and five percent thereafter.
- The division's capital improvements plan has been discounted by 15 percent throughout the pro forma period. This reduction recognizes the probability that debt issued in any given year will not reach the levels outlined in the division's capital improvements budget due to unavoidable lags in the project planning and implementation process.
- In 2005, costs associated with the street cleaning function were added to the storm sewer budget, having been transferred from the Public Service Department. In 2008, snow removal costs were also transferred. In 2012, the cost of these services will total \$7.1 million.
- A portion of the costs associated with the Public Utilities Director's Office are borne by the storm sewer enterprise operating fund. In 2012, \$1.2 million is allocated in this fund for this purpose.

Capital Summary

To be eligible for capital improvements funding (i.e., from issuance of debt), an asset must have a useful life of at least five years and be considered non-operational. Some examples of capital improvements projects include the purchase of major equipment items, street lighting improvements, street improvements, land acquisition for recreational needs, building construction, and facility rehabilitation.

The national rating agencies, Standard & Poor's Corporation, Moody's Investors Service and FitchRatings, currently give Columbus their highest long-term credit rating – AAA, Aaa and AAA, respectively. These ratings allow Columbus to realize interest savings when issuing debt because investors are confident of timely repayment.

Voted debt typically carries lower interest expense than non-voted debt. Moreover, because it is good public policy to solicit voter input and participation in the capital prioritization process, the city typically requests voter approval of bond packages. On November 4, 2008, voters approved six separate bond issues totaling \$1.7 billion, generally intended to accommodate planned capital improvements mainly through 2016 for non-enterprise agencies, and through 2013 and 2017 for water and sanitary sewers, respectively.

The 2008 voted bond package provides voted authority for Safety and Health, Transportation, Refuse Collection, Sanitary Sewers, Water, and Recreation and Parks capital projects.

The proposed Capital Improvements Program (CIP) provides approximately \$2.5 billion in funding for various capital improvements for the 2012-2017 period. Of this amount, \$618.0 million is to be supported by the special income tax fund (SIT). The SIT fund is used primarily to support non-enterprise debt. Respective system revenues service the debt issued for information services, fleet, water, electricity, sanitary sewer and storm sewer improvements.

The proposed CIP incorporates several key assumptions. The Police and Firemen's Disability and Pension Fund Employer's Accrued Liability Refunding Bond will continue to be funded by the SIT fund. The CIP also includes ongoing funding for mechanized refuse collection equipment, fire apparatus, recreational projects and various street and highway projects.

The administration intends to continue to review the proposed capital improvements program through the end of the year. It is possible that adjustments to the proposed plan could occur to accommodate changes in priorities and financial assumptions.

An updated analysis of the SIT fund and a listing of all projects funded in the CIP and respective funding sources follow. This document includes funding through 2017 for all city divisions with scheduled projects.

Special Income Tax Analysis

The city deposits one-fourth of the City of Columbus' two and one-half percent income tax to the special income tax (SIT) fund to service debt, primarily for non-enterprise agencies. In 2012, SIT income tax deposits are projected at nearly \$173.7 million. Non-enterprise agencies primarily represent operations funded by the general fund or the street construction, maintenance and repair fund that do not have separate revenue sources. Non-enterprise projects include construction and improvements of expressways, parks, fire stations and equipment, police facilities, and streets and traffic control. In addition, the SIT fund services debt on the Capitol South redevelopment projects.

The SIT analysis also includes some debt service associated with storm sewers, primarily those projects authorized in the 1991 voted bond package, which totaled \$25 million. All other debt service for storm sewers is paid from the storm maintenance fund. Tipping fees for solid waste disposal are budgeted at \$17.6 million in 2012. It is preferable that this expense be borne by the general fund. However, at present, due to fiscal constraints, it is not included in the ten-year general fund pro forma operating statement.

Capital projects for non-enterprise agencies are financed either through voted bond packages or through councilmanic (unvoted) debt. Voter approval provides the city with the ability to levy an ad valorem property tax to service the debt. While the city solicits voter approval from time to time, it has never exercised its taxing authority for this purpose and does not intend to do so; however, its ability to do so gives investors assurance that their investments in the city are secure.

Income tax growth is the most important determinant of the city's capacity to issue additional debt. Table One shows the projected debt service requirements from the SIT fund for 2011 to 2020. Various assumptions and explanations are highlighted at the bottom of the table.

Table Two and Figures One and Two provide a summary of the CIP by division and funding source. Figure Two highlights the amount of councilmanic and non-enterprise voted 2008 projects in the CIP; the associated debt service will be supported by the SIT fund.

Coverage Factor

The SIT fund's available capacity for new debt and its ability to service existing debt are expressed as its coverage factor. Coverage, depicted in the "coverage columns" on Table One, is a ratio of revenue to expenditures and provides a minimum level at which a fund balance should be maintained for contingency purposes. Coverage levels are goals, not absolute minimum levels of acceptance. "Current year coverage" shows the degree to which current revenues will meet current expenditures. "Total coverage" is similar, but also includes the prior year-end fund balance as revenue. At present, the targeted level is to maintain 50 percent surplus capacity (a 1.5 total coverage factor).
